ACKNOWLEDGMENTS

We would like to thank the Kentucky Historical Society for permission to use parts of the Luke Munsell Map of 1818. The map corresponds closely with the 1820 census.

We would also like to thank Harley S. Little for his assistance on Floyd County.

Many thanks to Linda and Janette Dixon for their help, understanding and patience while we were working on this book.

INTRODUCTION

This book was compiled in the interest of those persons who have been searching for information about their ancestors.

The 1820 Census of Southeastern Kentucky is composed of seven counties. It includes twenty present day counties and parts of eight other counties.

As a result of illegible writing on the census record and parts of the microfilm faded some errors may occur. We have tried to minimize the number of errors through careful checking.

We found it necessary to use tax records to verify some names which appeared on the microfilm for the Rockcastle County census.

Harlan County was partially alphabetized on the original census, therefore we did not make any changes from the original census records.

We have copied the names from the census records as they were recorded and no attempt was made to correct any variations of spelling.

We are hoping this book will be of value to you as a tool of research in genealogy.
