THE MUHLENBERG ECHO

WILL. H. EAVES,
Editor & Proprietor.

THURSDAY, FEB. 17, 1887.

Hereafter all announcements of candidates must be paid in advance before they will be inserted.

Obituary notices making over five lines will be charged at the rate of five cents per line.

ANNOUNCEMENTS.

We are authorized to announce J. C. MOORMAN, of the South Carrollton precinct, as a candidate to represent Muhlenberg county in the Lower House of the next General Assembly of Kentucky, subject to the action of the Democratic party.

To the People of Muhlenberg County:

I am a candidate for re-election to represent Muhlenberg county in the Lower House of the next General Assembly of Kentucky, subject to the action of the Democratic party. Having faithfully represented what I believed to be the best interest of my constituents, in accordance with the time honored custom of the Democratic party, I ask an endorsement for a second term. I am thankful for past favors and solicit your support. At the proper time I shall make an extended canvass of the county.

Very Respectfully,
R. Y. THOMAS, JR.

OUR SPECIAL OFFER.

In consideration of the situation in which the county has been so suddenly and unexpectedly placed, we have decided to reduce the price of THE ECHO to \$1 per year to those who subscribe before the 4th of July, after which time if the prospects for the county shall have become brighter, we will probably return to our original price of \$1 50 per year. Although we have been encouraged by our renewals since the first of the year, yet since unlooked for expenses threaten those who have always stood by THE ECHO we can not do less than make some sacrifices ourselves. Our expenses will not be in the least decreased and we intend to give our patrons a paper worth \$1 50, just as we started out to do at the beginning of the year. We can make nothing at it but probably we can live, and until the skies grow brighter for our unfortunate county that is all we should expect. THE ECHO is for the people and with the people in their trouble. And in making the above offer we do it solely because we desire that all who have been accustomed to read THE ECHO may continue to receive it. Those who have renewed at \$1 50 can have their subscription credited by the extra half year or upon application the 50 cents will be returned.

The Republican! A man who as reported for the Commercialist a force bill slip right through under his nose and never once raised his voice in warning to the wise and watchful soldiers sent to Frankfort to watch the interest of their constituents. Ye gods, what a charge! If true, we should feel meaner than if we had formed a conspiracy with his satanic majesty to rob the contribution plate of a foreign missionary society and had been caught in the act.

We do not consider it necessary that we defend our Democracy or offer any apologies for our youthfulness. If we are young we can prove our Democracy to the people of the county by the records, which is more than Mr. Thomas with all of his years can do. We gave the Democrats, some plain facts and for that Mr. Thomas, in all of his fiery and untamed eloquence will denounce us from every stump in the county, but we can stand it. We told some unpleasant truths and of course they will hurt.

THE Muhlenberg Republican is booming the Hon. Clifton J. Pratt, of Madisonville, as a suitable man to lead the forlorn hope on the Republican ticket as candidate for Governor. He would lead it about as gallantly, outside of Muhlenberg and a few other counties in the State, as any man in the Republican party in the State, and we believe he would accept the inevitable defeat which awaits the Republican aspirant for gubernatorial honors in the approaching canvass, with as much grace as any one whom the Republicans could select.

Page 2. - Col. 2

THE announcement of Mr. J. C. Moorman as a candidate for the Legislature, subject to the action of the Democratic party, appears in this issue. Mr. Moorman is well-known in the county, a simon pure Democrat, and a man upon whose character or reputation there is not a blot. He represented the county in the Lower House of the Legislature in 1870, and made a faithful, honest, wide awake representative. If selected by the Democrats as their

candidate for the Legislature, he will go in to win, and with a clear road and commanding the confidence of the people as well as his party, he will inspire that enthusiasm which cannot fail to insure success at the polls in August.

A New Funding Board.

Since the decision of the Supreme Court in the *Mex v. Weather* case and the discovery of the force bill which was slipped through the Legislature in the interest of bondholders, the only talk in this county among its more representative citizens, who have homes and property at stake, has been in favor of a speedy compromise. Preparatory steps have accordingly been taken with a view to opening negotiations for a compromise as soon as the case which is now pending in the United States Circuit Court before Judge Jackson is disposed of, and the injunctions which put a stop to the old compromise are dissolved. The resignation of the old board of funding commissioners has been asked for by County Judge Q. B. Coleman upon the ground, that their term of office has expired, and that in order to constitute a legal board there must be a new one appointed, as there was no election for commissioners held last August which now makes it the duty of the County Judge to appoint a board. The old funding board met on Friday, the 11 inst., in response to a summons by the County Judge. Until the situation was explained several of the members of the old board refused to resign. However they have all conditionally tendered their resignation except Mr. Whittaker, of Wild Cat, and his resignation is expected in a few days. In answer to our question of whom he would appoint in the place of the members of the old board, Judge Coleman said that he had not fully decided, but that he would appoint no one who was ever a magistrate, bond holder, member of the funding board or a member of the Independent Order of Taxpayers. The men selected will be capable and representative men who has never been mixed up in any way with the unfortunate muddle of affairs in the past. The case now pending in the United States Circuit Court will come up for decision on the 24th of this month. Mr. Brown the attorney for the taxpayers has been written to by members of the order urging him to be ready, in order, that the case might be disposed of. After that some very decided steps will be to be taken to bring about a speedy compromise.

WHAT THE PEOPLE CAN DO.

Judge Eaves Says Stop Carrying at Representatives and Senators.

He Suggests That we go to Work and Secure a Repeal of That Obnoxious Amendment.

CENSURE NONE BUT DEMAGOGUES.

The following communication from the pen of Judge Charles Eaves is opportune, intelligent and interesting. We give it space and commend it to the careful consideration of our readers. The suggestion of the contributor is wise and should be accepted. Citing cases similar to that of Muhlenberg county, the Judge says:

In the case of Thompson vs. Allen county—115 U. S. Supreme Court reports, 472—the Supreme Court decided that the United States Circuit Court for the district of Kentucky had no authority to appoint a collector of the tax in Allen county, levied to pay the interest on bonds of said county, the act of the Legislature under which the bonds were issued providing that the tax should be collected by a collector appointed by the County Court, and the County Court having failed to appoint a collector because no one would accept the appointment. This decision was rendered November 23, 1885.

In McLean county (Livermore) precinct vs. Deposit Bank of Owensboro—Ródman, 225—the Court of Appeals of Kentucky held that the Circuit Court of McLean county could not, in a suit brought for that purpose, appoint a Collector to collect the tax in the Livermore precinct to pay interest on its bonds, the act of the Legislature under which the bonds were issued providing that the tax must be collected by a Collector appointed by the County Judge, and the County Judge failing to appoint a Collector because no person would accept the appointment.

Both decisions go upon the principle that courts can not legislate; that if the bondholders are without a remedy for the collection of the tax they must apply to the Legislature and not to the courts for relief. These decisions are manifestly sound and just.

Does the act to amend section 475

of the CIVIL CODE OF PRACTICE—SECTION 475—MAY 10, 1890—REVISED EDITION ACT, 1886-8, page 111—give to the bondholders the remedy they so much craved? This remedy is copied from section 470 of the act of 1886-7, which was in force in Iowa. The court may upon application of plaintiff, besides, or instead of, proceeding against the defendant by attachment, direct that the remedy to be done may be done by the plaintiff or some other person appointed by the court, at the expense of the defendant.

The Supreme Court of the United States, in the case of The Board of Supervisors of Lee county, Iowa, vs. Evans Rogers—7th Wallace, 175—says, after quoting the above section: "This provision is found in a chapter regulating proceedings in the writ of mandamus; and the power is given the court to discharge the duty enjoined by the preceptory writ, which the defendant had refused to perform, and for which refusal he was liable to an attachment, fine and imprisonment. It is given by way of alternative proceeding in execution of the preceptory writ in lieu of the attachment, and is express and unqualified. The duty of levying the tax upon the taxable property of the county, to pay the principle and interest of these bonds was especially enjoined upon the Board of Supervisors by the act of the Legislature that authorized their issue, and the appointment of the Marshal or a Commissioner, in pursuance of the above section, is to provide for the performance of this duty where the Board has disobeyed or evaded the law of the State and the preceptory mandate of the court."

So it is clear that before the amendment the court awarding a writ of mandamus had no authority to appoint some other person to perform what was required to be done, could not appoint another person to levy or collect a tax, but now since the amendment, it is clear that the court may in case of refusal to act by the proper officer, appoint some other person to act in his stead, both in levying and collecting the tax.

Manifestly the amendment to section 475 of the Civil Code of Practice was so adroitly framed as to escape the vigilance of the most alert. Instead of carping at Representatives and Senators let us go to work like men, business men, and compromise the debt and secure a repeal of the amendment. I censure nobody except the demagogues who are ruining the county by foolish litigation and failing to compromise when it could have been done on better terms than can now be obtained.

Adjudged a Lunatic.

Last Sunday evening Mr. Wooten brought to this place Riley, a young man from South rollon, son of Mr. Edge Riley,

Page 3 - Col. 2.

son of that place, and delivered him over to Judge Coleman Monday morning on a charge of lunacy. An inquest of lunacy was immediately held, and young Riley was adjudged a lunatic. Judge Coleman notified the authorities of the asylum at Hopkinsville, and is now waiting to hear if they can accommodate him before sending him. The asylum is crowded, and it is doubtful if room can be made for Riley there several weeks.

The Result of a Drunk.

Last Friday evening late, George Quisenberry and his half brother Harvey Quisenberry, reached Central City from Rockport, and filling up on liquor and proving themselves with a half pint start, about dusk to walk up to Main Station on the railroad track, reaching the first trestle on the about one mile west of Central City. Harvey, whose gait had become very unsteady, and whose step uncertain, missed his footing by attempting to cross the trestle and into the creek. George, who was walking a little distance ahead, attracted by the noise, and looking around and not seeing Harvey, rushed back and found him splashing around in the water. After helping him out and across the trestle, they started again for town. Before proceeding far Harvey became helpless, so George, trying to help him along, concluded to leave him until he could get assistance. Going to

for his brother-in-law, Andy Bradley, and both men went back and carried Harvey to Andy's house, where he was put to bed and nothing more thought of the matter, as it was supposed that he had fallen into a drunken sleep. About 4 o'clock Saturday morning he was found dead. There were several marks and scratches about his person which it is thought he received in his fall. The verdict of the coroner's jury at the inquest held Sunday was in substance that the deceased had come to his death by relaxation caused by the chill from falling into the water, and the effect of being drunk.

Circuit Court.

Monday morning the February term of the Muhlenberg Circuit Court convened with Judge John R. Grace, on the bench, and the Hon. James B. Garnett, present to represent the Commonwealth. After going through with the usual preliminary attendance upon the opening of the Court, the impaneling of the grand jury was commenced and finished, after which the members were sworn and given their instructions by the Court. The following is a list of the grand jurors:

George W. Eaves, Foreman.	W. K. Morgan
John J. Humphrey,	A. H. Glenn
Jack Kittinger,	J. H. Richardson
Wm. Tinsley,	A. M. Terry
J. W. Yonts,	W. T. Bell
L. E. Jones,	Andrew Byrns
James Fauchender	C. R. Carneal
J. J. Elkins,	
John A. Stokes.	

Tuesday morning the petit jury composed of the following named gentlemen, was impanelled:

J. C. Moorman,	H. B. Kittinger,
John Ritchey,	B. T. Drake,
L. F. Pass,	H. B. Kittinger,
Robert Glenn,	John Luckett,
C. W. Sparr,	C. H. Tappan,
E. H. Lemigant,	N. M. McCallum,
W. H. Dennis,	Samuel Sweeney,
P. H. Drake,	Atlas Smith,
J. A. Hendricks,	John G. Barsley,
D. E. Rhoades,	John Rowe,
J. C. Johnson,	Samuel Arnold,
A. M. Jenkins,	C. B. Pittman,

The officers of the court are certainly to be congratulated upon their selections of the grand and petit juries. As a more intelligent, capable and fair minded body of men than those who compose the juries at this term of the court could not be selected. From all indications the grand jury will have a busy session and will probably return two indictments for murder.

The Commonwealth's docket is large but many of the cases have been on the docket for years and when called are usually disposed of by an order continuing them with alias processes to all neighboring counties. The appearance docket shows thirty common law and thirty-one equity cases.

LITTLE PICK-UPS.

John Rice, indicted for assault and battery, was fined \$15.

Out of 60 cases on the docket for Tuesday only one trial was obtained.

The number of juries on the juries at this term of the court is noticeable.

John F. Jernigan, of Central City, indicted for brutally whipping his little daughter, was fined \$5.

Wm. Hoskins plead guilty to an indictment for carrying concealed, a deadly weapon and was fined \$25.

John Pickersgill, of Central City, the man who was indicted at the August term of the court for brutally beating and assaulting his sixteen-year-old daughter, was tried yesterday, found guilty and fined \$28.50.

A BOOM IN PROSPECT.

Capitalist Attracted by the Superior Quality of Iron Ore in Muhlenberg.

Seeking its Development Along the O. & N. Railroad.

The Owensboro Daily Messenger of last Friday contained the following article concerning a prospective iron boom which will soon strike Muhlenberg, along the O. & N. railroad. The following is what the Messenger has to say:

The Messenger has information from a strictly reliable source that iron ore in paying quantities has been discovered on the O. & N. road not a great distance from Owensboro, and that English capitalists have secured options on the property with the view to its purchase and the development of the hidden treasure it contains. Competent experts have examined the ore and pronounce it of a very superior quality, such as that from which blackband iron is extracted. It is not at all improbable that the opening of these mines will result in the establishment of large iron furnaces here, such as have given Chattanooga, Tenn., and Wheeling, W. Va., their big booms. The iron, coal and coke, the three requisites in the operation of a furnace, are in closer proximity to Owensboro than either of the above cities, while we have the additional advantage of river competition. The establishment of one \$1,000,000 furnace in Owensboro would give it such an impetus that nothing in the future would impede its progress on the high road to prosperity and greatness. Let our people bide their time. A great future is dawning upon Owensboro, and the next decade, we believe, will witness the full development of our resources and the consequent doubling of our population.

The Messenger seems to have no

denial that as to the iron boom where the boom will probably strike. And in truth the matter is shrouded in a good deal of mystery. A reporter for The Echo has been diligently on the hunt for inside facts but parties who are in the secret look mysterious and refuse to be interviewed. We however have it from a reliable source that Capt. J. W. Moores and Col. Kellar, of Beaver, are the prime movers in the enterprise and that they are backed by a strong company of Eastern capitalists, some of whom have been seen quite frequently of late prospecting along the O. & N. railroad in this county. From the same source we learned that Capt. Moores and Col. Kellar have had a civil engineer at Beaver for sometime engaged in making a map of that whole section of country. Meeting a prominent citizen of Rice Dale in town Tuesday, whom we supposed would be on the inside if there were any such enterprise on foot, we approached him on the subject, but he declined to give any information stating that we would hear something soon. We have it also from good authority that an effort is being made to buy the tract of land lying between the upper and lower Greenville and Elkton roads on Pond creek, known as the Buckner iron works, and that the boom is likely to settle down there. About a half mile east of Peard, near the Cedar Dale school house, a party of six or seven men have been boring for several days. Three weeks since a party of capitalists spent five or six days prospecting in the vicinity of Peard and after going away sent back the men who are now at work, as it is supposed, under the orders of the capitalists. In answer to inquiries of the citizens of the vicinity the men state that they are prospecting for coal. The movements of parties connected with the affair certainly indicates that there is something on foot, and we join with the Messenger in saying "On with the boom." With all of her mineral resources, why can't Muhlenberg have a boom as well as Decatur, Birmingham, Florence, Florence and those other towns in Alabama.

A Lucky Kick.

Monday evening the Rev. James Spurlin, as he was riding through town upon one of those uncertain beast known as a mule, was thrown by the animal when just opposite the bank. His foot hung in the stirrup and he would probably have been dragged around the street by the frightened animal or kicked to death, had not a lucky kick of the mule knocked his foot from the stirrup. The affair caused considerable excitement among those who were in the locality, but Mr. Spurlin escaped without injuries more serious

than a few bruises.

Wednesday's Weddings.

Yesterday evening at the home of the bride's brother, Prof. Anthony Beecham, Mr. Morgan Lovell, one of Greenville's most popular and prominent young business men, and Miss Ephram Beecham, a pretty and interesting young belle in Greenville society, were united in marriage by the Rev. Gus McDonald in a beautiful and impressive ceremony. Only

a few of the most intimate friends of the bride and groom were present. After the ceremony the happy couple and their honored guests were ushered into the dining hall where an elegant wedding supper awaited them. Today the young couple will go to the residence of the groom's father, Mr. W. M. Lovell, on the Greenville and Madisonville road about three miles from town, where they will be joined by Mr. Lidian Lovell, a younger brother of the groom, who yesterday evening was united in marriage to Miss Corde Adkins, the daughter of Mr. S. M. Adkins, and a double reception will be given the happy young people. The Echo joins with the many friends of the popular young couples in wishing them all the happiness possible in their new lives.

The following marriage license have been issued this month:

- Thomas A. Cook to Susan A. Stroud.
 - J. W. Reno to Annie Blain.
 - Louis Wiggins to Mary France.

TO OUR PATRONS.

We are pleased to be able to announce to the friends of the Echo that its proprietary change, notice of which was given last week, will in no wise affect the politics of the paper—it will continue sterlingly democratic; but with the infusion of new blood and a deeper financial interest we hope to make it doubly valuable in all the channels in which a country newspaper can be beneficial to its patrons. With this end in view we pledge ourselves to make every effort calculated to increase its excellency and earnestly ask our friends to give us their aid.

The Winchester Democrat seems to be hoping to induce Prof. R. N. Roark to move his school from Glasgow to Winchester. That is an honorable ambition, for Prof. Roark is a truly valuable man, but Glasgow will object, and should object most vigorously. She cannot afford to lose Prof. Roark, even though he is to go to the delightful and progressive Queen of the Highlands.—*Lexington Observer.*

The increasing fame of Prof. Roark as an educator is affording much gratification to his many friends in his old home.

Democratic Swamp Angels

On Saturday, the 13th of September, 1888, the following members of Paradise precinct met at Cedar Grove schoolhouse for the purpose of organizing a Democratic Club. The following gentlemen were present: G. V. Glenn, Chairman of the District Committee, who proceeded to organize by electing S. P. Vanlandingham, President, A. T. Glenn, John B. Vanlandingham and W. E. Weir, Vice Presidents, W. G. Weir, Secretary and A. T. Vanlandingham, Treasurer. The following names were enrolled: G. V. Glenn, Q. C. Vanlandingham, Sr., E. S. Vanlandingham, W. E. Weir, W. M. Dennis, J. D. Vanlandingham, R. A. Glenn, W. B. Vanlandingham, S. M. Weir, J. A. Vanlandingham, E. T. Sears, S. P. Vanlandingham, A. T. Glenn, W. G. Sears, H. H. Dennis, D. W. Rhoades, S. O. Sears, M. C. Welborn, J. B. Hendrick, M. C. O'Neal, P. L. Howerton, W. L. Howerton, J. C. O'Neal, J. C. Harlan, Philip G. Helsley and Willis Sears. Whereupon the following resolutions were passed:

1. Resolved, That this club shall be known and recognized by the style of "the Democratic Swamp Angels of Paradise Precinct."

Resolved, That the regular time of meeting for this club shall be every Friday night at early candle light until further ordered.

Resolved, That the members of this club hereby reiterate and reaffirm their admiration for and adherence to the war tried and time honored principles of Democracy as the only palladium of human rights, and congratulate themselves for having been, in time past, to some extent instrumental in furnishing to the misgoverned and taxridden people of the United States and the intelligent and liberty seeking world, the most splendid specimen of a courageous, pure, able and patriotic President of a Republic as exemplified in the official acts and administration of Grover Cleveland, Democratic President of the United States. That they hereby individually and collectively constitute themselves, electors, and a body of electors, to endeavor by all honorable means to procure the re election of this model President, and the elec-

"Noblest old Roman." That they may have a memorable record made by our Democratic representatives in Congress in their manly and noble efforts to follow the line of the noblest old Roman, which our corrupted party and press are attempting to overthrow. We invite the Government to the same principles and economic principles that regulate the affairs of our Republic.

Resolved, That they recognize in the Hon. I. H. Goodnight, Democratic nominee for Congress in the Third Congressional District, as a Democrat "simon pure and sans reproche," and that they will support him by their vote and influence, not only as the nominee of the party, but as the man par excellence of their choice.

5. Resolved, That it is a conviction of their experience that strength exists most powerfully in organization, and that party faith is the shibboleth to success. They therefore pledge themselves and all their energies to the support of all Democratic nominees to office, from a turn-key of a prison to President of the United States, and confident of the uprightness of their cause, and relying upon that proud destiny that awaits the nation from the prevalence of pure Democratic principles, they invite the closest scrutiny of their acts and opinions, and stand pledged at all proper times and occasions to give "a reason for the faith that is within them," while their return will take the utmost liberty in criticising the acts and opinions of their political opponents. With these declarations they defiantly unfurl their flag to the battle's breeze.

6. Resolved, That a copy of these proceedings be furnished THE MUHLENBERG ECHO, with a request that they be published.

HES ALL RIGHT.

Goodnight Makes an Able Speech to Central City Democracy.

DEMOCRACY'S FLAG UP.

The flag raising and speaking at Central City last Saturday was attended by a large crowd of democrats from all over the county. Mr. Goodnight was on the ground early and made a splendid impression on all with whom he met, and he became personally acquainted with nearly every one present. His evident energy, personality and pleasing address which so favorably impressed all with whom he came in contact in the morning received additional emphasis in the able address in the afternoon. Instead of the usual meaningless, chestnut flavored anecdotes with which political speakers regale their audiences, Mr. Goodnight addressed himself to the real and dignified questions at issue between the two parties. His illustrations and arguments were direct and to the point and put in such plain terms that they carried conviction in every sentence and held the attention of his hearers to the finish. Every democrat present with whom we have since spoken considered the speech as one of the best they had heard on the tariff. If Mr. Goodnight develops as much enthusiasm at other points he visits in the district as at Central City a glorious victory awaits us in November.

A flag pole one hundred and twenty feet high was raised and a forty foot banner run up and thrown to the breeze in behalf of Cleveland, Thurman and tariff reform. The first effort to raise the flag failed. The guy ropes broke and let it drop about forty feet. They were borrowed from the republicans and could not stand the strain. Mr. Albeck Tinsley at once sent off and got some of his own and of tested democratic strength that sent the pole up without further trouble.

The crowd present was orderly and the day passed off without any disturbance. Mr. Goodnight spoke at South Carrollton at night a report of which will appear next week.

James Myers and Miss Savannah Hay, accompanied by their next best friend, Mr. Myers' brother and wife, appeared before deputy county clerk W. E. Roark on last Saturday desiring the legal right to become man and wife as by statutes provided. They were accommodated. Mr. Roark will seldom refuse a request of this kind for other people, but has never been known to take his own medicine; however, leap year is not gone yet. Mr. Myers lost no time in completing his title, and called on Judge Coleman, who finding no objection, then and there pronounced the magic words that merged the individuality of the fore-mentioned Miss Savannah.

COUNTY TEACHER'S INSTITUTE.

The Town Full of School Teachers...
Proceedings of First Day's Session of the Institute.

The first Teacher's Institute held in Muhlenberg county since the year 1880, was called to order by County Superintendent W. A. Wickliffe at 10 a. m., Sept. 10th, 1888. After some well timed remarks by the County Superintendent on institutes in general and this one in particular, organization was formed by electing W. A. Wickliffe permanent chairman and W. J. Cox assistant secretary. Our County Superintendent had selected Prof. M. H. Rhoades, of Hartford College, as conductor of the institute, and whom he now introduced to the assembly. Prof. Rhoades then proceeded to define the part he should take in the institute, and the part he should expect from the teachers, also explaining the object of the institute, and many other matters connected therewith in such a manner as convinced the teachers that he was the right man in the right place. The Chair-

man then appointed the following Committee on Programme: G. H. Baker, Chairman; W. S. Fox, Wm. M. Love and W. J. Cox. The Committee reported the following for the afternoon session:

- 1. Alphabet, Prof. M. H. Rhoades
- 2. Primary Spelling, G. H. Baker
- 3. Advanced Spelling, by Miss Annie Plain.

- 1. Oral Reading, Peter Baker.
- 2. Silent Reading, W. S. Fox
- 3. Elocution, Miss Jennie Gordon.

Adjourment to afternoon session.

MONDAY AFTERNOON

- 1. 25 p. m. Roll-call.
- 1.32 p. m. Prof. Rhoades opened his talk on the "Alphabet" by exposing the faults of the rote method of teaching the alphabet, and expounding the great advantages arising from the uses of the kindergarten system, and of letters printed in attractive colors on blocks and charts.

1.48 p. m. Discussed by G. H. Baker, who called attention to his combined word method and word analysis.

1.55 p. m. Primary Spelling, introduced by G. H. Baker.

2.00 p. m. Discussed by J. R. Leigh and W. W. Lewis.

2.15 p. m. Miss Annie Plain having been excused from the subject of "Advanced Spelling," Prof. Rhoades discussed the subject from many standpoints, viz: various ways to arouse interest, blackboard and tablet exercises, phonetic spelling, etc.

2.42 p. m. Discussed by Chairman, G. H. Baker, Thos. E. Sumner, W. H. Hoskinson and W. J. Cox.

3.05 p. m. Recess of one-half hour.

3.35 p. m. F. H. Lewis presented the subject of "Oral Reading." Discussed by W. W. Lewis and Miss Alice Sutton.

3.55 p. m. J. R. Leigh next demonstrated how to prevent repeating, drawing and rapid reading.

4.08 W. S. Fox expressed a few remarks on "Silent Reading." Discussed by R. B. Hardison, Sally R. Barkley and the Chairman.

4.25 Miss Jennie L. Gordon presented the subject of "Elocution" in a masterly manner, followed by a recitation by G. H. Baker entitled "Darius Green and his Flying Machine," and Prof. Rhoades closed the subject by cautioning the teachers concerning the presentation of too complex ideas on elocution to the smaller pupils.

Interesting programmes were gone through with on Tuesday and yesterday and we will give full report of balance of proceedings. Last night at the Presbyterian church Prof. J. J. Glenn, of Madisonville, gave a highly interesting and elevating lecture. The institute will adjourn Friday. The last two days will doubtless be the most interesting.

Bertram.

The series of meetings at the Forehand school-house closed Sunday, resulting in twenty-four conversions. On Sabbath afternoon, near Mr. T. J. Eades' farm, in Cypress creek, Revs. W. H. Woodson and L. J. Stirsman baptised twenty of the converts. All entered the water at

the same time, and the number baptised alternately. The scene was grandly sublime, and was witnessed by a large concourse of people on either bank of the little stream.

Miss Mary Eades, who has been spending a week with relatives in the vicinity of Oak Grove, returned home Friday.

Mr. and Mrs. J. W. Eades and Mrs. Runsey, were attending the meeting the last of the week.

Mr. J. V. Eades and wife, of our place, were the guests of their uncle, Mr. T. J. Eades, Sunday.

Mr. R. J. Reno sold a pair of mules a few days ago for \$280, and his brother, R. D. Reno, sold one for \$130.

Mr. T. O. Vincent, who removed to Earlington last spring, moved back recently, and will take charge of the home farm for the next year.

Mr. Alex. Miller is convalescent, and we hope to see him restored to health in a short time.

It has been our intention for some time to especially call the attention of the public to a very fine piece of art work, the product of the skilled hand of Mr. John T. McIntire. It is a portrait of P. L. Townes, and is not surpassed by similar production that we have seen in the best galleries of the land. The picture was on exhibition at Eades' Hall during the institute, and elicited much comment from those versed in art matters. A hand so skilled as that of Mr. McIntire should not like for recognition among a people who like high art.

The Magistrates Meet Again.

The magistrates met Tuesday as per adjournment. Judge Q. B. Coleman presiding, and present J. V. Gish, G. B. Williams, D. J. Fleming, W. W. McPherson, Moses Wickliffe, B. T. Drake, T. N. Divine, Ralph Uzzie, Wm. Hill, Jacob Row, J. Ham

Heltsley, J. M. Shutt. Immediately after assembling they adjourned until 1 o'clock. Upon reassembling a motion was made to appoint a committee of six to wait upon Judge Brown to know upon what terms he would undertake the suits of the county. This was opposed by Mr. Wickliffe in a sharp speech, in which he stated his firm conviction that no farther expense should be saddled on the county; that it was unnecessary to see Judge Brown; that if he wanted to see the court he could come to the court house. He was followed by Mr. Fleming, who was of the opposite opinion. Mr. Heltsley then spoke at some length, during which he requested that the charge that there had been some dereliction on the part of county officers necessitating the present move should be made specific. Mr. Fleming stated that it occurred during Judge Morton's term in a failure to record order. Judge Morton being present came forward and declared the statement as being wholly without foundation, in proof of which he submitted his instruction as heretofore published in this paper. One or two other of the magistrates made short speeches. The vote was taken and stood 6 to 6. Judge Coleman cast the deciding vote, and appointed the following committee, which waited on Mr. Brown: J. H. Heltsley, Ralph Uzzie, Wm. Hill, I. N. Divine, J. M. Shutt, G. B. Williams. The committee went to Mr. Brown's room. Mr. Heltsley stated the purpose of the visit. In reply Mr. Brown stated that it would be impossible for him to fix the price. That there were a number of cases, and that they might have to be fought through several courts, but that he would charge exactly what the cases were worth. Mr. Heltsley then asked him what he thought of the present outlook. To this Mr. Brown made a general reply, stating that he had filed a written opinion in the outset, that there was evidence of fraud, etc., etc., and ended by saying that there were two sides to every lawsuit. He finally stated to the committee that by morning he could probably give an answer. The committee made a report in accordance with the above, and adjourned until Oct. 23d.

Democratic Demonstration.

A Grand Rally of the Party
Oct. 22d, at This Place.

Bands, Music, Speaking,
Processions, Enthusiasm, etc.

Preparations for the biggest day yet are being actively pushed in Democratic quarters, and everything bids fair for an occasion that will long be remembered. Hon. Herschel Goodnight will be here, as will also E. Polk Johnson, and deliver speeches. There will be a procession headed by a splendid brass band, and carrying banners, designs, etc. The following men have been put on committees for this place:

On music—P. L. Townes, T. B. Pannell, John F. Poag.

On arrangement of procession and as field officers—S. P. Love, chm., Alex. Tinsley, J. D. Yonts, Q. B. Boleman, T. B. Davis, Peter Petrie, Wm. McReynolds and Sam Vanlandingham. The chairmen of the various clubs in the county are also members of this club.

On Page and Banner—P. L. Townes, W. F. Dempsey and Judge Wickliffe.

Let every Democrat in the county be on hand. The occasion bids fair to prove interesting beyond anything yet seen in the county.

A Call for Vigilance
To the President and Officers of the Fair Association:
Sirs:

WHEREAS, The time for our County Fair is at hand, and there are some who take that opportunity to violate the prohibitory law, and thus subject to temptation many who otherwise would not partake of intoxicating drinks, therefore,

Resolved, That we, the members of the Woman's Christian Temperance Union, respectfully request the officers of the Fair Association to be specially watchful in regard to this matter to the extent of their jurisdiction.

2. That this request be presented to the President of the Fair Association, and be published in THE ECHO.

Mrs. E. W. HALL, Pres.

Mrs. J. F. RICE, Secy.

The Fair.

The Muhlenberg County Agricultural and Mechanical Association made a magnificent start on its third exhibition yesterday. The weather was perfect, and the crowd was much larger than on any previous first day. The stock and cattle rings were full, and the improved appearance of each ring showed the increasing interest taken by our people in such matters. The Association has done a great work for the county. The next three days have excellent programmes, and large crowds will be here every day during the week. Gov. Buckner was called to Frankfort yesterday to attend the burial of Mrs. Hanson, State Librarian, and so he will not be here to-day, but will be here tomorrow, if possible.

Morgan & Green are at home to Fair visitors especially this week with an elegant stock of dry goods, notions and groceries at low price.

Bring in your shoes to the new shop and have them repaired, or leave your measure for a nice winter boot or shoe.

DEMOCRATIC TICKET.

CLEVELAND AND THURMAN.

FOR CONGRESS.

I. H. GOODKNIGHT.

HON. G. W. HUNTER was in town a short time last Thursday. He left his business in the hands of trusty lieutenants and got away as fast as possible from the big democratic demonstration of Monday.

Page 2 - Col. 2.

"One of the grandest political demonstrations seen in this county for forty years" was the unanimous verdict on the Democratic rally Monday. The miserable weather of the day served to prove beyond doubt the enthusiasm and devotion of the party to the cause. Democracy in Muhlenberg is all right, and sends greeting to its brethren throughout the district.

If the Democrats of other counties of the Third district are as well in line as those of Muhlenberg, Herschel Goodnight will have smooth sailing. Every Democratic voter in Muhlenberg that can be heard of is enthusiastic for Goodnight, and eager to do him good service on the election day. Muhlenberg may be put down for 200 Democratic majority. In the *Messenger* office, by the way, are two good Goodnight voters, who will go over to Muhlen-

berg to help the gifted young man from Simpson out. *Messenger*.
 That's right, boys, come over, that makes 202.

DEMOCRACY.

It Gets Into Line and Parades its Strength to the Conster-nation of Republicans.

A Column 1287 strong takes the rain and mud heroically for Goodnight.

The Greatest Demonstration in the history of the Party in old Muhlenberg.

BANDS, SINGING AND SPEAKING.

Last Monday proved an epoch in the history of Democracy in Muhlenberg hitherto unsurpassed; unsurpassed, not only in the organization that it proved to exist, but also in the enthusiasm and devotion to party cause it evinced. The men stood patiently in line in the rain while it was being formed at the depot without complaint, and a comparatively few deserted the line before the close of the parade, although it passed for fully a half mile out towards the fair ground before it began the counter march. The counter march in the narrow street that leads to the fair grounds was performed without any serious break in the ranks, altho' the rain was coming down in torrents. They were sterling Democrats, every one of them, and nothing could dampen their enthusiasm. The merrain opened gloomy, rain having fallen through the night, and heavy clouds indicated a continuance. that began about nine o'clock and continued through the day. Democrats here did not expect one-third as many would get to the city, let alone being willing to form a procession. But in this they were mistaken. The Democracy of Muhlenberg is aroused and enthusiastic. As early as nine o'clock detach-

ments began to come in, some of them bearing flags and banners. They were received with cheers. By ten o'clock a pretty large crowd had assembled, and the line began forming in front of the Greenville Hotel. The ladies of the glee club were crowded into two coaches, there being fully thirty members in all. They were costumed with bandanas and flags in profusion, and presented a gay appearance. This part of the procession was formed rapidly, and reached the depot before 11 o'clock. There they were formed in a circle around the entire open area, two and three abreast. Here there was counted over five hundred horsemen, besides vehicles and footmen. A long wait occurred here, as a courier reported Mr. Goodnight not yet having passed Powderly. The time was taken up by music from the glee club, the rain falling in a slow drizzle during most of the time. But the boys were in for the parade, and didn't care a cent for the rain. The marshal's paraded across the open area in true military style, to the cheering music of the club and the incessant hurrahs for the various candidates. A courier finally reported the near approach of Mr. Goodnight, and also that he was accompanied by a company full five hundred strong, with two bands, one from Sacramento and one from Rockport. This brought the enthusiasm to fever heat, still the men kept their position in line, and used only their voices, but they used them with a good will. When Goodnight finally arrived, cheer after cheer ran round the circle and back the road toward Central City until lost in the distance. Mr. Goodnight passed around the circle in a buggy during the enthusiastic cheering, and then began the work of starting the procession. The rain was falling heavily at this time, but the men stood patiently and fell into line with the precision of old soldiers. The bands and the glee club were put in at different places along the line, so that all could be in hearing of the drum beat at any rate. The line moved steadily, but it was over a half hour passing a given point. There was no room for it to parade in the square, so it passed on through town, counter-marching at the dis-

mile. Upon reaching the square again it broke ranks, and one of the most magnificent political parades the county ever saw was over. Announcement was immediately made that speaking would be held at the court house and at E. Rice's tobacco factory. To the latter place Mr. Goodnight was sent, as it was able to accommodate the largest crowd, and everybody was especially anxious to hear him. Fully a thousand persons listened to Mr. Goodnight. To say it was a delighted and enthusiastic audience is to say nothing, for it surpassed anything ever witnessed in the county on the testimony of old men. If Mr. Goodnight had ever cause to speak he had it on Monday, and he came up and passed the occasion.

We had heard Mr. Goodnight before when he spoke well, but the circumstances of Monday lent him the occasion for a great oration, and he delivered it. It was sound, logical and clear, and delivered with the earnestness of a strong conviction of the rightfulness of his cause that lent an eloquence that nothing else will, and a conviction that nothing

Page 2. Col. 4.

else can. It was a great speech. It was directed at that one great issue—the tariff tax, and was a convincing argument that will be felt for years to come by all who heard it. The applause was almost continuous.

After Mr. Goodnight had concluded, the glee club sang several campaign songs, including the "Battle Cry of Freeman" and "We are Marching Through Georgia." During the singing a perfect throng of people pressed around the stand to shake his hand. The meeting at the court house was addressed by Capt. Allen, of Princeton, in a speech of an hour and a half. The room was crowded. The speech was pronounced by every one to be an able effort. It was listened to with close attention.

NOTES.

After impannelling the jury Judge Grace adjourned court until the next morning.

No difficulty of any kind occurred during the day, and there was but very little drinking.

After seeing the crowd, Jailer

seemed to bring Democracy in case. The procession was noted for the great number of old men in it. The old, old citizens pronounce it unsurpassed in the history of the county.

An old darkey, after looking at the Democratic procession Monday until his patience was exhausted waiting for it to pass, turned around and walked off in disgust, remarking "Dat must be de crowd St. John couldn't number."

A Democratic club was organized at Paradise last Saturday with 38 members. This is a splendid organization, as it was not expected that half the number could be secured for a club.

Bro. Shelley returned Saturday, and preached his first sermon in the new church year Sunday morning at the Methodist church. He was returned to his work here, to the satisfaction of his church and the community generally.

Two cornets were used with pleasing effect in the music at the Methodist church Sunday night. This is the first time our people have heard these instruments used in church at this place, and they seem to be favorably impressed.

Have your boots or shoes repaired for the winter. Bring them to the shop in the Summers building. New work of all kinds executed promptly in the best style, out of high grade stock, at reasonable prices.

John Allison Appointed County Attorney.

John Allison was appointed county attorney by Judge Coleman Tuesday, to fill the vacancy caused by the death of W. B. McCown. The appointment of Mr. Allison will meet the approbation of the entire county. The office could not have been placed in the hands of a man who would more faithfully and conscientiously discharge his duty.

Item was cut out here.

W. B. McCown, who last Tuesday morning passed away after an illness of four weeks, had also been reported improving, and had recovered from the fever with which he was first attacked. He was 70 years of age. He was a native of the Crittenden county. He was a member of the Methodist church and brother of the late Hon. J. H. McCown, elected County Attorney, the first time, in 1878 and again in 1896, which last term he was serving when he died. Mr. McCown had some faults, but with a kindly heart, and many friends throughout the county will sorrow at his untimely death, as he was but attaining to the prime of manhood. May he have found peace.

County Court.

At the adjourned meeting of the County Court Tuesday it was moved by Squire Heltsley that the County Judge and County Attorney make such defense as they can and see proper, in all cases against the county, without the employment of other counsel. The vote stood, For: G. B. Williams, G. M. Shutt, Jacob Row, W. W. McPherson, J. F. Carver, J. Ham Heltsley, Moses Wickliffe, 7. Against: J. L. Gish, B. T. Drake, H. C. McCracken, D. J. Fleming, Ralph Uzzle, T. N. Divine, 6.

The Fair.

The Fair taken altogether proved
a great success, both from the
standpoint of the visitors and man-
agers. The exhibits were full, there
being scarcely a premium offered
that was not contested for by more
than two entries. The attendance
each day was very much greater
than the corresponding day of the
previous fair. The first day showed
marked improvement in the quality
products and an increased display.
This improvement was noticeable
through each day. The stock shown
on the last day was far superior to
the stock last year. The total
amount distributed in premiums
amounted to over \$1,300. The
muchly increased attendance was
highly gratifying to the directors.
The crowds present were very or-
derly each day. The speed rings
showed some splendid stock, and
some good racing was done. The
side shows were much better than
common, and were well patronized.

The Democracy of the Third district never was in better fighting trim and if Goodnight, the Democratic candidate for Congress, in that district is not elected by a handsome majority then indications got for nothing. Last Monday one of the largest and most enthusiastic rallies that has been held in the State, thus far during the canvass, was held by the Democrats of Muhlenberg at Greenville. Despite a hard drenching rain over 2,000 people assembled in Greenville Monday to hold a grand old fashioned Democratic rally. Goodnight who was expected to be present, came up from Central City at the head of a procession numbering between 400 and 500 of the unterrified. He was met near the town by at least 1,000 Democrats on horseback and in carriages and buggies and escorted to town amid the wildest enthusiasm. Three brass bands and a glee club composed of about forty young ladies and gentlemen of Greenville furnished the music for the occasion. There was never anything like it seen in the county before. After the procession, which was nearly three miles long, had passed through the streets and disbanded crowds filled the courthouse and a large tobacco factory where able speeches were made by the Hon. I. H. Goodnight and Capt. C. T. Allen of this place. Both speeches were pronounced the best that had ever been delivered in the county at a political gathering. Our esteemed fellow townsman, Capt. Allen, certainly captured the hearts of the Muhlenberg Democracy, if one could judge from the complimentary remarks made on all sides after his speech. It was a glorious day for Democracy in the Third district and means that Muhlenberg will give a good majority in November for Democracy and reform.

A new line of dress goods at T. J. Jones.' Call and be suited both in goods and prices.

J. B. Wilson, of Bowling Green, was in town several days this week purchasing mules.

More jewelry, already handsome stock at Mrs. M. Martin.

Monday brought a goodly number of the yeomanry to town. It being Circuit Court and a beautiful day.

Bethel Bros. lead in the coal business, and their measure and the quality of their coal give universal satisfaction.

We expect to see men, women and children, snowy white and ebony hued in next Saturday's parade of the Republicans.

The first quarterly meeting was held at the Methodist church Saturday. Preaching day and night, Saturday and Sunday.

Go and see Mrs. Rothrock before buying your fall goods. She has a beautiful assortment of the best goods on the fall market.

Wilson & Smith, who have been buying mules here during the week, purchased about ten fair animals at prices from \$65 to \$135.

This is an ideal Indian summer we are having. The weather for the last several days has been magnificently beautiful and pleasant.

It wasn't cork soles that made Joe Morgan look two inches higher last Monday morning, but it was an eight-pound girl around at his house.

FARM—My farm of 400 acres, situated on Greenville and Hopkinsville road, is for sale. Address J. F. Imbler, Paceton, Ky., for terms. 2

The last regular meeting of the Democratic Club of this place occurs next Saturday afternoon. Let as many members be present as possible.

The Canadian horse traders who have been encamped near town for some time, left yesterday on their Southern tour. They had some good horses, and did considerable trading here.

A pleasant social party took place at P. L. Townes' Monday evening. It was gotten up by some of the young men in honor of Miss Ruth Powell, of New Madrid, Mo., and proved highly enjoyable.

30
Mr. M. E. ... idea is that before expecting people to buy of her she must have a stock sufficient large for them to select from, hence she has a full stock of every thing.

Page 3 - Col. 2

If you want clean, good coal, get your supply from Bethel Bros. Now is the time to make your contract for your winter use, while the roads are good, and while you can get it cheap and promptly.

Fall in and close up, Republicans, for your parade Saturday. It will take a mighty bright sunny day and the entire colored population of the county to reach the Goodnight demonstration in point of numbers.

A bright mulatto girl was heard to accost a mate as follows on the street yesterday: "Hello, Sue, gwine to be in that procession Saturday?" "Guess I is if I can git any boss to ride. Gwine to be lots of colored women in de line."

The colored brethren and sisters in the Republican glee club next Saturday will have the advantage over their pale-faced sister in the matter of volume of voice. They should not on this account be relegated to the tail of the procession, however.

Walter Richards, of San Antonio, Texas, who has been here for several days with a drove of Texas ponies, had the misfortune to lose one of them and have two others seriously wounded by the train near the depot last week. The loss and damage was appraised at \$75.

It will be seen from a notice elsewhere that J. G. Barkley was appointed by Gov. Buckner as a delegate to the Congress at Topeka. Mr. Barkley was located in the wrong district, but as to that matter a better man could not be found in the Second or Thjrd.

We have not heard the Republican glee club practicing any for next Saturday. If the white Republicans will leave the matter in the hands of the colored folks and not undertake to run it more than their share, we warrant the colored folks will bring it up all right.

Mr. John Gilmore Speed has become editor of the *American Magazine*. Mr. Speed is a Kentuckian, and possesses superior literary ability. The *American Magazine* may be expected to prove under his management one of the best of our already magnificent array of magazine literature.

At the meeting of the Democratic club here last Saturday, there was a good attendance. The business chiefly consisted in the hearing of reports. T. B. Davis, T. J. Spurlin, John A. Williams, John Anderson, M. R. Mercer and E. D. Offutt were put on a working committee in the Friendship country.

The portrait of Harrison, made on a coon skin by Mr. J. T. McIntire, has been pronounced a most excellent piece of work by every one who has seen it. While Mr. McIntire chose a very bad subject, we are bound to concede the skill of his brush. Like Dore, who chose the inferno as the theme for his art, there is no downing true skill even on as bad a subject as the Republican candidate for President.

Notice.

All persons indebted to the firm of Gibbs & Lovell are requested to come forward and settle immediately with W. M. Lovell, admr. 464tp

Rads to Rally.

The Republicans of the county will have a last rally here next Saturday. Hunter will be here and a big thing will be attempted. They cannot arouse as much enthusiasm as was brought out in the Democratic demonstration, even if they should have clear weather.

Circuit Court.

But little doing in Circuit Court this week. The Randolph murder case was called Monday, and continued, as was also the cases against Sidney Allen, charged with malicious shooting, and Wm. Porter for shooting and wounding.

The case against Bill Whitson, charged with the murder of Latham, has been continued until the 13th day of the next term of Court.

A Halloween Party.

About twelve couples of the young ladies and gentlemen of the town met at the residence of Mr. M. C. Sears, R. E. Humphrey, Allin Cox,

May last night to celebrate Halloween. This was the first observance of the event in this manner at this place, but all the games, good omen, future events foreshadowed, etc. etc. were immensely enjoyed on account of novelty and sometimes happy promise of the future. An elegant supper was spread. Everyone present reluctantly left at a late hour, and regretted that such an occasion could be so pleasantly celebrated but once a year.

Democrats and Republicans or any one else, will find it to their advantage to call on Morgan & Green for anything in the dry goods or grocery line.

Have a pair of winter boots made by Jas. L. Nagle, or have your old ones made good as new.

Another Big Democratic Club.

PARADISE, KY., Oct. 20th, 1888.

Editor Echo:

DEAR SIR:—I take pleasure in informing you that we have organized to night a Cleveland and Thurman Club by the name of Paradise Democratic Tariff Reform Club, a club consisting of thirty eight tariff reform advocates, viz: Dr. Edward Sweatt, W. E. Brown, Wm. Hill, Wm. Shackleton, J. Brown, D. B. Roll, E. V. Kirtley, T. J. Engler, J. J. Buchanan, J. C. Arndell, C. C. Arndell, H. Cundiff, W. R. Baker, Jno. Pidcock, Jno. Joe Cox, Ed. Brown, J. Penning, D. B. Creager, Chas. Creager, Robt. Roll, Jas. W. Shawwell, Geo. W. Arndell. The following were elected as officers Dr. Ed. Sweatt, President; D. B. Roll, Vice-President; W. E. Brown, Secretary; H. Cudiff, Treasurer.

Gentlemen, the election is nigh at hand, and it is going to be close. If we want to come out victoriously we have no idle bread to eat nor any spare time to lose. It is high time we had our little Democratic fires kindled under our Presidential and Congressional kettle, and should be equipped with skimmers to skim the scum of high protection as it gently rises on the 6th, so we can say at night we have a Goodnight, and can according to the scripture rest on the seventh night.

Very Truly Democratic,

The Last Resort.

A Public Officer Slandered—A False Bill Published.

Senator Jones Endorses It—Hunter Orders a Thousand Copies Distributed.

AN EDITOR MISLED.

In last week's *Republican*, published at Central City, and the organ of the Republican party in this county, there appeared under flaming headlines a bold, unwarranted and slanderous attack on Sheriff T. B. Pannell, charging him with having misappropriated \$2,000 of the funds in his hands and being subject to indictment by the grand jury. The article was false but studiously planned to defame the fair name and character of Sheriff Pannell, a man in whom the entire county places the utmost confidence, and who is now standing for her rights and interest as no other man could. The following retraction which will appear as an editorial in to-day's *Republican* will to some extent exculpate the editor of that paper:

In last week's issue we published extracts from the act known as the Ten Cent Bill, the copy of which was handed us by Mr. Gish, the commissioner under the act, and which we believed to be the true bill as passed by the Legislature, but on comparison with a sealed copy of the bill as passed, we find some material changes. Sec. 1 as published by us reads: "That for the purpose of paying their own proper cost and expenses incurred since July 20th, 1885, by sundry citizens, taxpayers of Muhlenberg county," &c., which in the true bill reads as follows: "That for the purpose of paying the cost and expenses incurred since July 20th, 1885, by the county of Muhlenberg as plaintiff and defendant," &c.

But in Sec. 3 of the true bill comes the most important point,

bearing more directly on the issue and reads as follows: "Within 60 days from the time of delivery of said order of levy to him, the sheriff or collector as the case may be, shall proceed to the collection of the tax levied by said order for the year 1888, and likewise by the 1st of April, 1889" and further on, after prescribing the remedies to collect payment, &c., it says "Said sheriff or collector as the case may be shall at the end of 60 days from the time he commences the collection of said taxes and every 60 days thereafter, pay over to the commissioner herein provided for all moneys collected by him on said taxes prior to said respective dates." Now our construction of the wording of the law made the settlement due within 60 days from the time the first tax was collected, which was July 17th last, and this according to our construction would make the settlement due Oct. 17th. But on submission of this question to various lawyers and Judge Coleman of the County Court, we find that their construction is that the sheriff is entitled to 120 days from the time of receiving the order from the County Court, and they assert that it is customary in such cases to give the sheriff the advantage of 60 days to prepare the tax receipts and commence the collection of taxes, whether any collections have been made within that 60 days or not. This construction virtually relieves the Sheriff of any dereliction of duty, and places the former article in the *Republican* in error. In regard to the conversation between Squire Joseph L. Gish and Mr. Pannell, Mr. Pannell makes the following statement: "At County Court in August I met with Squire Gish, and he asked how the people in this end of the county were paying the ten cent tax. I replied that they are kicking, but are generally paying it." I then said to him, "On the 1st day of September I will check out all the money I have to the Auditor. Tell your father to come up any time after that, and I will pay him some money." In regard to the amount of money collected, there are only in my hands for collection about \$1,900 to \$2,000 of the tax receipts, of which not yet one-third has been collected. The only conversation I had with Mr.

Jacob Gish was on the 23rd day of October, sixteen days before the 60 days expired, when I offered to pay him some money, and he answered that he had not time then, but would be back in a few days. And I am now ready to pay him the whole amount collected, although the 60 days allowed me will not expire until Nov. 7." Under these circumstances the insinuation that Mr. Pannell had used this money for campaign purposes did him an injustice."

So much for editor Hooze and his share in this disreputable piece of work. But the history of the transaction will show fully the real parties, and to what an utter disregard of right and honesty they have prostituted themselves, and the extremity they are reduced to as leaders of the Republican party in this district. There are many honest Republicans in this county, and we feel assured that they have already repudiated such villainous methods and desperately unscrupulous lead-

Page 3 - Col. 5

ers. The bill which was published by the *Central City Republican* in confirmation of the villainous scheme is to all purposes a forgery in that it was intended to mislead the people, and was not the law. It was not ignorance in Mr. Gish, whose office was created under the law. He knew the correct bill which was published in *The Echo* of May 21st, immediately after its passage, or as soon as it was possible to get a certified copy. The whole matter was submitted to the Hon. Louis Jones, including the false bill, the man who secured the passage of the bill, and approved by him. Mr. Jones did what he did in the premises knowingly. Mr. Hooze makes his retraction. Will Senator Jones do as much, or will he continue to besmirch the office of State Senator which he now holds, by such defamatory transaction to gain a supposed party advantage? To show the extent to which these base methods affect the managers of the party, Hon. W. Godfrey Hunter orders a thousand copies of the paper containing this baseless slander to distribute broadcast over the district. An effort by a candidate for Congress to gain his election by slander and the imputation of dishonesty to a gentleman of unsullied character and one in whom every honest citizen of Muhlenberg imposes trust, and whose disgrace would be the county's disgrace. Such vile and low methods can only revert back to the utter discomfiture of those who inaugurate them, and act as a politic-

promoting against its propoganda. As will be seen, the Sheriff yet has ample time to settle this business, even if he had made no past effort. We append Sheriff Pannell's statement:

TO THE PEOPLE OF MUHLENBERG COUNTY.

A slanderous attack on me was published in the *Central City Republican* of October the 25th, 1888 in which it was charged,

1st That I had collected two thousand dollars of the ten cent taxes.

2d. That the time for me to pay over the taxes had passed and that I had failed to pay it and

3d. That I had used the money for Goodnight and campaign purposes.

In answer to all of these charges I have this to say: It is not true that I have collected two thousand dollars of the ten cent taxes. The total amount of receipts placed in my hands for collection does not amount to quite \$2,000 and I have not yet collected six hundred dollars of the amount. 2d. It is not true that the time has passed for me to pay over the money already collected. The law provides that I shall have sixty days from the time when the order of the county court laying the levy is placed in my hands in which to make out my tax receipts and begin the collection of the taxes and then at the end of sixty days from that time I shall pay over to the commissioner all moneys collected by me on such taxes. Now the order of levy was placed in my hands on the 7th day of July, 1888. This gave me until the 7th day of September, 1888 to make up my receipts and before the collection and sixty days from that time is November 7th, 1888, before I could be required to pay a single cent of the money to Mr. Jacob Gish, the commissioner under the act. I did however offer to pay Mr. Gish the money before the end of the sixty days. On Tuesday the 23rd day of October, 1888 I saw Mr. Gish in Greenville and told him to come over to my office and I would pay him some money. He replied that he did not have time but would be back in a few days. I saw him again on the 25th and offered to again pay him when he again said that he was in a great hurry but would be back on next

Saturday, Nov. 2d, 1888. On that day or any other day when Mr. Gish will meet me I am ready to pay him every cent collected by me although he is not entitled to receive a dollar of it until Nov. 7, '88.

The charge that I have used a single cent of this money for Goodnight or campaign purposes is false from beginning to ending, in the spirit and in the letter. To back up the slanders on my good name and official character, the *Republican* did not publish the true act but substituted for it a *bastard* production which was furnished by other parties. I want to do Mr. Hooze the justice to say that as soon as I had showed him the true law and facts he voluntarily offered to correct the whole matter in his issue of to-day and that he denounced in unmeasured terms those who had misled him. Now for what purpose were these vituperative charges hurled against me on the eve of a hot political election? Why am I selected as the target for republican malice and the victim for partisan misrepresentations? Against Mr. Hooze since he has had the manliness to correct his error I have no word to say but against the political tricksters who urged him on and made him their dupe for an attack on me which they were too cowardly to make in person I have the most sovereign contempt.

I thank my personal friends both republicans and democrats who have pronounced the attack on me as unjust and unwarranted. And now relying on my public record of six years which I hope are sufficient guarantees of my honesty and integrity, as an officer I leave the case to my people who have so often honored and trusted me. Respect,

T. B. PANSELL.

Not much business is being done in Court, a large per cent. of the cases being continued. The intense interest in the election is one reason for this.

The varied styles of millinery at Mrs. M. E. Martin's are sufficient to meet the wants of all.

We reprint the following from the Louisville Post, in reference to Muhlenberg and her bonded indebtedness: "Muhlenberg county, Kentucky, is now on the verge financial ruin," said a well known business man. "Years ago this county issued \$400,000 in 7 per cent. bonds in aid of the building of the Elizabethtown & Paducah railroad, and paid the interest for about five years, and then defaulted. Suits were brought by the bondholders, and the bonds have been declared to be a legal and binding obligation both by the highest courts of the State and the Supreme Court of the United States. Some of the bonds were compromised at 30 cts. on the dollar in new 6 per cent. bonds, and this compromise was warmly advocated by the best and wisest men of the county as the only practicable way to relieve the

The jury in the Dilger case disagreed. Eleven were for conviction of willful murder and the twelfth, a man named Weiser stood out for a conviction of manslaughter. It is not an uncommon thing to find one man in twelve that thinks he is wiser than all the rest but it is seldom the name fits so well.

MUHLENBERG will be treated to the to her novel experience of a court of claims next week. Claims accruing since '74 are to be passed upon. It is seldom that a body of magistrates are called upon to sit down to a task of greater magnitude than that that faces the court next week. A just, careful and conscientious discharge of the work before them will prove a great stride in the direction of future prosperity for the county.

These Democratic clubs in the county should keep up the agitation. It's fight has but just begun. The cause of revenue reform has been defeated. A party can't may maintain many dates but the success of the victorials. The cause of revenue reform and the principles of the democratic party are right, believing this we can afford to wait, and keep our memory on. A party that has existed since the foundation of the republic does not become demoralized by a defeat.

Pisgah church, (Summers' Precinct) Saturday, Nov. 24, 6 p. m.

All farmers interested in the culture of dark tobacco are requested to be present.

The Republican Ratification.

The Republican ratification Saturday was not a success. The disagreeable weather and the failure of the speakers to put in an appearance were among the causes. The Republicans to the number of a hundred and fifty or two hundred assembled at the court house after having gone through the ceremony of

bringing down the Democratic flag and listened to the speech of Mr. E. W. Weir, Sr., leader of the lengthy speech which was attentively listened to. He was followed by Capt. Roark and others. A night procession with lanterns was arranged. But few whites took part. The cold and the fact that the election is over prevented much interest. The procession was headed by the colored band, and stopped in front of the court house door where they were addressed by several Republicans in short speeches. The small boys were out, and some anvil firing was indulged in. There seemed to be no prearranged program and no particular leader. While the Republicans were slaughtered horse and foot by the Democrats in the glorious Third, yet they conceded them their flag pole in honor of the victory other Republicans achieved in other States. They think the Republican leaders should have made a bigger show than they did. However, the Republican leaders here do not feel good, not much, and it is hard.

License were granted the following couples to be married the last week: James W. Shanks to Miss C. A. Shanks, R. W. King to Miss Lulla Robertson, S. H. Fitzhugh to Georgiana Blackwell, T. A. Phillips to Miss M. J. Phillips, Cypress Nichols to Margaret Handel, S. B. Middleton to Alice Wills, E. L. Browder to Ada Penick, James Jackson to Miss H. F. Vaught.

A. G. Beecham, of Crofton, was in town Saturday.

M. L. Parham was up from Central City yesterday.

Jno. T. McIntire returned Tuesday from a short visit to Union county.

Mr. J. G. Barkley returned yesterday from Topeka, Kan., where he has been for 10 days.

Begin now to make our friends presents. If you want to prevent anything in the way of a musical instrument, see J. L. Roark. He has the agency of one of the largest and most reliable houses in the country, and can supply anything you may want at reasonable price.

James Curtis, in jail on a charge of malicious cutting, escaped Tuesday night. His trial had been postponed at the last term of court on account of his illness or supposed illness. He had been shamming sickness for some time it is supposed to get a good chance to escape. When supper was served to the prisoner Curtis wanted some medicine which Mr. Coombs went to get and returning proceeded to lock up the cages. Curtis had slipped out of the cage and when his name was called he lit out like greased lightning. Jailer Coombs pursued him a short distance but he soon lost him in the darkness.

The press of political matter has caused our worthy contemporary of Central City to overlook a racy news item that occurred in that place some weeks ago and in which an editor a doctor and several ducks took part. Politics shouldn't be allowed to crowd out important news.

Flag Pole Felled.

The head bosses of the Republicans here, whoever they may be (and it's a matter not very easy to determine since their inglorious defeat in the Third), deserve some censure for the way they managed affairs Saturday, or rather the way in which they didn't manage them. They had no program, and we could find no one that could inform us as to what would probably be done. We learned afterwards that Dr. Church and Mr. E. L. Yonts were appointed a committee to secure the Democratic flag for use in their ceremonies. The flag was given them and run up, but before these gentlemen were apprised of it, it had been run down and a small squad of Republicans were chopping at the pole. The court house took fire in the meantime, but the work at the pole did not cease, though people were scattered everywhere. Finally Mr. Ed Yonts appeared on the scene and directed that the chopping cease. It

was resumed immediately after the alarm was over, and carried on in a desultory way until the pole fell where it was expected to fall, as a tree or pole usually does nine times out of ten. The trouble was however in this instance, as in every other, that no one knew whether this was to be the tenth time. To cut a 130 foot pole down in a crowded street is a different undertaking to performing the same feat in the forest. A lady pushing a baby buggy, and accompanied by several children, came out of the narrow street between Mrs. Martin's and T. J. Jones' just as the pole struck the ground some thirty feet in front of that place. It would have been safer and better to have had watchmen along the street. This pole cutting business had better be turned over to the Democrats in the future.

Messrs. G. H. McDonald and I. S. Eades and Miss Ollie Eston, of the vicinity, attended the marriage of Mr. Enel Rex to Miss Annie Bibb, which happy event occurred at the residence of the bride's father near Sacramento, on the 12th inst. Miss Annie has a host of friends here whose best wishes follow her. Mr. and Mrs. Hayden Kavanaugh, of Sebree City, are the guests of her father, Rev. W. H. Woodson, this week.

Miss Eva Karnes, of Bremen, is spending a few days with relatives and friends here.

Mrs. H. O. Whitmer, of Bremen, is visiting her father, Mr. J. B. Shaver.

Mr. Wm. Eades, of Oak Grove, visited relatives here the last of the week.

Mr. G. H. McDonald sold a mule Saturday to Mr. Warren Marble for \$125.

The attendance on the meetings at Bethel has not been large yet—the rain preventing—but there appears to be a good interest, and the best results are expected.

Mr. T. B. Williams I am glad to learn is convalescent, and Mr. Rufus Williams, who was dangerously ill last week, is somewhat improved, and it is believed will recover.

There was some disturbance of religious worship at Bethel church

a week ago. It might be well for half civilized madcaps to remember that justice is getting nearer to us. We have a big brazen justice, 300 pounds, avoirdupois, not far distant, who will not be slow to vindicate the law when such matters are properly brought before him.

To say that I am disappointed in the result of the National contest is to put the matter mildly, but tariff reform as proposed by the Mills bill is right, and if the Democratic party stand firmly to its principles and preserve its organization in fact, Kentuckians, at least, will not have to look far to find the man who can lead them to victory in 1892.

A series of meetings has been in progress the past week at East Union, conducted by Elders Stirman and Ragos, which which is assuming quite an interest. To this writing there has been ten conversions, and the indications are that there will be many more before the close of the series. MOREAU.

Obituary.

Miss Jennie Lee, in the 21st year of her age, died at the home of her parents, W. S. Lee, Jr. and Sarah Lee, near Greenville, Nov. 7th, 1888, of typhoid fever. Through a long and painful illness of four weeks she bore her suffering with Christian fortitude. She was a meek follower of Jesus. She professed religion when young, and joined the church at Oak Grove, where she lived a devoted christian until called away. Although she had all that loving ones could do for her the Lord has taken her home. She was a loving sister and a dutiful child, and those who knew her best loved her most. Earth has one flower less, heaven one more. She left evidence that she to-day is in that beautiful, bright clime where there will be no parting. The family have the sympathy of this community. May God bless and sanctify the bereft parents and brothers, and the one who was so soon to make her his bride, is the prayer of a kind friend. E. W. E.

The Echo with this issue enters upon its twelfth year. It has won a place in the estimation of the people of Muhlenberg of which it is justly proud. Though its management has changed often the paper has not failed in its weekly visit to as goodly a list of readers as any of its neighboring contemporaries can boast. It enters upon its twelfth year under the most flattering auspices and feels confident that it will be able to more than ever in the future serve its patrons acceptably. It sends thankful greeting to all its readers on this thanksgiving day.

After commenting on an item in last week's Echo relative to the court of claims in this county the Daily New Era says: "Had this been done when her debt was first saddled upon her, Muhlenberg would be in a good financial condition to-day. A debt, however small if allowed to stand uncredited with payments, with principle increased by interest and interest increased by principle, will in time become large and burdensome. While her debt was large in proportion to her means at the time, regular assessments would not have been burdensome. She is taking a step in the right direction now and the New Era wishes well for her future."

Tobacco Growers' Meeting At COOPER SPRINGS, KY. Editor Echo.

The farmers of South Muhlenberg met at Cooper Springs, Ky., for the purpose of discussing the present tobacco situation, condition of the markets, causes etc., and if possible to suggest a means of escape from the horrors that stare them gastly in the face. The meeting was enjoyable and perfectly harmonious. All present realized that something must be done to give relief, or abandon the tobacco business as a means of support.

Absention (the Tenn. move) as a temporary relief, and the inter-state Tobacco Association as an adequate method of escape, a perfect antidote for the chronic malady in the tobacco business were presented somewhat in detail and unanimously endorsed. As an expression on the part of those present to do what they could to bring about remunerative prices they elected three delegates to represent this and all other sections (unorganized having no representatives) of Kentucky in the Western Tobacco Congress to convene at Clarksville Tenn. Nov. 28th.

Immediately after this congress adjourns it is the purpose of our people to take such steps as may be deemed necessary to bring about a united action on the part of tobacco growers.

In all probability the plan will be not to plant a hill of tobacco next year, to hold the present crop until next August, and to proceed to organize the Inter-State Tobacco Association. Arrangements will be made to furnish money to such as are obliged to have it to buy their winter supplies, in order that all may be put on a footing as nearly equal as possible. When the first call for a county meeting is made let every man respond with his presence. Will the Echo lend a helping in bringing about this great and long needed co operation among our people.

Yours in the work,
 J. OSBORNE DECEURCY.

We are using coal from Bethel Bros., and find it satisfactory in every respect. Persons who have not yet secured their winter's coal should see these gentlemen at once.

The most practical shoemaker that our town has had is James L. Nagle, in the Summers building. He has come to stay, and asks the people to give him an opportunity to supply their wants in footwear.

The present King of Liberia is a native of Simpson county, Kentucky. He was born a slave and was educated by his master. Long before the war he liberated and sent to Liberia. His old master's name was Beauchamp.

The Governor has appointed Col. A. W. Hamilton, of Mt. Sterling, and Hon. Thomas S. Grundy, of Springfield, delegates for the State at large to the National Cattle Growers' Attention, which meets in Chicago on the 16th of December.

We need a tailor shop here badly, and a first-class practical workman could have a good trade here in a short time. Why not have this industry and support it with the money that is sent away to Louisville, Owensboro and Hopkinsville for clothing?

Mr. John Hill has bought from Mrs. Cates her property on lower Cherry street, and is erecting a neat residence on the site of the old house which stood on the lot. Cherry is coming to the front as a residence street, and yet has several open building lots that are desirable.

The residence of Austin Smith burned at Sacramento Saturday morning. The cause is not exactly understood, as there was but one fire in the house, and the flame was first observed in an entirely differ-

ent part of the house. The household goods in the lower story were all saved, but the goods in the upper story were all burned.

Rev. Mr. Reed of South Carrollton, has been holding a revival meeting at Ricedale which has proven a great success. Thirty conversions had taken place at last report, and a general revival of religious interest was pervading the entire community. Quite a number of additional members have been made to the church.

Thanksgiving services will be held at the Baptist church to-day. On account of being engaged in a protracted effort in which much interest is being manifested, Dr. Coleman could not come over to preach the sermon, as was expected. Rev. M. B. Porter will conduct the services, and as all the churches join in the observance, a large crowd will doubtless be present.

We publish in this issue the advertisement of Louis Zapp & Co., of Louisville. The editor of this paper is personally acquainted with Mr. Zapp and can recommend him to such of our citizens as desire a pure article of whisky or brandy. Either for medicine or other purposes when our people desire to use liquor we are glad to recommend a reliable house.

Dick Bailey, a half witted negro well known here, was seriously hurt in a cutting scrape Tuesday night. The difficulty occurred near the colored Methodist church. Wilbur Wing was arrested yesterday charged with the cutting. Bailey was so badly hurt that he failed to get home and laid on the roadside during the night. There are a number of young bucks that have been in the habit of hazing Bailey and we suppose the difficulty originated out of that.

Mr. John S. Miller, of Booneville, Ind., is in town this week on important business.

Mrs. M. E. Martin's for goods.

Eaves-Dennis.

The most pleasant social event for months has been the marriage of Mr. Hugh Eaves to Miss Ollie Dennis, and the hearty reception given the popular young couple by their many friends here. The ceremony was performed at the residence of the bride's father, Rev. George Dennis, at Jeffersonville, Ind., yesterday morning at 6 o'clock, by Rev. S. R. Brewer, Presiding Elder of the Louisville district. The happy couple immediately started for this place, accompanied by Mr. E. D. Martin. They were met at Central City by a party of friends, and arrived here at 1 o'clock. The entire party were immediately driven to the residence of Mr. Thos. H. Martin, where many friends and relatives awaited them. After congratulations and expressions of interest

in the future happiness and welfare of the young bride and groom, the entire party were invited to the dining room to partake of dinner. The table was presided over by Mrs. Martin, and the choicest delicacies, most profusely served. After dinner a musical program was given, and the guests departed at 10 o'clock in the afternoon. The bride and groom were received. This afternoon the bride and groom will have a public reception at the residence of the groom's father, Mr. Geo. W. Eaves, Jr., near McNary, and several couples from town will go out. We are glad to learn that Mr. Eaves will make Greenville his home, and he and his bride will be warmly received by their wide circle of friends.

County Court of Claims.

The court of claims met Monday all the magistrates being present. The first day was mostly taken up in filing claims.

On Tuesday the work of allowing claims began. Several thousand dollars were allowed. The judges' and county attorneys' salaries being the principal items. In this matter one hundred and fifty dollars each per year of service was allowed.

On Wednesday the allowances of the day previous were reconsidered and the claims of the judges and attorneys were raised to two hundred dollars per year. The total amount allowed up to adjournment yesterday afternoon was a little over six thousand dollars.

The court is in session to day and will continue in session the remainder of the week we suppose as it will be impossible to pass on the multitude of claims in a time much short of that.

Bertram.

The meeting closed at East Union Sunday with fifteen baptisms and the church much revived. I failed, however, to learn either the number of additions or converts. The meeting at Bethel also closed Sunday with seven additions. The meeting closed with a large attendance, but elders Woodson and Henry were compelled to leave to conduct a se-

ries of meetings at Poplar Grove, McLean county. We learn further that Elders Goodman and Harker closed a meeting at New Prospect a week ago, resulting in twenty-five conversions.

There has been an occasional cattle buyer through the vicinity in the past six weeks offering nothing and a half for good cattle, but they have made few purchases.

Wheat is growing admirably.

Many of our farmers made quite a start at tobacco stripping in the recent favorable weather, and found the cure excellent.

Corn gathering is now the order of the day, and if the weather continues favorable the crop will be secured this week.

We learn that our Superintendent is somewhat exercised because schools are not in session in two of the districts in this vicinity. Don't fret, Willum; the trustees will have schools taught, but will select teachers as their own judgments may dictate.

Those who are buying fruit trees by sample of fruit preserved in alcohol, should try the magnifying power of water by placing an apple in a glass filled with the fluid to avoid dissatisfaction as to size when the trees come into bearing.

A valuable horse sickened and died very suddenly last week for Mr. Sam Brown.

Mr. R. D. Reno spent several days in Hopkins county last week.

Mrs. T. Q. Fortney, of Mercer, is spending a few days with relatives here. MOREAU.

Muhlenberg Bonds.

In addition to the judgments already rendered against our neighboring county of Muhlenberg, we learn other suits have been instituted recently on large amounts of the past due coupons of the county. Besides this, the principle of a large amount of the bonds of the county becomes due in a few months, and suits will doubtless be brought on many of these, unless some settlement is made.

If this state of the case, it behooves the influential citizens of the county to take hold of the matter without further delay, and to try and make some fair and reasonable compromise with the creditors, who

should show a fair and liberal spirit in the matter. Logan county subscribed \$500,000 to the Greensboro & Nashville railroad, and when the county decided that the bonds were legal and valid no compromise was made, but the whole \$500,000 and interest will be paid in full by the county. The Mahlenberg county debt is growing larger every day, and now amounts to probably \$700,000 or \$800,000, and the county is not able to pay it in full. The bondholders ought to consent to take 40 or 50 cts to the dollar, if it is all they can pay.

It is a case that demands prompt attention on the part of the best citizens of the county.

Some of the bonds are held by Logan county people who paid 70 or 85 cts to the dollar for them.—

...the most important of which was one asking Congress to pass laws prohibiting the formation of trusts detrimental to the farmer. Another young lady of 35 years. She (the young lady) would have been very good looking if she had not been so decorated by poodle dog and No. 9 shoes. She must have been from St. Louis. The Western Wabash runs through the best portions of Missouri, and for 140 miles west of St. Louis crops were unusually fine; from there on to Kansas City, the land being level, and so much rain in the early summer, the crops were almost a failure. At Montgomery we formed the acquaintance of H. Scott Brown, of Scottsville, also a delegate to Farmer's Congress. Arriving at Kansas City at 6:30 p. m., we took cable car and "did" the city. At 8:45 took Santa Fe road for Topeka, arriving at 7:30 a. m. Not knowing where the headquarters of farmers were, we registered at Copeland hotel. Next morning bright and early finding the Farmers Congress headquarters were at the Windsor, we proceeded to move to that hotel, where we were introduced to Col. Kolb, President of the Progressive State of Kansas. Over 450 scholars in attendance, and judging from what we saw it is really an agricultural school. At 3 p. m. we were again aboard the cars homeward bound. We are more and better satisfied with Kentucky, and especially with Old Mountainberg.

 The Mullenberg court of claims met last week for the first time in thirteen years, the bonded debt of the county having been brought at last to a focus for compromise, and it is considered safe to again have a county court. One of the notable acts of the court was to allow salaries to the county judges and county attorneys, who have served all these years without pay, some of whom are now dead. Two hundred dollars per annum was the salary allowed to each officer.—*Messenger.*

we have reserved space for the announcement of about three more such events before 1888 is gone.

A series of meetings began last evening at the C. P. church under the direction of the pastor, Rev. B. T. Watson, assisted by Rev. J. Cal Littrell, of Warrensburg, Mo. Services will be held twice a day, once either in the forenoon or afternoon, and in the evening.

Greenville offers many advantages to the purchaser of holiday goods. We have many active merchants, handling anything you may want, and you can get more for your money here than any town in this section. See the announcements in this paper of next week.

Greenville is gradually building up home industries. We are glad of this. What money we make let us spend among our own people. We have a bakery, and now we want a tailor shop, and want it badly, so that we may keep the money that is sent away for clothing, in circulation right here.

Johnson, the negro confined in the jail here made an effort to escape one evening last week. He aimed to dash by Jailer Coombs as he was bringing in the prisoner's suppers and knocked York down who was helping. The effort was partially successful and he succeeded in getting out in the yard but Joe Coombs who was confined to his room by measles, hearing the noise, dashed out and caught the negro near the clerks office and by the assistance of Shep held him. The negro is a stout powerful fellow and it took no little strength to manage him.

Harbin Compton.

Last night at 6.30 o'clock, at the residence of the bride's father, Mr. Joe Harbin was married to Miss Mallie Compton. Rev. S. G. Shelly performed the ceremony in his usually impressive manner. Several of the intimate friends of the high contracting parties were invited, and after the happy couple were made one, all enjoyed a magnificent supper in honor of the bride and groom. After supper the guests were the enjoyers of a pleasant social evening, and when they did leave it was with

the wish that the couple might always be as happy as on this occasion.

PERSONAL POINTERS.

Rev. J. Cal Littrell, of Warrensburg, Mo., arrived yesterday.

Mr. Ernest Boyer, of Central City, is now on The Echo, and will be glad to see his friends.

Mr. Thos. Frazier left yesterday afternoon for Decatur, Ala., where he will probably locate and engage in business.

Mr and Mrs. N. S. Roark, of Henderson, attended the Roark-Walton wedding and visited friends in town several days last week.

Morgan Bros. will handle from this time on a full stock of choice fruits, nuts, confections, fresh oysters and everything in this line.

Recitals.

Godfrey Hunter gone! Oh, Godfrey, thou art weighed in the balance and found wanting in some ten or twelve hundred votes. Thou didst rise up early in the morning and go forth to slay the enemy, but in the evening time thou art faded and thy heart troubleth thee much. We know thou wert a hard master, and aimeth after things too high for thee, but as some of thy colleagues did the same things that thou didst, and received the same reward, thou art excusable. And as thou packest thy little valise and prepareth to go upon a long journey to the land of the Mexicans, we taketh off our hats and with sincere hearts biddeth thee

Goodnight.

Our town is booming. Mills and coal mines running, houses being built, and a church house in prospect in the near future. There are now six stores and another to soon start up. We will soon have a butcher's shop, and it is said there was a man in town last week looking around to find a place to start a "Blind Tiger," but from the expression of the people it will be a sorry day when any one attempts to carry out these plans. Out of about thirty votes cast in the Prohibition election, only two were for whisky, so it is easily seen that our people would not countenance its sale. X

The marriage of Miss Ollie Dennis and Mr. J. Hugh Eaves was consummated at the bride's residence, in Jeffersonville, at the early hour of 6.30 this morning, Rev. S. R. Brewer, Presiding Elder of the Louisville district, officiating. Immediately after the ceremony they took their departure for Greenville, Ky., their future home. The bride is a daughter of Rev. George W. Dennis, of the Maple-street M. E. Church, and is a young lady of many accomplishments; her home has been for some years at Cloverport, Ky., but the October conference, placing her father in charge of the Jeffersonville church, caused the family's removal to Indiana. The groom is an energetic young man of Muhlenberg county, Ky., where he is engaged in the lumber and timber business; he is a member of one of the most prominent and influential families of that county. These young people, starting forth on life's voyage together, take with them the best wishes of a host of friends.—Louisville Post.

The Court of Claims.

The County Court of Claims adjourned last Friday, after five days' labor in adjusting the claims and reorganizing the county. The Court was presided over by Judge Coleman, who was untiring in his exertions to aid the magistrates in their difficult duties in considering the multitude of claims before them. The magistrates were a painstaking, conservative set of men who appre-

ciated the responsibility resting on their shoulders, and conscientiously discharged their duties. The work of straightening out the finances of the county, and getting order out of the chaotic condition of affairs in which the county had been so long involved, is due to the work of Judge Coleman and the magistrates, and will receive due appreciation at the hands of our people when its good effects begin to be felt, which will be soon. There is already a sense of renewed confidence felt in business circles, which will continue until the old county of Muhlenberg takes her proper rank with her sisters of the State.

County attorney Allison looked after the county's interest faithfully and zealously and facilitated the business of the court greatly.

The entire list of allowances and the rejected claims will be published in full next week.

Death of J. W. Baker.

Mr. J. W. Baker whose serious illness has been several times noted in this paper, died last Tuesday night, at Mr. W. T. Morgan's, after many weeks of severe illness. Mr. Baker was a son of Capt. Baker, of this place, and was in his thirty eighth year at the time of his death. He was by profession a civil engineer and was engaged in that business at the time of his taking sick. He was a member of the C. P. church and was an exemplary christian, a man whose daily walk was an example to all who knew him of the true principles of the christian religion. He leaves no family his wife having died some time ago. The funeral services take place to-day at 10 o'clock, after which the body will be interred at the cemetery here.

The professional card of W. T. Smoot, appears in the Echo to day. Dr. Smoot will prove a valuable acquisition to our medical fraternity. We can heartily recommend him. The following from the Cadiz Telephone, his old home speaks in well deserved, complimentary terms:

Dr. W. T. Smoot has sold out and will remove to Greenville, Muhlenberg county, where he will reside in the future, and engage in the practice of his profession. The doctor

is a first class physician, a graduate of one of the best medical colleges in America. He gives up a lucrative practice here, and will leave with the good wishes of a host of friends. We commend him to the citizens of Muhlenberg county as a pleasant and affable gentleman, as well as an excellent physician, and himself and family will be a valuable acquisition to the society of Greenville. Both of his children are now attending school at the Greenville College.

Notice.

By order of the Muhlenberg County Court, Q. B. Coleman, H. C. McCracken and J. Ham Helsley, have been appointed a committee, to prepare specifications and let out a contract for repairs on the Muhlenberg county court house; said repairs to consist in metal roof, new floor, new stairway, windows lowered and enlarged, new doors, new furniture for court room, paintings etc. Specifications can be seen at the County Clerk's office on and after the 10th day of December, 1888.

The committee will receive sealed bids for said work from Dec. 10th. 1888, to 12 o'clock Monday, Dec. 20th. 1888, when the bids will be opened and the contract let to the lowest and best bidder. Right reserved to reject all bids if not satisfactory. Address, Q. B. Coleman, Chairman Committee.

A Pleasant Social Event.

On last Thursday afternoon a close observer would have seen a select crowd wending their way to the hospitable home of Mr. and Mrs. G. W. Eaves, Jr. Our party was led by Mr. and Mrs. J. Hugh Eaves. On our arrival we were met with every manifestation of honor. Our gallant friend, Hon. David Clark, escorted us into the house. We were sent to our rooms, where we were met with every possible attention. After arranging our toilets we came into the parlor, and for awhile enjoyed ourselves with our new-found friends. Supper was announced and you ought to have seen the eyes sparkle while anticipating delightful things. The tables were loaded with luxuriant fruits and

groaned under the cumbrous weight of the necessities of life. The writer used to think that he could stand up under as much as any one at the table, but now necessity compels him to throw his mantle upon James Barkley. We enjoyed our- selves until a late hour, and then some of them left for home, while others staid until the next morning. The following persons were in attendance: Mr. and Mrs. J. Hugh Eaves, Misses Mattie McNary, Sallie Barkley, Lillian Oates, S. E. Ramsy, L. B. Weir, M. Pearl Rice, Carrie P. Jones, Sarah G. Eaves, Hallie Eaves, Mattie Eaves, Mr. J. W. Oates, Mrs. Catherine Coleman, Mrs. S. C. Vick, Mr. and Mrs. G. W. Eaves, Jr.

FAIRLEIGH.

We call attention to the advertisement elsewhere in this issue of Kendrick, Pettus & Co., proprietors of the Central Tobacco Warehouse, Clarksville. The house is one of the best of the many good ones in the city and nowhere can more reliable upright men be found than its proprietors. We repeat what we have before said that a trial of the Clarksville market will convince the planters of heavy tobaccos in Muhl- enberg that it is the best market for that kind of tobacco. We believe in the planter patronizing the mar- ket in which he receives the greatest return for his products.

Who intends going to the Legislature from Muhlenberg next year? Don't all speak at once, there is a half dozen of you, boys. There is nothing like being on hand in time with the dear people.

Among the multitude of names suggested as a successor to the present postmaster at Central City, it would appear to an outsider that W. E. FOWLER probably has the inside track, as he has the endorsement of the Republican Committee at that place.

NO TOBACCO NEXT YEAR.

County and District Organizers of the Abstention and Inter-State Tobacco Grower's Association.

A meeting of the tobacco growers of the county was held at the Court House at 1 o'clock last Saturday. The object of the meeting was the appointing of organizers to get farmers to associate themselves together and pledge themselves to abstain from the raising of tobacco altogether next year. J. O. DeCourcy made a speech, showing the absolute necessity of farmers quitting for a year the production of tobacco, owing to the now over production and consequent crowded markets. Of course when it is understood that no tobacco will be raised next year, the present crop will command a greatly advanced price, and as much will be realized as would on two crops in the present demoralized state of the tobacco market. The farmers and tobacco growers present seemed to realize the necessity of some such move, and expressed themselves as

heartily in for it. The following county organizers were appointed: John E. Rhodes, Bremen; John B. Blackwell, Greenville. The following tobacco growers were appointed organizers in their respective districts: G. W. McDonald, S. E. Rice, T. H. Reynolds, Ed L. Yonts. Marion Carver, Greenville; I. L. Carver, C. W. Cisney, R. H. Pearson, Cisney, Ky.; J. R. DeCourcy, Dunmor; John E. Reed, Bremen. Other names will soon be added to the list of district organizers.

SUGGESTIONS.

Go on horseback, in buggy or if need be on foot to every tobacco grower in the county and take his name whether for or against the move. Let every tobacco grower in the county consider himself a committee of one to see his neighbor upon this subject. Get a small blank book or some strong paper, on the first page of which write about these words: "We, the undersigned, tobacco growers of Muhlenberg county, Kentucky, hereby agree to not plant any dark tobacco next year, and that we heartily endorse the Inter State Tobacco Grower's Alliance." Then record, or let each man record his name and post office address on the following space or page. Preserve the record and hand to the county organizers.

Strayed or Stolen.

Bertram.

The series of meetings at Pisgah church, Summers' Precinct, conducted by the pastor, Elder L. J. Stirman, closed Thursday, resulting in thirty seven conversions and twenty nine additions to the church.

I am pained to say that Mr. Amos Bennett is very low at this writing, and that the case is regarded as critical in the extreme.

A series of meetings are in progress at Shaver's Chapel, conducted by Prof. Black, late of Baltimore, and the pastor in charge, both are able ministers, and the result is looked to with unusual interest.

It is now regarded as almost a settled fact, that Bremen is to have a Theological Institute under the direction of the M. E. church. The enterprising citizens of the town and vicinity have taken \$3,600 stock in the enterprise to date.

The Misses Rosella and Fannie Nofsinger, of the Bremen vicinity, who have been spending a short time with relatives here, returned home Saturday.

Mr. Robert Henry is building a nice residence.

Precision of judgment, nerve and prompt action, were exhibited in the highest degree by Mrs. Amos Bennett, Mrs. J. R. Wright and Mrs. J. P. Hendricks, on Wednesday, of last week. Mr. Amos Bennett has a cistern in his yard ten or twelve feet deep which, at the time, contained about four feet of water—a child, a bright little boy of about two summers, of Mr. Riley Bennett, was over with his mother to see his sick grandfather, and after a time was missing, but immediately reported as having fallen in the cistern. The ladies made all haste to the spot and without a moments hesitation the two lowered the third with their hands just as the child was sinking it was supposed for the third time, "lower" sang the voice of Mrs. Bennett, and the next moment she caught the child with one hand and both were brought out by the ladies above. Apparently the feet would have taxed the muscles of two strong men! The work of resuscitation, though slow, in this instance was so admirably performed by the ladies that when the hastily summoned physician arrived, he had no use to use his skill. It is but just to the people of the community of Gishton, to say in this connection that every time the subject is mentioned they shower compliments on the ladies for their heroic action, and that the gratitude of the dotting parents is unbounded.

Corn gathering is about done and it is gratifying to note that the yield is one-fourth greater than expected. Mr. Robert Henry's team ran off with his wagon Thursday. He was thrown between the pair but escaped with only a few bruises. The wagon was badly wrecked.

Mr. and Mrs. G. D. Withers spent several days last week with McLean county relatives.

T. J. Eades and wife, are visiting their father, Dr. Solomon Nofsinger, near Bremen.

Miss Maggie Nofsinger, of Bremen, is visiting relatives in the vicinity.

It has never been my good fortune to find a scarcity of written matter in the *Echo* office awaiting space, yet, the editor kindly invites correspondents from all points of the country. Is there any good reason why we should not respond?

Married.

Married, Wednesday, Dec. 5th, 1888, at the residence of the bride's father, Miss M. A. Compton to Mr. J. S. Harbin. The marriage took place at 8 p. m., the ceremony being performed by Bro. Shelley, of this place, after which the happy couple received the hearty congratulations of the many friends present. The guests then repaired to the dining room, where they were served with a sumptuous feast at a table all brilliantly arrayed with "glittering glass and sparkling silver," and laden with the choicest viands. Wit flashed forth and merriment ran high. Many and brilliant were the jokes which ran round the festive circle as "all partook of the jolly good humor, while none forsook the board." After supper the company stayed to a reasonable hour and then retired, leaving their best wishes and the following presents: One silver pickle dish from Mr. J. D. Yonts; one pair napkin rings, Dr. Church; one set silver dessert spoons, Mr. Wm. Harbin; one chased silver pickle dish, Mrs. E. Rice; one silver butter knife, Mrs. C. F. Campbell; one silver spoon holder, Mr. C. F. Campbell, Mr. Robert Compton; one elegant cigar case, Mr. Henry Myers. Also the groom presented the bride with an elegant gold watch and chain. Both parties are of well-

known and highly respected families, the Harbin family being one of the oldest and most aristocratic of the place. Mr. Compton with his family moved into our county about five years ago, and has made many warm friends among the best families of the county. He came from Logan county, where he has many friends and relatives who would like to hear the news. Russellville papers please copy. A Guest.

Mr. Jas. L. Nagle is turning out some of the nicest boots and shoes we ever saw. THE ECHO is now footed by him and we can speak from experience that he makes the best fitting and easiest wearing we have had on our feet for a long while.

Mrs. M. E. Martin's big stock of holiday jewelry is now open for inspection. She does not make the usual big per cent. on such goods, but sells at the same low rate as she does all her goods. See her goods, and the prices will be sure to make you a purchaser.

Printed specifications of the repairs to be made on the court house and jail dwelling are out, and can be obtained by application to Judge Coleman, chairman of the committee on repairs. The work is to be paid for out of the levy of next year, and thus makes it a desirable contract.

Trade with the men who want your trade. See from this paper

who have holiday goods for sale and do business with them. Greenville is full of progressive merchants, and they want the trade of the surrounding country, and propose to have it if big stocks of goods at low prices will get it.

Elsewhere will be found the notice of sale of the Mills steam flouring mill, which will be sold at public sale county court day, Monday, December 31st. This is one of the most convenient and complete mill properties in the State, and will doubtless prove an attraction for investment to many persons.

The members of the C. L. S. C. are making an effort to give a series of lectures, and are now in correspondence with the best lecturers of the country. They hope to have the first lecture early in January, and to follow with two or three more about a month apart. We trust they may carry out their plans fully.

A Mixed up Affair.

Granvil Foster and Green Cobb, of Mercer, were arrested by Deputy U. S. Marshal Wickliffe, at Central City, Thursday, and placed in jail at this place charged with stealing a barrel of whisky from a freight train while at Mercer. Cobb was bailed out Saturday by his friends and says he is innocent of the charge. Foster has made no statement yet. Foster is wanted in Alabama on another charge of a serious nature. The railroad Company claim that they have been robbed of their goods before and found them stowed away in shafts and other places, and this case will doubtless give some clue to the rascality. The case will be tried here to day. It is a mixed up affair at present but full particulars will be given next week.

The streets have been put in the best of repair, and the last few days all the low places have been filled.

Sisk's Mill.

As our little place has been silent for some time I thought that I would send you a few lines so as to let the people know that it has not gone

dead. Hoping that this will not go to the waste basket, as it is my first. Mr. J. N. Sisk's mill is running regular at the present time. He has on sticks 75,000 feet of poplar lumber which is very fine plank.

Miss Sue Oates, wife of Captain Oates, is very sick with pneumonia. Her fever holds better this morning.

Miss Sue Oates has a nice little dude who lives in Carrollton, he called to see her the other day. Hurrah for Carl.

We have off-hand that is done in Hopkins county, we think that he has gone to the post office now.

Mr. J. N. Sisk has got to be a great hunter, he can be seen every day slipping through the woods with his new breech loading shot gun, it is as good as ever fired. He shot one shot and hit his little black spot. Jas. is a good one you bet.

So I will close for this time hoping to hear from this in your next.

Two Scenes of Decatur.

DECATUR, ALA, DEC. 8, 1888.

Editor Echo:

The first scene was Sept. 20th, the day I left here, it reminds me now of the gentle falling of leaves in autumn that had settled down, then being raised and scattered hither and thither by a whirl wind. And the next scene was Dec. 6th, how the gentle but chilly winds of winter had drifted the most of the same leaves back in one corner of a yard. The people have renewed their energy with better desires for success than before the epidemic. The weather is good and cool and the roads are fine. The relief committee gave out supplies all the time so no one suffered for food, in their tented houses on the mountains. Thos. Atcherson, John T. Shelton and family got fat on mast, grapes and squirrels, in seven weeks in their tents. They were visited two or three times by the relief committee and ate 260 squirrels and did fine while out. They returned two weeks ago and got their old job back on the L. & N. car shops and are doing very well. The shops will not be completed till summer.

Buckhart's bottling works were burned out during the fever, the same building was blown down last

which when it was about completed
crippled seven, and killed one.

Business generally very good,
with better hope for activity and suc-
cess than ever.

I will send a copy of our paper to

MR. CHARLES DUDLEY WARNER in *Harper's Magazine* for January, continues his series of papers on the West in one entitled "Comments on Kentucky." This is not a conventional descriptive article, but the work of a thorough literary artist. It is interspersed with such charming bits of humor as the paragraph upon the virtues of blue grass

Court of Appeals Decisions.

Injunction bonds.—Alexander, &c. vs. Gish, &c.—(To be reported.—Filed December 11, 1888. Appeal from Jefferson Court of Common Pleas. Opinion of the court by Justice Lewis, reversing.

In an action by numerous taxpayers of a county against the County Judge and others an injunction was obtained restraining the defendants from levying and collecting a tax to pay certain county bonds issued in payment of a railroad subscription. Pending the action, the appellants, bondholders, were made

defendants upon their own motion and upon their joint petition the action was transferred to the United States Circuit Court; and a judgment was rendered by that court that the injunction be dissolved upon the face of the petition and exhibits filed therewith. Subsequently, a final judgment was rendered by that court dismissing the action. In this action by appellants, suing for themselves and all holders of the county bonds referred to, against the plaintiffs in the injunction suit and the sureties in the injunction bond, the plaintiffs allege in their petition that the injunction was wrongfully obtained, and that by reason thereof they, and those for whom they sue, have been kept out of their interest on said bonds; that the value of the bonds has depreciated and that they have been put to the expense for lawyers' fees, etc. A demurrer to the petition was sustained. Held—That this was error, because

First—All the existing conditions are stated in the petition, which Section 25, Civil Code, requires in order to authorize the plaintiffs in this action to sue for the other bondholders having a common interest.

Second—The plaintiffs have the right to sue on the bond although they were not parties defendants to the original action when the order of injunction was made, as, by the terms of the bond the undertaking is to pay not merely the persons specially designated as defendants to the action in which it was executed, but to pay "all holders" of the bonds mentioned the damages they or either of them might sustain.

Third—The order transferring the action in which the bond was executed to the United States Court must be presumed to have been regularly made, and the jurisdiction of the latter court can not be called in question in this action. Therefore, the liability of the sureties is the same as if the injunction had been dissolved by the court in which the action was instituted.

Fourth—It was not necessary for the court to ascertain and assess damages upon the dissolution of the injunction; that is necessary only where proceedings on a judgment have been enjoined.

Fifth—Upon a final judgment dissolving an injunction a right of action upon the injunction bond immediately follows, unless the judgment is superseded.

Mr. M. C. Hay was in Russellville the first of the week.

The revival meeting which has been going on at the Cumberland church for the past two weeks under the direction of Rev. J. Cal Littrell has been a source of much good to the people of the town and community. All the churches have been warmed up and strengthened, and about 20 sinners have confessed Christ. Bro. Littrell has presented the truth in an earnest, clear and forcible manner, and large congregations have attended the night services, and very fair attendance at the afternoon meetings.

The old bulletin boards at the court house have been torn down and new ones put in their places. For the information of the public we will state that these boards are used to post up advertisements of land sales, etc., for the small boy and the idler to tear down, and to comply with a law which robs the seller of his possessions and turns them over to the shrewd buyer who is always on the lookout for these notices and who has no special objection to tearing them down himself.—*New Era*

Strayed or Stolen.

The log cabin on the corner has been removed greatly to the improvement of the appearance of the corner in the eyes of the Democrats. In fact the Republicans had to draw on their imagination to see anything very aesthetic in the cabin.

Mr. Amos Bennett, of Gleshton, died last Friday at 2 o'clock, a. m. Mr. Bennett was one of the best citizens of our county. Our readers will be pained to learn that when they were reading the account, last week, of the child rescued from drowning, their heroine was mourning the death of her husband in bitter grief.

The year closes very prosperously for Greenville. There has been more building and improvements than ever before, during the same length of time. The improvement has extended in all directions, and we find in addition to many new buildings greatly improved streets and store houses. Let the good work continue during 1889.

The Louisville Evening Times gives the following bits of political history, which is quite pat just now: "Those who say it will not do to nominate Cleveland in 1892, because no man once defeated for President was elected afterward, are in error. Jefferson was defeated in 1796 and elected in 1800 and re-elected in 1804; Jackson was defeated in 1824—though he had a plurality of the popular vote—was elected in 1828 and again in 1832, and Harrison was defeated in 1836 and elected in 1840. There is no telling who is Governor until the vote is counted, but you may keep your eyes on Grover Cleveland."

We are glad to learn since our last issue that our fellow citizen, Judge T. J. Tinsley, is an aspirant and will be an applicant for the Collectorship of this, the 2nd. district of Kentucky. While this pie is not for Democratic eating this year, we would be pleased to see in the re-distribution next March, our townsman preferred. He is a true gentleman and fully competent to discharge the duties of the office of U. S. Collector. He made an excellent race on the State ticket with W. O. Bradley, and deserves well of his party. He is a staunch Republican and if we have got to have Republicans in office we had just as well have the simon pure article.

Card of Thanks.

PRINCETON, Ky., Dec. 29, 1888.

Through your columns kind Editor, I desire to acknowledge my gratitude to friends and brethren in Greenville, who through the instrumentality of Miss Della Myers, have presented me with an elegant "Comprehensive Bagster Bible." Just what I needed. The old one is wearing away. Such tokens are ties more precious than gold. May God bless the donors with all good written in this book.

Scholarship Appointments.

The County Superintendent W. A. Wickhffe, and Judge Coleman will within the next 20 days, make appointments to the State College. The four parties selected by them are entitled to attendance at the State College at Lexington, free of

Tuition. The entire list should be filled. Apply to the Editor for information.

To the ministers and their people and all christian workers in and about Greenville, who so nobly assisted in our recent meeting in the work for souls, I wish to express my sincere thanks and christian love. You bind me nearer to you by the hearty co-operation so apparent in the recent season of refreshing from the Lord. My desire is that you may reap more and more of the golden grain for Gods garner here, and then meet in the grand Harvest Home Song on that "Great Day."

B. T. WATSON,
 Pastor C. P. Church.

The Granville L. Foster Case et al.

Granville L. Foster, in jail here charged with grand larceny, was brought before Judge Coleman last Friday afternoon and waved examination and was remanded to jail to appear before the next grand jury. At about seven o'clock in the evening he gave bond in the sum of \$300 with John S. C. Dovey and T. Y. Foster security. Green Cobb who was arrested at the same time was released on motion of the County Attorney, who found that he was unable to make a case against him. Foster at once left in order to escape re-arrest on a requisition for burning railroad property at Birmingham Alabama.

Green Cobb appeared on Wednesday and caused the arrest of L. Bloomfield, on a charge of illegal arrest. Bloomfield gave bond. Cobb also entered the following civil action as set out in the below petition in a suit for damages:

MUHLENBERG CIRCUIT COURT.

Green D. Cobb, Plaintiff,

vs.

L. Bloomfield, Defendant.

The plaintiff says that on the 6th day of December 1888, the defendant arrested the plaintiff in this county imprisoned him, and deferred him of his liberty for the space of --- days, unlawfully and with force, and without previous cause on a pretended charge of grand larceny, whereby plaintiff was prevented from attending to his business during said time, and incurred an expense of sixty dollars in court, and caused loss in obtaining a discharge from said imprisonment and arrest to his damage in the sum of \$10,000. Wherefore plaintiff sues for judgment against the defendant for \$10,000 in damages and all other relief.

Yost & Young,
 Atts. for Plff.

We give the above as near facts as can be ascertained. We know nothing of the merits of the charges, but point to a serious defect in our laws which is being continually taken advantage of by criminals to each other under requisition papers.

Muhlenberg County Bond.

It gives us much pleasure to hear that some of the most intelligent and influential citizens of Muhlenberg are quite anxious for a fair and honorable adjustment of the county debt with the least practicable delay, and thus restore the credit and good name of the county. From what we hear we think it probable that many holders of the 7 per cent. bonds would be willing to accept fifty cents to the dollar for the principal and past due coupons of the old bonds, payable in new 6 per cent. bonds, provided a majority of the citizens of the county would give a written and binding obligation that the levy should be annually made and collected to pay the interest on the new 6 per cent. bonds. Unless some such guarantee is given, the holders of the 7 per cent. bonds would not be willing to surrender them, as the law under which they were issued gives the holders a lien on all the real estate of the county, for the payment of them. If those of our citizens who paid 75 to 85 cents to the dollar for these bonds years ago, are now willing to take 50 cents to the dollar of the principal and accrued interest in new 6 per cent. bonds, properly guaranteed, it is certainly very liberal on their part, and the county is very able to pay this.—Russellville Herald.

Closing Out Sale.

Having to give up the house I now occupy on Jan. 1st., I intend to sell out my entire stock at greatly reduced prices. Not knowing whether I shall be able to find another building here, everything will be sold by that date. If you want anything in the millinery line, be sure to call on me.

Bank of Greenville.

The semi-annual statement of the Bank of Greenville appears in this issue. As will be seen from a com-

All the old plugs which would not stand the winter were replaced Monday.

This week is very discouraging for a small boy with a pair of new shoes. The shoes are very good and is published for sale last Monday for \$3.00 a pair.

The building boom is being pushed for all there is in it during this favorable weather.

Bring us your job printing. We are prepared to do promptly anything you may want.

The small boy has come to the conclusion that we are to have no skating this winter.

Will Hallinan, in the Jenkins building, is doing all kinds of shoe work and repairing cheap.

Charley Josey, of Mercer, drew the fine double-barrelled shot gun which Morgan Bros. had with their cigars.

J. L. Nagle is turning out some very fine work in the way of ladies shoes. He invites the ladies to inspect his work.

The young people have enjoyed several pleasant socials during the holidays. There has been one or two each night.

Rev. Baxter Barbee, who conducted a meeting at this place some two years ago, died a few days ago at Caseyville, Ky.

County Court was held Monday in the basement of the Baptist church, owing to the repairs going on at the court house.

Will Hallinan, in the Jenkins building, is prepared to do any shoe work, either new or repairing, at the lowest possible figures.

A row of pretty considerable dimensions was inaugurated by the colored people at their Baptist church on Christmas night.

The North Side coal bank, Bethel Bros. proprietors, is delivering large quantities of fine coal here. Coal can be had at any time of them.

Nagle does boot and shoe repairing, or makes new work as low as can be done by a good mechanic in

workmanship, madder out of food near town, house of 4 rooms in good repair, on building. 20 acres of ground, well watered, splendid orchard. Apply to J. C. Morgan.

Of course there will be skating this winter, and you should be ready to enjoy it by getting a pair of skates from Morgan Bros. Also have the best skate strap made with patent buckle.

Eleven members were received into the Methodist church last Sunday. Under Bro. Shelley's direction the church has been wonderfully strengthened, and has been led into many lines of useful work.

The holidays passed off quietly here. A few drunks in the surrounding country brought in a number of broken heads and other breaches of the peace to be mended by Police Judge, Wickliffe.

Quite a congregation assembled at the Methodist church at 11 o'clock last Monday night, and in a devotional meeting remained until the new year. It was an interesting service, and very appropriate.

The friends of Bro. and Mrs. Shelley presented them with a box containing many valuable articles on Christmas eve. That night some sneak thief broke open the outbuilding in which they were stored and stole the most of the articles.

The mill property owned by J. E. Mills near the depot, was sold Monday to Wm Jago and others for the sum of \$4,667. This is a mere song for the property as the building alone cost more than double the amount. Ten thousand would have been cheap for it.

The Sandusky House, at Central City, is one of the best hotels. This house enjoys a good patronage from travelers, as it is the dining place for the N. N. & M. V. and O. & N. railroads. Capt. Sandusky is now giving this house his undivided attention, and will sustain its reputation.

The revival services in the C. F. church closed last Thursday night. There were about twenty-five conversions and a number of additions to the church. Rev. Mr. Elliott delivered discourses that will warm the hearts of our people and do much good in the future.

Such beautiful weather as we are having now, cannot be remembered by the oldest citizen. There has been no snow and very little rain, and the weather has been open and invigorating. The ice dealers are getting a little anxious about the ice harvest, but there will doubtless be enough and to spare.

A typographical mistake in last issue, made us say that a boy instead of a hog belonging to Robert Dukes was wrongfully taken and killed. There are no persons in Muhlenberg that would wrongfully take a boy, much less kill one. However the small boy that delights to take a stick as he walks by a falling fence and convert the same into an unearthly rattle at sundry hours of the night might he rightfully be taken by the seat of his pants and thrown over the fence and across three or four lots.

Removal.
I will remove from my present place of business today to the Myers & Baker building on lower Main street, where I shall in future be pleased to see my patrons. Will keep as heretofore a splendid stock of the prettiest hats, bonnets and millinery goods of every description.
Mrs. M. E. MARTIN.

Notice.
We have added a feed mill and corn sheller to our mill, and will shell all corn, free of charge that is brought to us to grind. Our feed mill grinds corn, cobs, and shucks, together, making finest of feed for stock. Parties can have grinding on Fridays and Saturdays, of each week.

The Court of Claims.
The list of claims not allowed by the court of claims as published in THE ECHO of Dec. 20th is not very clear, as it only shows those claims

66
 that were rejected in toto. It would probably be a matter of satisfaction to some of our people to know that nearly all claims allowed were cut down, some of them more than half. We give this explanation because some of our people are criticizing the action of the court, supposing that they allowed all claims as presented without any effort at reduction. The sum total of the claims presented was over \$7,000 in excess of what was allowed, not including the rejected list. We suppose this will be sufficient to satisfy all that class of citizens who either from habit or experience have learned that men are accustomed to claim more than they expect to get, and that it is the constitutional right of a board of magistrates to cut down such claims. However, we can assure all our citizens that the court of claims was composed of honest citizens sworn to do their duty, and that they made their allowances not in proportion to the size of the claim, but the value of the service for which it was presented. This being the case, it is a matter of small moment as to the amount of claims as presented. We believe every dollar allowed was for valuable consideration very much in excess.

The two year old son of Nan Owens, colored, was seriously burned yesterday.

What's Wrong with Central City?

Is she all right?--The Officials of the Junction City in Trouble.

The Prohibition Law Cracked From "Eend to Eend."

The arrest, trial and incarceration of City Marshal, W. J. Hudson, of Central City, last Saturday, has brought to light a serious state of affairs in the municipal government of that place. For some time the violation of the liquor law at Central City has been flagrant, open and above board. The efforts of both local and county officials have proven uneffectual in maintaining the law and stopping the traffic in liquor. The periodical arrest and

They paid their fines, by a part, and continued in business. On Saturday a determined effort was made which promised to be successful. A clear case was made against City Marshal Hudson, who was fined \$150, and ordered to pay the fine or replevy. Although a number of citizens proffered to go on his security, he was subsequently brought to this place and placed in jail where he remained until Monday, when he decided to take an appeal and gave an appeal bond. It now appears that the town trustees had passed an ordinance by which five or six men had been permitted to sell whisky by the payment of a monthly fine of \$20. The law puts the lowest fine at \$100 but the Police Judge was instructed to remit \$80 and with an understanding that arrests were to be made only every 30 days. However well this scheme might appear to work on its face, it is a clear violation of the law besides subjecting the parties to indictment for conspiracy to break law. There is strong talk of a vigorous prosecution of the matter. The law knows no favorites, while the trustees may have thought they were within its protection in making the ordinance, yet they were not, and as in the case against Hudson, who it appears only gave a key to a man which opened a door that enabled him to get whisky belonging to another man than Hudson, yet this was rightfully held a violation of the law, as should every similar action that looks to a breaking of the law in either spirit or letter. The law must be supreme if good order prevails, it matters not what may be the belief of those subject to it in regard to its rightfulness. We learn that to Esquire J. Ham Heltsley, more perhaps than any other man, is due the vigorous measure now being exerted in behalf of order in Central City. He has both courage and decision and is worthy of all honor for his efforts in sustaining the law.

While Central City is clearing her decks for the new year it might be well for Greenville to see to it that there are no violations of law within her jurisdiction.

The following property was sold by the court on Monday, Dec. 10. A tract of land belonging to Lot Penrod was sold to Phillip Heltsley for \$800. The livery stable formerly owned by Fayer and Wingo was sold to Grand for \$100. One-half interest in the Morgan and Baker farm near town was sold for \$225. 200 acres near and on Creek was sold to J. W. G. Wren and purchased by him for \$100. A tract of land belonging to the Summers estate was sold to L. Gish for \$800. 10 tracks of land belonging to Lot Penrod was sold for \$100. The T. C. Summers building on corner of Main and Main Cross, to Mrs. Summers for \$3,002.50. The J. E. mills mill property near the depot was sold for \$4,667 to Jago et al.

The contract for the repairing of the court house and jail, was let to Messrs Farnsworth, O'Brien and Iryin. Work has been begun on both buildings and will be pushed to completion. Their bid as accepted was \$1,250 for the court house and \$190 for the jail.

County Court.

County Court disposed of its docket Monday, there being no very important cases. The wills of Marinder Carver, Daniel Overhulls and Amos Bennett were probated. The well known bastardy case was tried, and the jury failed to give a verdict.

Hiram Lee was married to E. F. Spurlin on New Years Day.

Mrs. Rothrock continues receiving new goods of the very latest styles.

The congregation at the Presbyterian church were treated to two more than usually excellent sermons last Sabbath. The pastor, Mr. Porter, having to miss several of his regular discourses, gave his charge two extra sermons on that day which although unexpected, as he had not had an opportunity to give them much time, were pronounced by all who heard them, to be discourses taking the very highest rank both for thought and arrangement. The clerical talent of Greenville does her much honor and is equal to that of many of her greater sisters.

A Thoroughly Enjoyed Social Event. The young gentlemen of Green-

ville, ushered in the holiday season with a grand supper at the Greenville Hotel on Christmas evening given to the young ladies in appreciation of a like entertainment tendered them in inaugurating the New Year last winter. A GOLDEN WEDDING.

A Memorable Anniversary in the Life of Mr. and Mrs. Gilbert H. Leigh, of This County.

[Reported for THE MÜHLENBERG ECHO.] On the 20th day of December, 1858, at 7.30 in the evening, the golden wedding of Mr. and Mrs. G. H. Leigh was celebrated in an appropriate manner at their home in Muhlenberg county, Kentucky. It was an enjoyable occasion, fraught with pathetic interest. Children and grand children, with others of the family, connection, with bidden guests, were gathered there to gladden by their presence, and to give tokens of their affection. Clear, cool, crisp yet balmy was the day, followed by a night of rare beauty and radiance. Moonlight and stars

and sparkling frost made all without beautiful; with the steady glow of the oil lamps illuminated the parlor and made its elegance and artistic arrangement shine forth in beauty and welcome for all. Nor were light and warmth and color all its charms—flowers were there neatly arranged on quaint shelves in bloom and sweetness to enrich the room. An arch of classic mistletoe intermingled with orange flowers was suspended from the high ceiling with fine effect. Geraniums and other home plants were artistically scattered about the room, showing skillful touches of the magic hand of good taste wrought out in the spirit of love. Within this room the guests waited to greet the wedding party. The initial proceeding of the entertainment was the advent of the ushers, Mr. Robert Leigh and Miss Mollie Tigart, carrying in their hands burnished candlesticks with candles burning brightly. After these by twos and threes and singly came the other children and grand-children and other relatives, and took standing positions within the charmed circle. Then Mr. and Mrs. G. H. Leigh slowly entered and stood beneath the arch. Then the Rev. W. L. Cornett, officiating as "master of ceremonies," stepped forward and in an impressive manner said: "Beloved, with happy greeting we meet you under this beautiful arch to celebrate your golden wedding. At this hour on this day fifty years ago in your young love, for you each were then but nineteen) you stood before the minister of your choice who then solemnized the rites of matrimony between you. There were exchanged the vows which have faithfully been kept. The scene is different now, though Times' snows have fallen very gently on you. Your efforts to make an honorable living and to elevate your family, have been a success. Doubtless like all the children of the world you have made many mistakes. You have had faults (who has them not?) You have multiplied your name, and surrounding you now are your noble sons and sons-in-law, your lovely daughters and daughters-in-law, and here, too, is a group of grand-children greeting you with smiles from early youth to the wee, blooming rosebud girl crowing in its

...to these you children and grand children we feel sure that you may safely trust and commend your bested hands to be handed down to the coming ages. Honorable citizens have been true to your country, true to your State and true to your county so far as you saw the right. Now, of course, you pledge anew to each other your undying love and confidence for the future of your lives, thus ratifying the vows made fifty years ago. We wish we could photograph this scene to be handed to your descendants as an heirloom. Since this is now impossible we request you, sir, to favor us with a running historical account of your first acquaintance with Miss Eliza Cotten, and of your courtship and marriage, so that your children and grand children may know something of the early days of their parents. Mr. Leigh responded in substance: "Some two years before we were married I had learned the cabinet makers' trade, and was doing "journey" work near the home of my future father-in-law, near Nashville, Tenn. The picture of the place is in view of us now. One day I saw a young gentleman and a young lady passing by. I inquired her name; I learned it was Miss Eliza Cotten. A few days later she with several others came into my shop. I expected an introduction, but received none. But afterwards I did receive one, and straightway we fell in love—at least I fell in love with her. [Laughter.] There was a forked walnut tree near her home that used to be our trysting place. Every time I met her there I would intend to ask her to become my wife, but something always seemed to get wrong with my mouth—it would not go off at my bidding. But finally it did go off, and the question was popped. And what do you think she said to me? "I'm not going to live with your mother." That was my answer then. By and by we married on this day fifty years ago, and she never lived with my mother, either. We made our own home, and surely God has blessed us in our undertaking. I have made many mistakes; have had faults; was wild to some extent, but this lady by my side—the precious wife of my youth—has been a true woman, a loving, faithful wife through

all the scenes of these fifty years. It is to her I owe what I am able to do. The love that has made our home a delight to me and to our children, she has been as an anchor to a ship. In conclusion, were I free to marry again, I would marry this woman beside me if she would have me." The minister then said, "Allow me to take your hand in congratulation on this occasion. I rejoice that your children are all living in easy circumstances, and within short distances. This makes possible this golden wedding celebration. I could never hold mine—my family were scattered ere that day. Live in the light, and may no dark cloud ever hover over you, or come between you and your children. We never can count all within a room; doubtless happy spirits of our departed ones are now bending over this group rejoicing in your happiness. May this thought often comfort us as we onward move to take our places with the saved in heaven. 'Blessed are the people whose God is the Lord.' There are some rich presents which will now be presented to you by Mrs. Henry Leigh as gifts of love with their best wishes from your children and others." The following is a list of presents received by the worthy couple: A gold watch and chain for each; a pair of gold glasses for each; a pair of cuff pins, two gold pens, a ring and several other gifts. Mrs. M. N. Smith, a sister of Mrs. Leigh, presented a silver butter stand; Miss Agnes Cotten gave a gold pen; a silver napkin ring was presented by their old farm servant, Andy. Dr. Robert Crittenden was an honored guest, as was Mr. W. Newman and Mr. George Blackwell. After the presentation of gifts the company adjourned to the dining room, where a truly magnificent feast was served. The table, crescent shaped and snowy white, groaned under its load of substantials and delicacies. The orange tree, with its golden fruit, was in "the midst thereof." Crystal and silver gleamed, and flowers abounded. It was an exhilarating scene. All partook of the supper with due appreciation. Following the feast came a splendid display of fireworks in the frosty air on the

paired to the parlor, where conversation and music and song beguiled the hours until the parting came. The guests departed, the children sought their rooms, and the worthy couple were left alone in their happiness to dream over the celebration of their Golden Wedding.

TUESDAY WAS JACKSON'S day. It was not celebrated in Greenville to any great extent, but this does not signify that there are not plenty of JACKSON Democrats here.

GLOVER & DURRETT it is reported have purchased the "Greenville" Tobacco Works at Owensboro so says the Louisville Times. The Times also adds that this is the largest manufactory of tobacco in the State. The Times published as it is in one of the great tobacco markets of the world, should keep better posted, as regards the manufacture of the staple in Kentucky.

THE recommendation by Gov. HILL to the New York Legislature to memorialize Congress for a revision of the Constitution of the United States providing for a six years term of the President, his ineligibility for a second term and that he shall upon the expiration of his term as President become a life member of the Senate, will produce a considerable amount of useless discussion. The present Constitutional arrangement for a four years term, is not only judicious but in perfect accord with the spirit of the American institution. The President to become a life member of the Senate is all bosh. Coming as it does from Gov. HILL with the provision that it apply to all living Ex-Presidents savors of an inclination on his part to clear the decks for '92. When that good year rolls around Cleveland will be found not only on deck but at the Democratic helm.

DR. JNO. D. WOODS, than whom

no man in the State is superior for those high and honorable traits that characterize a true Kentucky gentleman, has resigned his position as public printer. Gov. There could be no higher compliment to COL. JOHNSON than the statement that he is the peer of his predecessor. WOODS and JOHNSON are worthy sons of a State that knows no peer in the sisterhood of States in the superb manhood that has sprung from her soil.

W. C. T. U. COLUMN.

Many a man and woman says of alcohol: "It helps me work," and they really think so. It seems to rest them when tired. The reason is this: When strength is exhausted, the nerves cry out for rest. Rest is the only thing that can prevent that waste of vitality which brings on premature age and decay, and perhaps a sudden breaking down. The nerves are our safeguard; but if instead of heeding their cry and giving them rest, we poison them so that they cannot feel correctly, and do not cry out, then we are left to go on without warning, perpetrating this fatal waste of vitality. And this is precisely what we are doing when we use alcohol. It gives no strength to the overtaxed system; it only silences the nerves so that they no longer warn us of the injury we are doing ourselves. We have not removed the danger; we have only destroyed the signal — Ex.

Rev. Louis F. Zenkan, General Agent of the Prisoners' Aid Society, Baltimore, furnishes the *Voice's* correspondent with these statistics: During the last fiscal year 9,898 persons were committed to the city jail, of whom 7,584 were committed for drunkenness. Many of those committed for other offenses were under the influence of liquor when arrested. The police department made 29,538 arrests during the fiscal year, and 19,815 of these were for intoxication and disorderly conduct. According to the statement of the superintendent 95 per cent of those committed to the House of Correction are intemperate. Out of 2,223 admitted to the Bay View Asylum, 1,711 were intemperate adults, and 16 were children of intemperate adults. All this terrible desolation was one year's work of 3,000 saloons—or rather that part of their year's work that is publicly

shown by the records of criminality and insanity.

The rum power is too colossal to be ignored, too cyclonic to be regulated, too insolent to be endured.

Saloons are incubators for hatching anarchists.—*Extracts from the Voice*

The Atlanta Commonwealth tells a story and points a moral: There is a mechanic in this city who is a first class workman, a faithful husband, and loving father, but, unfortunately, his passion for intoxicating drink overcomes him, and when in that condition his entire nature seems to be changed, and the gentleman that he is when sober is driven out of him by the demon of drink, and the coarse, brutal ruffian takes his place for the time. During one of his recent sober, steady intervals, and in a repentant mood, he said to a friend: "This habit of drinking is a terrible thing. It is a habit that will bring disgrace and ruin on any man. There is no difference in effect between whisky and beer; it is all evil. I drink beer and get drunk on it, and make a brute of myself, just as others do on whisky." Then he added with a sigh, and striking his fists violently together: "If there were no barrooms here, I would be a sober man; but I cannot withstand the temptation at every turn and corner." What a prohibition sermon this man has given us! But what does the saloon-keeper care? And what does the brewer care? And what does the man care who owns the building and rents it for a saloon? And what does the politician care who can gain votes by making concessions to this conscienceless and pitiless power? S

We now have a merchant tailor here, and our people should patronize home industries. Mr. Keller comes well recommended, and the public should give him their patronage and build up a home industry.

The Chautauqua people are endeavoring to secure a lecture by Geo. R. Wendling. He is one of the greatest of American lecturers, and the effort should be supported to a successful result. By all means let us have Wendling.

Mrs. Caroline Hurt has bought machinery, and is now prepared to do wall papering in the latest style and best manner. She is now making contracts for work, and will begin as soon as the weather permits. Persons wanting anything in this line will do well to call on her.

Cure your cold while you can. One bottle of Chamberlain's Cough Remedy will cure any ordinary cold, but if neglected, catarrh, chronic bronchitis or consumption may follow, and they are seldom if ever cured by any medicine or treatment. Only 50 cents per bottle. For sale by all druggists.

The days of our fore-fathers when the grave and dignified Puritans attended worship with their guns in hand and a cannon mounted on the roof of the church, was called to memory in the Y. M. C. A. rooms a few days ago in every particular except the dignity, which was routed by the startled exclamation of a beholder.

Mr. I. N. Roll was appointed marshal of Central City Tuesday, to succeed W. J. Hudson, resigned. Mr. Roll is a good man, and will we trust straighten out affairs in that place. Those acquainted with Mr. Roll speak of him in the highest terms as a capable, determined man who will discharge his duty fearlessly. We hope to hear good reports from Central in the future.

We were shown yesterday a basso-relievo executed by our talented friend Jno. T. McIntire. The subject, an ideal woman's head, was first executed by Mr. McIntire in clay and then a relief was taken in leather by a novel and remarkably successful process which shows in

the most faithful manner, every line in the clay head and in an almost indistructable material. The artistic merit of the piece of work is apparent even to those not specially skilled as critics. The equal of this piece can not be found we feel safe in saying outside the studios or collection of the best artists in the land.

Several years ago Chamberlain & Co., of Des Moines, Iowa, commenced the manufacture of a cough remedy, believing it to be the most prompt and reliable preparation yet produced for coughs, colds and croup, that the public appreciate true merit, and in time it was certain to become popular. Their most sanguine hopes have been more than realized. Over three hundred thousand bottles of Chamberlain's Cough Remedy are now sold each year, and it is recognized as "the best made," wherever it is known. It will cure a severe cold in less time than any other treatment. For sale by all druggists.

Many Thanks.

We wish to return our heartfelt thanks for the substantial way in which we were remembered by members and friends Christmas eve, and in return may heaven's richest blessings come upon all.

Greenville College.

The fall session closes on Tuesday of next week and the spring session will open on the following Monday, January 21st. There is no school in the State that does better work. Teachers will find this one of the very best school in which to prepare themselves for their work. Those who have been engaged in teaching would find it a good investment to attend the Greenville school for five months. The very best methods of instruction are used and young men and young ladies will obtain ideas that will insure to them success as teachers. We hope a large number of teachers will avail themselves of the advantages of this institution the coming term.

Mr. T. J. Tinsley met with an accident last Saturday that has put him on a crutch with a quite painful sprain of the ankle. In stepping down a step at some place in his plaining mill he put his foot on a plank that turned and wrenched his foot.

The board of Supervisors is in session this week. As now organized it is composed of Alex Tinsley, Geo. Blackwell, Wm Carver, David Rhodes and Jno. C. Jackson and the Assessor and County Judge. They began work early Monday morning and will probably be in session the entire week.

Central City has a local option law, but it has not local option by a long shot. The violations of this law form a large part of the business of the courts, and the City Marshal was recently arrested charged with illegally dealing in the fiery fluid. When men who are chosen as guar-

dians of the law become its violators, it becomes a sad commentary on the state of affairs.—Standard

The poor people of this country will be glad to learn that the Senate has refused to lower the tax on clothing and other necessities but have considerably reduced that on diamonds from twenty five to ten cents.

The Louisville Times concerning the Green & Barron River Navigation Co., says: "Owing to litigation against the Company on the part of the riparian patrons and the falling of the walls of one of the locks the holders of the franchise set about a few years ago to unload upon the government." The walls of that lock fell last winter. The effort to unload had been under way several years then. There is no necessity for anything else than truth in a discussion of this matter.

The Louisville Times hints that two Congressmen have a little concern in the \$27,000 balance, which the Green and Barren River Company stockholders are demanding and claim is unpaid of the \$135,000 lobbied out of the government for their franchise. The two Congressmen referred to are doubtless HUNTER and LAFFOON, who took such an extraordinary interest in the Navigation Company's last stupendous job. How much of the boodle did they get?—*Monrover.*

The Memphis Scimitar recom- mends Col. ANDREW J. KELLAR, for many years editor of the Memphis Appeal and now Superintendent of the Beaver coal mines in Muhlenberg county, Ky., as the best representa- tive of the South that could be se- lected for Harrison's Cabinet. While greatly surprised and some- what aggrieved by the assurance that Col. K. "has been recognized in late year as Republican in politics," we heartily indorse the Scimitar's statement that "he is a very able man, whether at the bar, in the mili- tary field, in the editorial room, or in business life, with all of which he has enlarged and successful experi- ences."—*Louisville Times.*

We haven't taken much interest in the Cabinet business as yet but if they are beginning to push the mat- ter home to us and organize the Cabinet out of Muhlenberg material we will sail in and take a hand. There is plenty of Cabinet material being suggested by Republican bosses and as this is their year to engage in the Cabinet business we have deemed it prudent to let them use up all their rubbish. But now that they are beginning on good tim- ber we will lend them a hand. We are not personally acquainted with Col. KELLAR but his reputation is that of a man who would do credit to a Cabinet position and honor the administration far beyond the ma- jority of the names that have been presented to the President-elect.

EX-GOVERNOR KNOTT who as a Congressman from Kentucky reflect- ed national honor upon the State and as Governor made one of her best executives and who has since been adding luster to his own name and that of his State as one of the ablest lawyers in the Union is still unable to gain the good will of the Louisville Times. That paper wants to connect his name unfavorably with the purchase of the Green and Barren River Franchise. The peo- ple in this section that will be bene- fitted by the free river, had as soon see the money go to Governor Knott as to the stockholders of that de- funct concern. It was at best a soul- less corporation while Gov. Knott is a big souled gentleman when you come to know him and the Louisville Times would do well to get ac- quainted.

The lecture of Lucien Benson on Sunday evening will be at the Cumberland church and also on Monday night at half after six. The lecturer is one of the best in the country and will prove a treat to all who may hear him. Give him a good house.

The very interesting meeting which recently closed near Bremen at Shaver's Chapel, resulted in 75 conversions and 43 additions to the M. E. Church. An interesting meeting is now in progress at the Bethlehem church which up to the present time has resulted in 25 conversions.

THE ECHO keeps no open subscription accounts. Parties who desire to have their papers discontinued must settle arrearages, or the paper will be continued at their cost. When notice is given through the post office the next paper sent out will bear the date of expiration, which is due notice according to established usage.

The Bremen people are getting well under way a project for a high school. The contract for the building has been let to Mr. Jos. Shaver and it is expected to have it completed in time for use next September. The building will be of brick, two stories, fifty by fifty-four with seven rooms and a library. It will cost about \$3,000 and nearly all the money has already been subscribed.

The jail improvement contract has about been completed. A stout vestibule or wooden cage has been constructed in front of the door and a flight of steps connecting this with the residence portion of the jail constructed. This improvement should have been made long ago. The disadvantage the jailer had in entering the jail heretofore has caused frequent attempts at escape, several of which have been successful. Prisoners will find such attempts in the future futile. The jail is now in very good condition.

A New Industry.

Mr. Chas. Mendel has secured the services of Mr. Henry Keller, an experienced practical cutter and tailor from the east, and will be prepared to fill in the future all demand for custom made goods. He will keep on hand a big stock of piece goods of the latest design and best material. A good tailor has long been needed in Greenville, and our people should see to it that the accommodation now offered meets with every encouragement. A great deal of annoyance has been met with in sending away for suits by parties here. In fact, it is a very difficult matter to get a suit in that way that will fit and give satisfaction. When you can go to the shop, pick out the goods, have your measure taken by a first class tailor who sees you and knows what he is about, you will save a vast deal of annoyance and wear well fitting clothes.

Lost—On last Sunday a subscription list amounting to \$2,275 between Olive Branch Church and Bethel Church, on the Greenville and Bremen road. Return to this office or to J. D. Perryman at Bremen.

A Fair Circuit.

The Fair Associations of the Blue Grass region having combined and formed a circuit. It might be found advisable for the fairs in Western Kentucky to make such an arrangement as would prevent a conflict in dates if not a closer union. The fairs of Owensboro, Hartford, Greenville, Madisonville, Princeton

and Hopkinsville should not conflict in dates.

Court House History.

The following interesting items concerning the building of the present court house now undergoing repairs was furnished us by Judge Eaves as appear upon the county records. The original structure which was of wood stood upon the same site, the contract for which was let in 1799. During the building of the present structure court was held in the jail.

The Temperance Lecturer.

Luther Benson, the Temperance lecturer, will deliver a lecture here next Sunday afternoon at half after two, we append a notice from the pen

of R. J. Burdett which speaks in high terms of his ability. Let every body hear him.

76 On the 11th. of December, 1887, I struggled through the crowd to get into the beautiful opera-house at Columbia, Mo. It was crowded to the very doors, every inch of standing room packed, and people turned away from the doors. On the platform stood the only attraction, Luther Benson, of Indianapolis, and every eye was turned to the mournful face of the heart broken man, whose words burned with the fire in his own heart as he told the story of a broken life, a life of struggles, of fiery trials, pitiless temptations, fierce conflicts and many pitiful falls. One looks into the orator's face and sees there to-day no mark of evil, no traces of a dissipated life, but at a glance you read a story of sorrow. Rarely does the shadow leave the man's face, and the smiles that sometimes brighten it pass rapidly away, and the ever-present cloud drifts over it again, touching it with indescribable pathos. But the orator's words were interwoven with flashes of brilliant wit, bright, genial humor, stinging sarcasms and genuine eloquence, and for nearly two hours the great audience, representing the best elements of the cultured society of the University City, listened to Benson as he told a story that only he can tell.

They are still selling at Morgan & Green's the famous light-running wagon. A new car load just received.

The little child of Ann Owens, colored, that was so badly burned some time ago died last Thursday.

Last Sunday with its balmy air and bright sunshine brought music into the throats of birds and happiness to the hearts of many a fair country maid who contemplated church going, but my wasn't it bad on the city dame with her unworn seal skin cloak.

A COLLECTOR A POSSIBILITY.

The presence here last week of a lawyer from Hopkinsville and the taking of a copy of the list of the taxable property of the county has created considerable interest. The gentleman, Mr. Brown, made no statements as to his intentions but the idea prevails and it is evidently not without foundation that a collector is to be appointed. That a collector can be appointed from any other than Muhlenberg is conceded and this course is probably the one that will be pursued. The Echo will in the future as in the past endeavor to keep the people posted as to the moves being made in this matter.

ANNOUNCEMENTS for the Legislature are appearing in all the neighboring papers. What is the matter with the Muhlenberg aspirants? If you intend to make the race say so. The Echo wants to let the people know it.

If certain of our contemporaries should adopt the plan of consulting the columns of the Echo for the authentic news of this section they would be able in the future to furnish their readers more truth and less fiction.

The Calhoun Constitution we are glad to see is ally to the best interests of McLean county, and intends to see to it that she is opened to the world. Calhoun and the county of McLean needs a railroad and until it gets one stands a poor chance of much progress.

Page 2 - Col. 2.

The effort to connect ex Governor Knott with the two Kentucky Congressmen, in the scandal about the Green and Barren River Navigation Company's \$27,000 of boodle, seems to be entirely unjust. It was openly announced in the outset that Gov. Knott had been retained as attorney for the navigation company, at a fee of \$5,000, to represent them at Washington in their effort to sell their franchise to the government. This was certainly legitimate. But if the Congressmen referred to used their official influence in behalf of the corporation and got a slice of the swag, this is quite a different matter.

A TERRIBLE accident happened to the new bridge across Green River at Spottsville Sunday afternoon. Over twenty lives were lost by the breaking of the draw span while it was opened. About forty men were on the span at the time, having been engaged in placing an obstruction on the track to prevent the passing of the train, there being some legal difficulty between the railroad and the bridge contractors.

The above was the first report, but later information showed it to be greatly exaggerated. About twenty five men were on the bridge a great many of whom were wounded but only one man was killed outright.

Andrew J. Craig Seriously Wounded.

Hadden Sherrod was brought into town last Saturday and lodged in jail to await the result of seriously wounding Andrew J. Craig of the Skilesville country. Both parties are well known here, and the affair has created considerable attention. The difficulty occurred about twelve o'clock Friday and was as near as we could learn the immediate result of a difficulty between the children of the two men who are brother's in-law. We say immediate by which

we mean the last apparent source of trouble. It is claimed by the friends of Craig that the real cause of the trouble was the desire of Sherrod to get possession of some money that his wife possessed and refused to allow him to have and in which she was sustained by her brother, Craig. This had been a boce of contention for a year or more. It is further alleged that Sherrod went over to Rochester on Friday morning and made threats stating his intention of killing Craig, he also drank and got pretty drunk. He went back home and told his wife that he intended to kill him and went over to Craig's house where not finding him he told Mrs. Craig he was going to kill her husband and went out to the barn where the difficulty occurred. Craig had a stout stick but it is claimed that he did not use it. He turned to leave Sherrod under the entreaty of several women who came out to the barn to stop the difficulty, when he was cut in the side penetrating to the cavity making a dangerous wound which the doctors think may prove fatal at any moment. Sherrod fled and was found concealed shortly afterwards. He had when found a wound on the arm but it is not thought that it was received in the affray. Sherrod will be brought out Friday when a day will be fixed for his trial.

Prerastination Allas Louis Hancock.

Louis Hancock was before Judge Coleman Monday on a warrant charging him with having stolen a watch from R. P. Farnsworth. The proof as to the larceny was pretty clear, but the value of the watch was attempted to be shown to be under ten dollars, so as to reduce the offense to petty larceny. The judge held Hancock in a sum of \$200 to appear at the next term of Circuit Court.

Bertram.

By judicious management the trustees have secured experienced teachers for both the Eades and Morehead districts. But this is becoming more difficult year after year. The remedy is in consolidation—nothing short of it can save the educational interest of the vicinity.

78 Our clever neighbor, Mr. J. W. McLavain, I am sorry to say lost his meat house by fire Wednesday night. The house was new and contained about 200 pounds pork and many other valuable articles. The fire had assumed such proportions when discovered that nothing could be saved, and it was only by good management and persistent effort that the dwelling could be saved from the devouring element.

At the residence of Mr. Samuel Notsinger on Wednesday, the 9th inst., at 2 p. m., Mr. McLellan Williams was married to Miss Bettie Stone, Rev. G. B. McDonald officiating. May every happiness attend them.

Miss Fannie Eades, of Oak Grove, who delighted her relatives here by a week's visit, returned home Saturday.

Mr. W. M. Overhults, of Ohio county, has been spending several days in the vicinity of his old home.

I was shown a letter of recent date from Mr. Benjamin Kelley, of Peoria, Ill., who taught geography by lecturing at Oak Grove church and possibly other points in the county forty years ago. He has been successful as the world counts success, but turns with tenderest regard and the highest encomium to his former students and the many friends of his youth.

Mrs. W. P. Henry, who was hastily called to visit sick relatives in McLean county last week, has not yet returned.

The series of meetings at Bethlehem still continue. There had been fifty two conversions to latest report.

The man who said I am not an author was like David "in haste." I am the author of the proposition for four square meals per day as an additional reminder of the Sabbath, and that too in the interest of those ladies who are left so long alone on that day, as the average biped called man is always home at meal-time.

Mr. James Long, of Geneva, was the guest of Mr. T. J. Eades the first of the week.

MOREAU.

Under the Corner of the House.

A very interesting case was tried before Judge Coleman last Saturday. On the Saturday evening previous Henry Lovell and young Mr. Bog-

gest while in his own home in a buggy were thrown at by some one in the yard near the corner opposite F. J. Tinsley's. At the time a party of young negroes were in the yard having a candy pulling. The rock struck the buggy with such force as to break a tap off the top and let it drop down. Lovell got out to see what the trouble was, and to discover who threw the stone. In doing so he used pretty emphatic language, which, though not addressed to him was resented by Ernest Elliott, one of the negroes, who advanced to the fence with a pistol, swearing and threatening to shoot Lovell, and ordering him to get in his buggy and drive on, with the gratuitous information that he "couldn't insult ladies about him." Lovell informed him that he was not in the lady-insulting business, and if he didn't throw the stone his remark did not apply to him. The presence of the "ladies" and the possession of a pistol had put the Elliott negro in a towering passion, but he desisted through the interposition of Parker Pritchett, and on Monday or Tuesday appeared before Judge Wickliffe on a warrant for breach of the peace, to which he confessed and was fined \$2.50, as previously noted. It appears not at all to the credit of young Elliott that he kept a pistol under the corner of his father's house in order, as he testified, to be able to get it when he should find he needed it down town at night and not disturb his father. If these young bucks who always manage to have an unconcealed pistol where they can get it when wanted, should have the law a little more vigorously applied it would prove better for their future welfare.

The jury very promptly returned a verdict of not guilty in the case against Mr. Lovell who is a very exemplary young man.

Outrageous Conduct.

Some disreputable parties went one night last week to the house of Mrs. Maranda Walker, who lives in the McKinney neighborhood out on Pond River and committed outrages that should if the parties are captured, meet with severe punishment. They robbed the bee stands, burnt the bees tore down the chimney of the kitchen, a considerable amount of fencing, and otherwise

damaged property. In addition to this a fine mare was found seriously sick the next morning and died that night from poisoning, it was supposed. There have been no arrest and no clue to the parties or any reasonable motive for the action. Mrs. Walker's husband was a pensioner and died some time ago. The officers should see to it that the parties committing the outrage are brought to justice.

Several young men are talking of buying bicycles in the spring. We should be glad to see many 'wheels' here, for 'cycling is one of the most pleasurable and health-giving of sports.

Mr. J. H. Farmer has purchased improved apparatus for taking pictures and fitted up a gallery in the Jenkins building. People wanting work in this line should call on Mr. Farmer.

The spring term of Greenville Male and Female College opened Monday with an increased enrollment. Several scholars who have been here before have entered again this term.

The Signal Service has fallen into an innocuous desuetude owing to the continued mild weather. It will take a regular blizzard to get the weather clerk prominently before the people again.

A pleasant social party was had at the residence of Mr. T. J. Tinsley Saturday evening. All the young people of the town were there, and an exceedingly pleasant time was enjoyed by all.

Persons wanting to handle a good book and make some money should write to Lyman W. Dickerson & Co. St. Louis, Mo., and secure the agency for "Social Mirror." The advertisement can be found elsewhere.

Mr. Benson while here expressed an opinion that this town for its size was a number one lecture town. Lecturers will we believe always find a reasonably fair house. Every lecture here within the last two seasons has met a crowded house.

At the last meeting of the Chattanooga Circle, a rendition of "My Sister and I" by Miss Pearl Rice has received much compliment.

70
She will give a second reading at the next meeting. Miss Rice possesses elocutionary ability of a high order and whatever she has attempted in this direction has shown great merit.

The Echo would like to see a number of business houses here using its columns a little more freely to advertise their business. We should like for people at a distance to know that they are here and to impress everyone with the fact that "there are no flies on them." That advertising pays has long been determined affirmatively and a failure to appreciate a so evident principle of business must prove ultimately disastrous.

We are glad to note that the new tailor is receiving much encouragement in the way of orders.

Greenville College.

The story circulated that Prof. E. W. Hall has sold or intends to sell and purposes leaving Greenville at the close of the spring session is without foundation. It originated in the fruitful brain of some one who deals more in gossip than in the truth. Prof. Hall asks that this story be contradicted in THE ECHO.

Luther Benson.

The people of Greenville were treated to two exceptionally excellent lectures, one on Sunday afternoon and the other on Monday evening, by the above named lecturer. The mention made of him by R. J. Burdett published in last week's Echo, was in no wise overdrawn. The audience at both lectures listened with intense interest for nearly two hours to a rushing, varying, flitting, flashing oratorical torrent of brilliant metaphor, pathetic incident and humorous anecdotes that it was never perhaps their fortune to hear surpassed. The character of lecture delivered by Mr. Benson is calculated to do much good not only as regards the intemperate use of liquor but also in regard to many other vicious and intemperate habits. Everybody was pleased.

We expect you to come to this office and pay your subscription when you are in town next Monday.

Whatever C. Mendel undertakes will be successfully carried out. In adding a tailoring department to his

establishment he is supplying a pressing want which is sure to be a success.

Next Monday is County Court day.

The spring clothing drummers are thick.

School Entertainment.

On Friday night the 11th. a concert and an enjoyable entertainment was given by Miss Sallie Barkley, an accomplished and intelligent young lady who has been teaching the five months school at Boggess Academy, the school closing that day. The closing exercises were pronounced very entertaining by the attentive audience of goodly number. The closing exercises did credit to both teacher and pupils. Miss Barkley has taught an excellent school, and has given perfect satisfaction to all. In conclusion we will say if the patrons of the school would do their duty by themselves and pupils, they would build a larger and better school house and furnish it more comfortably than the present one, then the teacher could entertain them in better style. We think they have already seen the need of a better one. Now why not put your heads together and go to work?

On the 2d day of February I will sell at my residence my lot of farming implements and produce, cattle, hogs, lard, bacon, household and kitchen furniture, etc. Terms—For all sums of \$5 and under, cash in hand; amounts over this on credit of nine months, note with good security. 2t T. J. EADES.

You need have no fears in ordering a suit at C. Mendel's. You will get a fit. Mr. Kellar does not work by guess.

The style of Ben Rice's upper lip is now liken unto the fashion of the top of his head.

Muhlenberg County Bonds.

Below we copy another article from the Russellville Herald about the 'Muhlenberg county debt'. As the courts of highest record have decided the debt to be valid and binding, it now becomes the duty of every good citizen of the county to unite at once in prompt and active efforts to make a fair and honorable compromise of the debt, as the debt is daily increasing in amount, and we can see nothing but ruin to the best interests of the county unless it is settled by a reasonable compromise, say 50 cents to the dollar for the principal and accrued interest of the 7 per cent. bonds. The officers of the county should at once proceed to the collection of the taxes already levied to satisfy the judgments already rendered by the United States Courts, and every law-abiding citizen should encourage them to do this by the payment of the taxes levied against them to pay these judgments:

"It is well that the intelligent portion of the citizens of Muhlenberg county are being aroused to the fact that The Supreme Court of the United States, and the Court of Appeals of the State of Kentucky, have decided that the bonds issued by the county to the Elizabethtown and Paducah Railroad Company, are a legal and binding obligation on the county, and are a lien or mortgage on all the real estate in the county, owned by the various persons taxed to pay the interest and principal of said bonds. Any further litigation, therefore, is madness and folly, and all good citizens should oppose any further resistance to the decisions of the highest courts of the land, and put forth their earnest and determined efforts to effect speedy compromise of the 7 per cent. bonds at 50 cents to the dollar for the principal, and accrued interest, payable in new 6 per cent. bonds, with such guarantes on the part of the citizens of the county as would make the creditors willing to take them. Any dodging of their sworn duties, by any of the county officials would only make matters worse.—
Republican Star.

The Allen County Railroad Debt.

We copy from the *Allen Sentinel* the following which illustrates that Muhlenberg is not alone in the matter of bonded indebtedness:

"The following information is furnished by Judge Calvert and is an approximate statement of the county's financial condition. On July 1, '86, the beginning of Judge Calvert's official career the county owed, interest and principal, \$343,464.25. Of this 104,000 had been funded at 50 cents. The amount was bearing interest at 6 per cent. and the original debt in 1873 was 251,800. Since July 1, '86 about \$172,000 of new bonds have been issued, representing of course double that amount of old bonds. About 35,000 of the original bonds have not been funded. In two years \$2,000 of the new bonds have been absolutely retired and \$6,195 has been paid for old bonds and in compromising judgments. There are now no judgments left to be compromised. Interest accrues on new bonds to the amount of about \$10,000 each year. The county levy amounts to \$15,000 each year, leaving a surplus each year of about 4,400 to apply on the principal. This Judge Calvert has done in retiring bonds and has expended about 400 more than the surplus of last year in that way as the record shows. The total indebtedness of the county may be nearly 205,000 in new and old bonds. At the present rate of decrease it will require between fifteen and twenty years to totally wipe out the debt. It would be to the interest of every man in the county to have a levy made to eradicate this debt once for all. Each tax-payer in the county could save half the amount he would have to pay in 15 years, if all would agree to pay the money now. As it is, our officers deserve great credit for the vast improvement they have made in the county's condition.

There has been a big lot of sneak thieving going on here lately, and quite a number of meat houses have been broken into and several hen roosts disturbed.

Plant a good advertisement in THE Echo if you wish your books to show you an increased balance on the resource side at the end of the year.

We sincerely hope that the building boom that Greenville has been experiencing for the last year may continue throughout this. There are many houses needed here yet.

Mr. Cecil Roark is now an attache of THE Echo office. Besides learning the business he will act as a reserve force when the editor is called on to answer "Who writ that article?"

Missis Sue and Lizzie Pauling have opened a private school at their home on Cherry street. They are both excellent ladies with splendid qualifications for the work of teaching.

We are prepared to promptly and neatly print bills for horses, jacks or bulls, and would impress upon owners the importance of getting their horses or cattle before the public early.

An advertisement appears in to days Echo of Jno. G. Barkley's famous Golddust horse. Stock men

should take notice. The Golddust horses have a record not excelled as trotters.

Mr. Hayden Murphy and Miss R. D. Whitehouse were married in the Clerks office last Saturday. Judge Coleman declared the twain to be a unit and they went on their way rejoicing.

There are no new developments in the bond cases this week other than the action of Sheriff Pannell. Mr. Jno. W. McElwain was appointed by Judge Coleman to collect the railroad tax.

Two or three parties are talking of purchasing typewriters: We should like to see them in use here, and we have an idea that a machine could be made to pay for itself on outside work in a short while.

Wm. Hightower, living in the Yost country, while engaged in sharpening a saw last Friday at Jenkins' mill, was fatally hurt by the wheel bursting and striking him. He lived until the next day.

If you know any item of news let THE Echo know about it. Take an interest in your county paper and aid it in gathering the news. THE Echo takes an interest in you but it does not want the interest to be all on one side.

Quarterly meeting services were held at Myers church last Sunday. This church is under the pastorate of Rev. Mr. Campbell who has made many friends in this place. We are glad to learn that his entire charge is prosperous.

One of the most pleasant social events for quite awhile was the party given the young folks by Dr. and Mrs. Slaton at their residence on Main street Saturday night. It was a rather disagreeable night, but a nice time was had by a goodly number of the young people.

Superintendent Wickliff, has appointed Miss Sallie Barkley, Miss Lillie D. Martin and Julien Allen to the State Normal College. Prof. Peterman has notified Judge Wickliff that he will accept as many as he may name who will receive the advantage of free tuition and very cheap boarding.

We have added in the last few days quite a number of new names to our subscription list. Let the good work go on. If you know of any one who would appreciate THE Echo send them a sample copy or give us the name and we will do so. The larger the list of subscribers the better paper will we be able to issue.

Mr. Dave Rhodes has purchased the Grundy Bros. livery stable on Main street. The Old Folks' Meeting.

The special service held at the Methodist church Sunday in honor of the old folks was a pleasing success. The weather was very disagreeable, and many of the old people, especially from the country, were prevented from engaging in the services. However, there were a good many old people among the large congregation, and several interesting and impressive short addresses were delivered by those rich in experience. The service was the first of the kind held here for a long while, and will no doubt be long remembered. At night the vocal solo by Miss Lucy Reno was superbly rendered and well received. Miss Reno has a superior, sympathetic voice, and one that shows cultivation.

So near and yet so far. The ice was hardly thick enough to sustain this spell, and dealers are hoping we will have a more protracted spell.

A number of articles have recently appeared in the papers from our exchanges in regard to Muhlberg's bonded indebtedness. Such articles have been sent to the papers from which they have been clipped and are the opinion of THE ECHO. Such opinions will go for what they are worth. All articles having a credit appearing in THE ECHO have such credit for the purpose of informing its readers that the responsibility for the utterances it contains rests not with THE ECHO. It does not take a vast deal of perspicuity to see this. These remarks apply also to the W. C. T. U. column which is a column given to the ladies in keeping with the usage of nearly all the Democratic papers in the State.

The following from the Owensboro Messenger is very suggestive to some counties of Kentucky: "Judge Wm. Lindsay, who is a candidate for State Senator from the district composed of Franklin and Anderson counties, will have no opposition. He will wield a powerful influence in the Senate. Suppose every county in the State should put up one of its very best men and elect him to the Legislature, what an improvement there would be in the Legislature! Suppose Daviess should send Judge G. W. Williams; Henderson, Malcolm Yeaman; Union, D. H. Hughes; McCracken, L. D. Husbands; Trigg, Fenton Sims; Caldwell, Wm. Marble; Christian, John Feland; Logan, W. F. Browder;

Warren, W. L. Dulaney; Muhlenberg, W. H. Yost; Simpson, David Walker; Ohio, H. D. McHenry; Webster, F. M. Baker; McLean, W. B. Noe; Hancock, W. S. Thomas; Hopkins, A. K. Bradley; Todd, Ben T. Perkins; Breckinridge, David Murray; and the remainder of the counties just such men. What a vast improvement there would be. And we dare say not one-fourth of those named would decline a unanimous election, though not one of them would engage in a scramble for the place. There is no probability, however, that any of them will be tendered a unanimous election. There are too many alleged Statesmen in all of these counties who imagine the people are demanding their services at Frankfort."

Ochsner Gold Dust,

The Trotting Stallion, will make the season of 1889 at my stables, on the Weir farm, 1 1/2 miles from Greenville, and will serve mares at \$20 to insure in foal. In introducing this horse to the public, I am confident that he will be appreciated, and will undoubtedly improve the character of our horses.

Ochsner is 5 years old, 15 1/2 hands high, of fine style, good bone, and with three weeks training made a trial in 2:11, and at Madisonville won second money in 2:17, and is besides a natural saddle horse; in color a dark bay, with fine mane and tail. Ochsner is by Zilecadi Gold Dust, the sire of Estelle, 4 year old record of 2:29; of Whirlwind, 2:21; of Fannie, pacer, 2:25 1/2; of Cigarette, the dam of Rosalind Wilkes, 2:18 1/2, and 36 others, with records of 2:40 or better. Ochsner has proven himself a sure foal getter. Mr. Dorsy says of him that he is as speedy as any colt he ever handled; that he is level headed and kindly disposed, and just the horse bred on to good mares to produce the best class of road or farm horses, if not trotters.

Some miscreants have defaced and destroyed signs put up by a business firm in this town at various points over the county. The signs were of great benefit to the public, and their destruction was an act of utter wantonness, and the parties committing the deed should be severely punished. The fact that the sign had the advertisement of the firm adds only to the disreputableness of the act, as it indicated not only a desire to damage the public but private property as well.

Plant a good advertisement in THE Echo if you wish your books to show you an increased balance on the resource side at the end of the year.

A Deadly Blind Tiger.

On last Saturday an old man got off the train at Beaver Dam carrying a jug, and went into the woods near the town. He was followed by five or six young men. After a time they returned to the town all of them terribly sick. One fell near the livery stable and died in a short time. Two of the others were only saved, if indeed they are saved as they are still very sick, by the exertion of two physicians who gave emetics and pumped the poison out of their stomachs. The doctors pronounced the concoction they had been drinking to have been a deadly poison. A posse was formed but the old man has not been found. It was thought here that it was probably York who was recently relieved from jail here. The deadly fluid was what is claimed to be manufactured whisky and is a dangerous poison.

Barlow—Jones.

One of the most interesting social events of Greenville happening for many a day was the marriage of Dr. J. W. Barlow to Miss Nina Jones, daughter of Mr. and Mrs. T. J. Jones, which happy event took place yesterday at one o'clock at the Baptist church. The banns were published on the Sunday previous and the church was crowded with the many friends of both parties. Dr. J. S. Coleman officiated and the marriage ceremony, always interesting as a part of that old story that is ever new, was made doubly so by his earnest and impressive manner. The couple were attended by Mr. and Mrs. Lewis Reag, Mr. and Mrs. I. J. Kahn, Mr. and Mrs. M. C. Hay, and Mr. and Mrs. H. C. Snoddy. Valenti's wedding march was rendered in an excellent manner by Miss Anne Hay as the party entered and left the church. Messrs. E. C. Rhodes, Geo. Dexter, W. H. Shaffer and C. W. Short, acted as general ushers and J. W. Barkley as special. After the ceremony the newly married pair left on the train for Nashville and other points in Tennessee and will then visit the home of the bridegroom at Scottsville, after which they will return to this place to make their future home.

Dr. Barlow stands high in his profession and in addition to that is a thorough gentleman and a host of friends will bid him and the most excellent lady he has won for a bride God speed. THE Echo tender congratulations and with Mr. Jim Barkley throws after them the proverbial shoe.

The following list of beautiful presents were received by the couple before they left:

Dr. J. W. Barlow,

DENTIST,

Office Over T. J. Jones' Store.

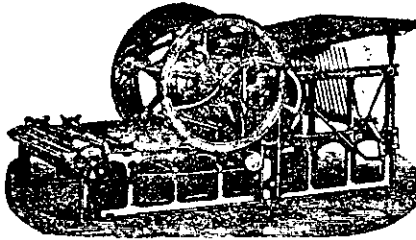

The trouble in Muhlenberg county about the county bonds, seems to thicken daily. The Sheriff has been thrown out of office, because of his refusal to collect the levy made to satisfy the judgments already rendered by the United States Court, and no one has yet been found to undertake the collection of this levy as required by law. This, however, can not help the property owners and tax payers of the county, as the law under which the bonds were issued expressly declares that "all taxes levied under this act shall be a lien on the real estate of the person taxed, which shall lie in the county in which such tax is levied." There is no way to get rid of this lien, and if the county authorities fail to have the levy promptly collected, it may be the duty of the creditors to ask the United States Court to foreclose this lien or mortgage on the real estate of the tax payers of the county. It is strange that the property owners should allow this state of things to continue, as the debt is growing every day. An effort to effect a fair and reasonable compromise ought to be made without any further delay. This matter has already been too long delayed, and prompt action is now important for the best interests of the county.—*Russellville Herald.*

A. Shaver and wife. The table was presided over by Mrs. J. B. Perryman, whose taste can not be excelled. The bride

and groom were neat and gentle and you could read on their faces joy and happiness. We wish them much joy.

I am inclined to thank God for the bicycle. It won't develop dudes. The dude is the creation of the unhealthy gases of the bewildering exercise of the ball room and the dissipation sure to accompany it. The ball room develops things, the bicycle properly used will develop men.—
Rev. A. C. Dixon, Baltimore.

Messrs. J. E. Reynolds and W. T. Morgan left yesterday for Terre Haute, Ind., to bring back the man who stole the crazy quilt and other property belonging to Willie Reynolds at the fair last fall. The man who stole the goods is supposed to be the fellow who was here with the 'mermaid' show at the fair. He will be brought here for trial.

We would like to see our people take a little more interest in our home industries, and give their support to our home merchants. There is too much of people sending away and going away to buy things in the city that could be bought as cheap here, and our merchants could make a legitimate profit, too. We are for home first, last and all the time, and intend to supply our wants here as far as possible.

Plant a good advertisement in THE ECHO if you wish your books to show you an increased balance on the resource side at the end of the year.

Notice of Withdrawal.

I am sorry indeed, but we are compelled to call in the appointment which we made in last week's Echo. I have worked faithfully for some time to have a Christian preacher come here and hold a meeting, and the Presbyterians kindly offered us their house, but we were a little late in writing to Bro. Carter and he could not come at the time we first wanted him, but said he would come Feb. 16th. Then the Presbyterians decided to begin a meeting on the 17th., and we asked the Methodist for their church. They said we were welcome to the church, and we fully appreciate their kindness. After we had made our arrangements and written to Bro. Carter and told him to come, Mr. P. L. Townes took it upon himself to write to Bro. Carter and tell him that he had talked with the members of the church, and they had decided it would be best to not have the meeting now, because it would conflict with the Presbyterians. Our appointment was made first, and we did not consider ourselves conducting with the Presbyterians. Mr. Townes did not talk with me and I was the one that had done the work to get Bro. Carter here. I felt that an explanation was due the public, and I hope the one given will prove satisfactory.

James Craig, Jno. Coombs, Jessie Pittman and the Marshall of Central City, formed a posse and succeeded in arresting Denzil Owen, Sam Puckett, Bill Hinneman and T. R. Clements. All of the above surrendered themselves to the officers in a gentlemanly manner except Denzil Owen who took refuge in a house and the officers were compelled to break the door open. They were brought to this place and lodged in jail on the charge of violating the prohibition law. Wm. Hinneman gave bail yesterday. The officers had a warrant of arrest for Joe Cline but did not find him. It is hoped that this vigorous action will be sufficient to break up the traffic in Central.

Mr. William Drake who was suffering with a wounded leg is well, recovering and hopes are entertained of saving the member which it was expected to have to amputate.

Farmers' Institute.

More light is needed among the farmers of our great Commonwealth in order to enable them to keep up with this age of progress in their calling. Hence, in order to teach the people what is being done at our Experimental Station, what advantage there is in educating farmers, what advantage there is in understanding the soils you cultivate, what advantage there is in co-operation and concert of action among farmers, we, the undersigned, have agreed to hold Farmers' Institutes at the following times and places free of charge. All we ask is for the farmers of each county to take such interest as will insure a large attendance of thinking, intelligent people. Let farmers come, bring their wives, sons and daughters. Let all attend who are directly or indirectly interested in the prosperity of our people.

We invite farmers to present their difficulties and such questions for discussion as will be of local and general interest and practical value. We invite the co operation of county or local Granges, Wheeler's Alliances—farmers' clubs of any kind; and where there are none to take the lead in making suitable arrangements for a comfortable hall in which to meet, we ask the citizens of the town to see to it, that our appointment is properly circulated and suitable arrangements made for place of meeting. Your local press, no doubt, will do all they can. But you must not rely on them alone. The notice is short, hence it will take active work to notify the people. Give us the people and we will entertain them profitably. Meetings to commence promptly at 10 o'clock for organization. Usually each of us will deliver short lectures in the forenoon—the afternoon will be mainly devoted to discussion of farm topics.

TIME AND PLACES OF MEETING—LIST OF APPOINTMENTS:

- Hopkinsville—Monday, March 4.
- Princeton—Tuesday, March 5.
- Mayfield—Wednesday, March 6.
- Fulton—Thursday, March 7.
- Greenville—Friday, March 8.
- Madisonville—Saturday, March 9.
- Elkton—Monday, March 11.
- Allensville—Tuesday, March 12.
- Auburn—Wednesday, March 13.

We request the local papers and all that circulate in the above sect-

ions to publish this notice, and keep the matter before the people until the time of meeting. We will try to do your country good; help us.

Sacramento.

It has been some time since I have noticed anything from this place in THE ECHO, notwithstanding a number of copies come to this office. Of all the towns in McLean county which have exhibited growth within the past five years, none have commanded so generous a share of admiration as the beautiful town of Sacramento, which is entering upon a new era of prosperity, induced by the proposed construction of the Bowling Green & Henderson railroad. Sacramento is the natural commercial center of a fine agricultural region reaching out in all directions for a distance of ten miles. Railroads are looking towards this part of McLean with an eye to business, and beyond doubt this inviting section will be considered in connection with the location of said road. This line can not be secured without county aid. The west end of the county too, are anxious for this road. Calhoun knows a snap and will take it when it comes so near, yet they do not possess half the natural advantages of this section. In order to secure this line there must be something done by the people of this section. There is a great wave of prosperity gathering to sweep Kentucky, and before we can be more prosperous we must have a railroad. We have the beauty of locality, fertility of soil and healthfulness of surroundings. We can not longer hope to have a line from Central City. In a few weeks the question will be submitted for the vote as to whether we will have a road or remain in our present condition for perhaps a half century. Remember if we do not get this road we are snowed under for an indefinite time.

Where Do They Live?

Page 1 - Col. 3

RUSSELLVILLE, Ky., Feb. 12 -- (Special) — Judge Thomas B. Harrison, County Judge of this county, has gone to Morgantown, Butler county, in compliance to a rule served on him by the Butler County Court to appear before it in answer to the expectations, filed by parties living in Butler county, to the report made by the Commissioners' appointed to determine the correct county line between Muhlenberg, Butler and Logan counties. This is the beginning of litigation between Butler and Logan counties that will extend through a number of years before it is finally decided, and there will be some complicated side issues growing out of the main point at issue. Success is of vital importance to each county. Prior to the meeting of the last Legislature, there was much dissatisfaction among the inhabitants living along the dividing lines of the counties, and there was much dispute over which county they lived in. Some living in Butler voted in Logan, and vice versa. This was particularly the case at Dunmor, on the O. and N. Railroad. No one seemed to know for certain which county it was in, although most of the inhabitants paid their taxes in Muhlenberg. It was situated on or near, as every one thought, the intersection of the county lines of Muhlenberg, Butler and Logan.

The last Legislature passed an act to provide for the appointment of Commissioners for the purpose of establishing the lines between the counties named. The Second Section stipulated that in running and locating said lines, the Commissioners should be governed strictly by the laws relating to and establishing said counties; and that they should make out a report of their work and file a copy of same with the Clerk of each county within fifteen days after the completion of said work. The Third Section stipulates that the report shall be placed on the docket of each of said County Courts and kept there for thirty days, during which time any person may file exceptions thereto after having given the County Judges of the other counties notice of the time that such exceptions would be filed.

The Commissioners complied

strictly with the law and filed a copy of their report in the Clerk's office of each county. The report was neither docketed nor confirmed in Muhlenberg. It was docketed in Butler and exceptions were made to it, but not in the time prescribed by law. In this county the report was docketed and confirmed, Logan being the only county that complied strictly with the law.

The exceptions to the report in Butler are caused by a loss of territory. Forty supposed voters of Butler were found to be in Logan, and a large area of country by the new survey was taken from Butler and added to Logan. Nearly all of the inhabitants added to Logan refused this fall to list their property in this county when the Assessor came around. Later on, when the Board of Commissioners met, it was forced to appear before the board under the penalty of law, and list the property. The question comes up as to which county they shall pay taxes to. Butler claims the old established line between the counties is the correct one, while Logan, of course, claims the new line is correct. The case was begun yesterday in the Butler County Court, and if decided against Logan, which is most likely, an appeal will be taken to the Circuit Court. Logan being a prohibition county and Butler licensing the sale of whisky, several parties living in the "cut off" were indicted by the last grand jury of this county for selling whisky. The question of the legality of the new line will have to be established before they can be punished. An early settlement of the difficulty is earnestly wished for by Logan county. It is rumored that, underlying Butler's exceptions to the report, there is a strong partisan political feeling existing.

THE JAMES CASE.

What the Terra Haute Paper Says About the Quit Thief.

(Terra Haute Gazette.)

Benjamin James was yesterday delivered into the custody of Morgan, the city marshal of Greenville, Ky., and Mr. Reynolds, from whom he is suspected of having stolen goods at the October fair at Greenville, and they left with him yesterday afternoon. Last fall Mr. and Mrs. Wm. Martin registered at the Farmers' hotel. Martin left in a few days and did not return, and a few days later Mrs. Martin departed. The attention of the police was called to the fact that the couple warranted suspicion by their actions. Officers Murphy and Dwyre found the supposed Mrs. Martin in the west part of the city, and she afterwards moved to Mrs. Ralston's who was married some time last fall to Benjamin James. In the meantime Martin and James had been employed at the Greenville fair. While they were there Mrs. Reynolds' goods were stolen. It seems that Martin and James had disagreed about this or some other part of the business. James wrote Martin a letter saying that he would ship certain goods to Mrs. Ralston's, in this city, for Martin. Martin, being in a bad humor, wrote to his wife instructing her to inform the officers and have them intercept the goods. While Mrs. Martin was reading the letter the goods came; she informed the police; Sergeant Voitsaw her and heard her story, a

letter was written to Greenville, asking whether such goods had been stolen; a telegram was received in the affirmative and ordering James' arrest. He was arrested by the police. He gave up the ghost and said: "I did steal the goods, and shipped them here but I'll not give any one away. Mrs. Ralston knew nothing of the nature of the goods, and I burned them. If court meets immediately I will go to Greenville and plead guilty, but if not I would prefer to remain here, because they a'nt got no use for me down there anyway." Mrs. Martin afterwards told the police that she had heard James and some one talking in Mrs. Ralston's house about the burning of Tompkinsville, Ky., and that she thought he was talking to a man. She said that they said something about the Reeves boys in connection with this burning. Shortly after the police heard of this James positively refused to go to Greenville and plead guilty, but said that he would plead guilty here. These facts led the police to believe that James was one of the gang who robbed Tompkinsville about two years ago and burned the town. Three of the Reeves boys have been convicted for the deed and sentenced to the penitentiary. It is thought that if James was one of them he feared that, once in Kentucky, he might be tried and convicted for the burning of Tompkinsville.

A sequel to the James affair was a fracas in the Circuit Court room yesterday morning. T. W. Harper was James' attorney. He and Deputy Prosecutor Huston became engaged in a dispute about the matter, when Harper struck Huston, bystanders separating them. Judge Davis imposed a fine of \$50 on Harper and \$25 on Huston for contempt of Court and caused Harper to give bond in the sum of \$1,000, to keep the peace for a year, Harper having threatened to kill Huston. When Judge Davis imposed the fine he was of the opinion that Harper had attempted to strike Huston with a knife but was informed differently, and reduced Harper's fine to \$25. The reports of the fight were varied. About five o'clock in the afternoon Harper was standing on Walnut street when Hutson passed along.

Bremen.

Brier creek church caught fire in the ceiling Sunday night in time of preaching but was soon put out by the brethren. It caught from a defective flue.

Mr. Millard and wife of Owensboro, are visiting Mrs. E. G. Devine near this place, this week.

E. A. Melling has accepted a position with Shaver & Humphrey as clerk. Mr. Melling is a clever gentleman and we wish him success.

Married on the 7th inst. E. R. Whitmer to Miss Nellie Wright. We wish you both a happy life.

Mr. J. A. Shaver has taken the contract to build the Perryman male and female academy at this place, for the sum of \$3,000. They will commence just as soon as the weather will admit.

Died on the 13th, infant daughter of J. J. Humphrey, with pneumonia. Another angel in heaven we know, for Christ said: "Come unto me for such is the kingdom of heaven."

James C. Woodburn, of this place, took a trip to Hopkinsville this week to sell his mules.

Mrs. J. A. Shaver is getting better and will soon be up again. She has been confined to her room for some time with pneumonia.

Mr. Samuel Welch, of Springfield, Ill., is visiting his brother, William Welch, near this place. Mr. Welch has not been here for thirty-six years, but his old friends say he has not changed much only a little grayer.

Prof. Black has opened up his spring school in this place with eighteen scholars. He is at home in the schoolroom and we think will give general satisfaction.

The Bremen Loader's Club had charges preferred against Arley Melling for carelessness in providing fresh water for his guests. The trial has not come off yet but is set for Monday.

J. P. Hendricks has been appointed Postmaster for Bremen. Some of the gents think it no go, but we hope better things. He is a man of sixty-one summers and not able to labor hard. We trust no one will try to take the office away from him for a while anyway. It seems to take well with the general mass of the people.

There has been drummers this week until the merchants could not rest.

Mr. William Rich of this place, lost old Betsy his mare to day. His son Henry went to drive the cows up and he was riding in a gallop and Betsy she falls down and injures her internal qualifications by turning a semersalt, and she died. We all sympathize with Mr. Rich. It was at least fifty dollars out of his pocket.

Henry Frost has taken an agency for selling tomb-stones for Jas. Brown, of South Carrollton. He says the people die slow.

Theo. Dossett was on Cypress creek Sunday a prospection for coal, that is what he said, the parties he went to see don't own any coal lands they say.

LONG TOM.

Bethel.

Such a large crop of tobacco as the present one, was never so nearly ready for market at this date, it will be full four weeks yet before the time at which it can be properly cased. And now is the time for the farmers in each community to hold a conference and decide what they are going to do with it. Remember that just now the warehouse men are quite buisy advising the dealer and we must think and act for ourselves until the 10th of April, when they will have leasure to look after us.

Mr. J. S. Edwards, who had a serious lung trouble last week, is improving.

Master Sammie Henry, who was quite sick last week, I am glad to learn, is convalescent.

Mr. Daniel Vincent sold his crop of burley tobacco last week to Mr. Rufus Martin for six cents around.

Mr. Charles Thompson has bought Mr. Edward's lot and incomplete building on the Rumsey road. Now Charley buy Uncle Jack Huddleston's new ground and be happy.

We were shown yesterday an engineers drawing of the Henderson bridge executed by the late Mr. J. W. Baker, which showed the superior skill with which he was endowed as a Civil Engineer. Had Mr. Baker been spared he would certainly have proven a great honor to his profession.

Three tramps appeared at the jail late Monday evening and applied to the jailer for shelter. It was a pretty raw night, but their request was refused. It was thought at the time that one of them was a brother of James, who was brought here from Terre Haute a few days ago, and that their object was his delivery.

Dr. Berry, of the Christian church of Elizabethtown, has been conducting a series of very interesting meetings at the Methodist church here since last Thursday. His sermon last Sunday was especially fine. He will continue each evening at 7 o'clock until Saturday. He is a fluent speaker and a fine reasoner, and his sermons are creating much interest.

The trial of Dentzill Owen, of Central City, for illicit whisky dealing, was attracting unusual interest at the Court room yesterday. Col. Hayercraft, of Owensboro, was assisting in the defense of Dentzill, and a large number of witnesses were in attendance.

Killed in the Mine.

Henry Reese, a miner in the Central Coal & Iron Co's. mine at Central City was killed last Saturday by the falling of the roof. A coal truck jumped the track and knocked out a prop causing about two or three tons of slate to fall, striking Reese who was on the truck. He died in about ten minutes after he was taken out. He leaves a wife, having only been married a short time.

Robertson—Townes.

Mr. Roger Robertson, of South Carrollton, was married last Tuesday morning at 10 o'clock to Miss Georgie W. Townes, daughter of Dr. Geo. W. Townes, at his residence on Cherry street. The marriage was a quiet one, only a few immediate friends of the family being present. Rev. M. B. Porter performed the ceremony after which a superb lunch was served, and the happy couple left for South Carrollton, their future home. We extend wishes for an unclouded future for the new couple.

Wingless Migratory Birds.

For some time Central City has been infested with tramps. They beat the town during the day for food and disappeared at night, only to repeat their tactics the next day until the citizens decided there was entirely too much method in their conduct, so a watch was set, and on Saturday morning Squire Heltsley and Marshal Roll went out to one of the Coal Company's houses that was unoccupied and arrested fourteen in one building. They were taken before the proper officer and were given one minute to get out of town. They got.

I trust that the farmers will turn out and hear what these gentlemen say, then it will be left to us to act upon the advice given.

A foot way is being placed across Main-cross street from Howard's to the court house yard. This will be a great convenience and improvement.

The temperature began going up Monday, after three days of pretty severe cold. At the same time the hopes of the ice men began to go down.

Greenville is coming up gradually. There are several changes for the better going on, and our people are waking up along many lines. Let the good work go on. There is room for improvement.

Dr. Berry lectured Monday evening at the Methodist church on "Love and Matrimony." The audience was a fair one, and the lecture proved highly interesting. He gave much excellent advice, interlarded with much genuine humor. The audience was well pleased.

Mr. P. L. Townes has ordered a typewriter. This time saver is entering business houses and offices of all kinds, and is being generally adopted where speed, accuracy and legibility are desired in correspondence. We expect to see several more in use in Greenville before long.

Dr. J. S. Coleman will begin a series of meetings at the Baptist church here on the 5th Sunday in March, assisted by Rev. J. T. Barrow, of Hopkinsville. In the selection of Dr. Barrow Dr. Coleman has secured a minister of much ability

A Mysterious Fire.

A somewhat mysterious fire occurred at the house of Mrs. Mahala Gray some miles in the country last week. The fire when discovered was making considerable headway in the second story in a room in which there had been no fire previously, and about three or four feet from the chimney. It was put out without great damage, destroying a few clothing. The next day fire again broke out in the same locality, but was again extinguished before it gained much headway. This time Mr. Ames Jenkins made a careful examination to discover the possible origin of the fire, but could discover no connection with the chimney nor any possible manner for it to have caught from that quarter, and as there was no fire in the room there seems to be considerable mystery about it.

PROF. HALL DEAD.

A Man Gone Whose Virtues Words Cannot Express, but who has His Reward.

The Loss to Our Town Is Felt by an All-sorrowing People.

A NOBLE LIFE SUDDENLY ENDED.

Prof. E. W. Hall died at his home at 10 o'clock yesterday morning, after a brief illness of pneumonia, and an all-sorrowing community joins the family in a sincere lament over his death. Through his connection with Greenville College as President and with every movement for the elevation of our people, he was universally known, and he has probably done more for the promotion of morality and intelligence than any man who has ever lived in the county. A true Christian man, he had too pure and too brave a heart to compromise with evil. In the school room, by his example, he was a silent character builder for the scholars by whom he was surrounded. He was a minister in the Methodist church, at which edifice the rites will be conducted to-morrow afternoon, and the body will be interred in the cemetery here.

Edwin Walter Hall was born in Jefferson county, N. Y., March 4, 1838, and was therefore 51 years old at his death. Was engaged in the ministry of the gospel and in teaching school, and although taken in the prime of life his time was so well spent that his work will honor God and benefit humanity beyond our conception.

County Court.

County Court was occupied chiefly Monday in the consideration of road cases. Reports from three roads were received, and cases continued. In the bastardy case of the Commonwealth vs. Jackson Seres, the case was dismissed on motion of the County Attorney. On motion of several citizens an order was made to review a route from Central City to Ricedale for a public road. The will of Ruth Dennis, deceased, was probated, as also of Dan Overhults. John McElwain having failed to give bond as collector of the railroad tax, another collector will be appointed in a day or two.

A Golden Wedding.

On the 21st. inst. at the residence of their son, C. Y. Martin, Mr. C. C. Martin and wife, N. Y. Martin, celebrated the fiftieth anniversary of their wedding day. The affair was made

quite impressive and enjoyable indeed. The children, grand-children and great-grand-children to the number of nearly two score were assembled to assist in the celebration of the "golden wedding" of their aged and much-loved ancestors. It is remarkable that there has been but one death in the immediate family of Mr. and Mrs. Martin. At the appointed hour the children filed into the parlor, forming a semi-circle on one side and then the grand-children and great-grand-children filed in and completed the circle. Into this circle came and stood the honored couple, who have so long been a help-met each to the other in the battle of life, justly proud and happy in the consciousness of a well-spent life, and the wealth of heaven loaned jewels that encircled them on the evening of this, their earthly life. At this time Rev. G. B. McDonald addressed the aged pair in substance as follows: Brother Martin and Sister Martin, you come surrounded by your family to the third generation, to celebrate the fiftieth anniversary of your wedding day—your golden wedding. Standing now as then, in the sacred precinct of the holy marriage altar; then in the morning of life, in the strength, vigor and buoyant hope of young manhood, the sun of life's bright morning gently kissing the rosy bloom of youth and health upon your cheek; with hands clasped, you then took upon yourselves mutual obligations most sacred, vows most holy; plight of truth and faith, to battle in union with the realities of this life and its stern requirements. Now, having so faithfully kept your plighted faith, and so conscientiously discharged all the duties of your peculiar and holy relations, you stand here, in this presence, in the evening of life, the roses faded, your forms bending under the weight of years and cares of being; locks silvered with hoary age, patiently waiting in the twilight of earth's closing day, for the glorious dawn of that better day where, together you shall be united in marriage to the Lamb, and sit together at His feast. Then surrounded not only by your children, but also the entire church of God you will spend an eternity with the arms of Jesus around you and about you, and his bosom a place of sweet

and holy rest. To your children and their children I will say it is meet that you thus cast upon this altar the myrrh and frankincense of filial love, honor, reverence and respect. May I hope that each of you will model his or her life after that of your ancestors. Closing with a short and appropriate prayer, he dismissed the aged couple committing them for the remainder of their life into the care of their children and friends amid the hearty congratulations of the assembly. At this point a five-year-old grand son perched upon a table, sang the good old song—"O'-d-time Religion is good enough for me."

After the distribution of the presents as appears below, all were invited to the dining room and did full justice to the rich repast under weight of which the table with brilliant weight of service fairly groaned. J. R. Martin, gold watch; Mrs. J. R. Martin, gold thimble; Clarence Martin, gold coin; Mary Martin, watch-guard; Mr. and Mrs. J. Anthony, gold cuff buttons; Mr. and Mrs. Pat. O'Brien, gold-headed umbrella; little Mamie O'Brien, gold coin; Mrs. Dr. R. Y. Moorehead, gold scarf pin; W. A. Martin, gold-headed walking cane; Mrs. W. A. Martin, gold ring; Lizzie Martin, gold glove buttoner; Beverly Martin, gold watch-charm; Herbert Martin, lady's gold cuff-buttons; Mr. and Mrs. C. Y. Martin, gold coins; Arthur Martin, gold scarf-pin; Selma Martin, gold collar-button; Willie Martin, gold cuff-buttons; Mr. and Mrs. G. W. Dennis, gold-headed umbrella; Mrs. Ollie Eaves, gold collar-button; Mr. D. T. Martin, gold watch; Mrs. Bettie Eaves, gold breast pin; Miss Ellie Eaves, gold collar button; Harry Eaves, gold collar button; Miss Pearl Rice, two pairs gold framed spectacles; Miss Ruth and Bettie Rice, gold cuff buttons; Mr. and Mrs. John T. Stokes, gold cuff-buttons; Miss Annie Bell, three fine linen handkerchiefs and one white silk muffler; Mrs. Ethel B. Meyers, three fine linen handkerchiefs; Mahala Eaves, white silk muffler; Dr. R. Y. Moorehead, one bottle wine, "for good luck." C. C. Martin was born July 4,

The Blind Tiger Cases.

The case of Dentzill Owen, which was being tried as we went to press with our last issue resulted in his dismissal on a number of the charges and a hung jury on one. This case with a number of others were continued over until Saturday. When court opened on Saturday a large number of witnesses and spectators were present. The cases having excited a great deal of inter-

est both here and at Central City. Prosecuting Attorney Allison, was assisted by W. H. Yost and the defense was represented by Col. Haycraft, of Owensboro, and Col. Love, of this place. A stubborn fight was at once begun by the lawyers which occupied the time of the court until noon, when after a lengthy wrangle as to the release of Owen on his own recognizance was remanded to jail to await a trial set for next Thursday. The vigorous action of the officers is resulting in a considerable check in the illegal traffic at Central City. The determined attitude taken in the matter by the law abiding citizens of that place together with the officials here, will ultimately if persisted in result in a suppression of the traffic. Whatever may be the opinion of the people of Central City in regard to the prohibition law, it is to their credit that they desire to see it properly executed for a failure to execute the law however good or bad it may be, will ultimately prove a greater evil than any that might result from the law itself.

Auditor Hewitt has turned into the State Treasury nearly \$30,000 realized from the sale of Tate's property. This makes \$60,000 recovered so far, and enough more will be secured to reduce the amount of his defalcation to about \$150,000.

On last Friday, it being the 1st day of March, the entire remaining indebtedness of Muhlenberg county amounting to \$650,000 fell due. \$100,000 will be due in 1897 with interest thereon. The total amount of debt that would be now due by discarding the bond settlement of 1888, would be over \$1,000,000. If the

Page 2 - Col. 2.

work of compromise had been continued in 1885, the debt would have been reduced to \$250,000. These debt figures are large and healthy, and as the years go by they continue to grow. One of these days the last recourse at law will have been taken, and then we will only have the debt to amuse ourselves with, and the bondholders great grand-children to contend with. It remains to the future to show which will be the biggest in that day, the grand-children or ourselves.

The State College.

It is gratifying to learn that the Agricultural and Mechanical College begins the second session of the current scholastic year with a larger attendance than it has ever had before. It now has 352 students which is a greater number than has hitherto attended any institution of learning in Kentucky. Every true lover of the Commonwealth ought to take an interest in the State College. It is the crown of our public school system and has already accomplished great good in sowing seed that will bring forth fruit—"some thirty fold, some sixty and some an hundred." The State has dealt with it in a niggardly and vacillating spirit, but it has all the time grown and is rapidly reaching the proportions of a great university to which our people will look with pride. The University of Virginia and the University of Michigan are nothing more than State Colleges. The poor old bankrupt State of Virginia gives to the former annually \$40,000, and also helps the Virginia Military Institute to the extent of \$30,000 each year besides her contribution of \$10,000 to Hampton.

Michigan fosters Ann Arbor to the tune of \$160,000 per annum and has reaped a rich reward for her liberality. Missouri gives \$60,000 an-

ually to her State College, and there is hardly a small State in the union that does not do better in this respect than Kentucky.

The A. and M. at Lexington has had to contend with two difficulties that would long since have ruined an institution with less vitality. It has been compelled all the time to fight for its existence and has been forced by the law to accept students of all grades of preparation. Other colleges can fix standards of admission and adhere to them, but whoever gets a county appointment has a right to demand admission at Lexington. The results achieved have been marvelous. We could name a number of boys from this county educated at the State College who would be an honor to any institution in the land. They could not have gone elsewhere because the expense would have been beyond their reach. President Patterson is the soul of the State College, and we do not believe that he has a superior in the West in his field of work. We are heartily glad to see that the institution is so prosperous and have faith that it will yet achieve even greater results than these that have made its past so glorious—*Ex.*

Funeral of Prof. Hall.

The remains of Prof. Hall were interred in the cemetery here Friday afternoon. Services were held at the College, in which impressive talks, comforting prayers and consoling music were mingled with thoughts of sad hearts of the grief-stricken family and a large concourse of sorrowing friends. After the service, the remains were borne to the cemetery by pall bearers who were students in past years, followed by the family, teachers, officers of the church, scholars and friends in the order named. The scholars give two beautiful floral tokens—the design of the boys' being a harp, that of the girls an anchor, while the Sunday-school had an emblem of gates ajar.

A little child aged fifteen months of C. W. Short died last Monday morning at half past four o'clock from catarrh. Shelley conducted the religious services at the funeral. Many friends will sympathize with the family in their bereavement.

Another Boom for Muhlenberg.

A Noyel and Interesting Ceremony--- A Great Speech---The Way Out of the Wilderness, &c.

MR. EDITOR:—The other day—February 21—while wending my way along the Greenville and Rochester road to meet a business appointment, I descried quite a concourse of people, assembled in a bottom field of what is better known as the Jacob Rhoads place, but now belonging to the brothers, Harry and William H. Morton. Curious to know the object of such a meeting, at such a time and such a place, I dismounted, hitched my horse and 'bied me' to the scene of action, and was not long in ascertaining that the meeting was for the purpose of ceremonially breaking dirt for a new coal mine, christening and dedicating the same, in imitation of a time honored custom that has immemorially prevailed in the old country, commemorative of like events. A gentleman, addressed as Prof. Williams, acting as Master of Ceremonies, or Usher to the Occasion, introduced Elder Joseph Haden, of the Christian church, as grand chaplain, to perform the baptismal rites and repeat the "*Nisi Dominus frustra.*" The reverend gentleman, with bible and spade in hand, repaired to a point in the field designated by a stake, and after an appropriate invocation, proceeded to lift a shovel full of dirt from thence, an example followed by every one present irrespective of sex, who felt an interest in the enterprise. He then with great solemnity proceeded to christen the "Kidd" by the name

"Cambria," in honor of the province of Wales, the native country of two of the interested parties, the ancient and latter name of which was "Cambria," and dedicated it to the cause of "honest thrift and the public weal." He concluded the services by reading the bible such valuable precepts as are indispensable to the guidance of man in his search after actual happiness or respectable competence in this life and with earnestness and fervor enjoining on the prospectors of the scheme "That if they would have God for their friend and helper and the patron of their enterprise," they must adopt his word as the man of their council and in all their undertakings, be controlled by its precepts. Professor Williams, a gentleman who has acquired a considerable reputation as a geologist and mineralogist, then addressed the audience at considerable length, upon the great and valuable advantages that must accrue to the county from the success of this and similar enterprises. He reminded them that what they were called there to witness was strictly a domestic undertaking, originated and planned, and to be operated and developed by the energy, skill and judgment of citizens of their own country; therefore, essentially different in the details of its operations, and their consequent effect upon the prosperity of the country from other organizations in the county operating in the same business. That the proceeds of coal sold from these mines would be returned to the county to be reinvested in the same or other enterprises that would further develop her resources and contribute to her general prosperity, and not as in the other instances alluded to, be hoarded away in foreign coffers or expended upon alien communities. He adjured his hearers not to view the undertaking with the eye of distrust. That however huge and impracticable it might appear to them, he could assure them from a ripe experience, that to skilled and familiar hands it was perfectly easy of accomplishment. That as a movement in the right direction it merited and should receive their fostering care and encouragement. He touched with a master's hand our county embarrassments, and ingeniously sug-

gested that the county by encouraging her own citizens to attempt enterprises for the development of her hidden resources would open a highway for her escape from the wilderness. The Professor said much more that it would be profitable for the citizens of Muhlenberg to know and act upon, which space will not allow me to repeat. The ceremonies concluded with considerable eclat, and to the entire satisfaction of all present. The whole thing was novel and interesting to me, and impressed me as being truly commendable in practice. After the benediction the crowd dispersed for their respective homes. Drifting along with those who reside at Ricedale, upon inquiry I elicited the following particulars in regard to the movement: That Harry and William H. Morton, R. T. Davis and Rice Owens, had signed articles of agreement, preliminary to the formation of a Joint Stock Company for Mining Stone Coal in Muhlenberg County, under the business style of "The Morton Coal Mining Company" uniting that rare of pluck, energy and skill seldom to be met with in any body of men associated for the accomplishment of a given enterprise. It will be remembered by those familiar with the facts, that the Morton Bros. came to this county several years ago, almost penniless strangers, with a widowed mother and her orphaned family dependent upon them for support. Their up-

Page 2 - Col. 3.

right and gentlemanly deportment ingratiated them with their neighbors and secured them a host of friends, and their diligent application to business, unflinching industry, prudent economy and judicious management have been rewarded not only by a comfortable competence, but by placing them in the leadership of several of the most lucrative enterprises in the county where they have proven themselves prudent and skillful financiers. Daviss and Owens are Welchmen of superior intelligence and information affable and gentlemanly in their demeanor and enlightened views upon all business subjects. Daviss is an accomplished civil engineer and a practical mineralogist and geologist. Owens is

the most expert and successful shaft-sinker and entry driver belonging to the profession. They have been associated in business for a number of years and are in the happiest accord with each other. They were born and educated to their profession and are thoroughly familiar with every minutia of its detail, and never attempt anything at hap hazard. But with the most patient and painstaking inquiry and investigation deduce their facts and draw their conclusions. They know as well to-day the amount of labor and capital that will be required to sink a shaft to No. 9, the character and quality of the coal that there awaits the end of their labors, as a carefully treasured experience and thoroughly tested rules of science can demonstrate.

The Company have purchased and now hold in a compact body, the coal and other mineral underlying about four hundred acres of land, constituting the finest coal field in the county. They have the services of an excellent saw-mill conveniently at their command, and an abundance of building and bracing timber. I have been informed by a gentleman who seemed to speak advisedly, that means would be furnished in needed quantities to place the scheme in successful operation. Such are the men, means and circumstances that herald this new bantling of thrift. The scheme of this Company as I understand it, though not ostensibly corporative in its arrangement, is expected to prove sufficiently so, for all the purposes of an equable and equitable commerce with the people and the blending and reciprocal interchange of benefits between the Company and the people as will conduce to their mutual understanding and advantage.

That this enterprise should be watched with anxious and hopeful solicitude by the citizens of the county and others owning large mineral interests in the county be stimulated by its success to engage with some one of the many clever and skillful miners in the county who, like Daviss and Owen, are willing to balance their skill and labor against the mineral etc., of the proprietor, for equal chances in the venture for operating their own mineral, instead of fooling it away upon cheeky ad-

venturers and tricky option-mongers thus dooming it to remain in its native ledge, in a state of profitless idleness or spent in wasteful litigation. Then in the language of Professor Williams, "Will a highway be opened up, over which, our county may escape from her wilderness of woes."

Prof. Fred L. Pochin, of DePauw University, Greencastle, Ind., arrived Saturday, and Monday took control of the classes instructed by the late Prof. Hall. Prof. Pochin comes highly recommended from one of the foremost institutions of learning in the nation, and he has very favorably impressed our people.

T. T. Sumner was brought in by Constable Hughes Saturday from Penrod. He was lodged in care of Jailer Coombs under a warrant for malicious shooting and five warrants for illicit whiskey traffic. Hughes also started with Shelby Mathews but the latter gave him the slip when near town and made good his escape.

The illegal sale of whisky at Central City has been effectually checked by the vigorous prosecution of the violators brought to this place. The

prosecutions in Central City did not seem to amount to much in the suppression of the traffic. Whatever the municipality may have lost in fines she certainly has gained in good order which is the end sought to be gained by all law.

T. B. Pannell bought for Pannell Bros, of D. J. Phillips, of Bowling Green, last week a splendid Lexington Denmark colt. He is a mahogany bay 15½ hands high and a beauty. He won many prizes both in this State and Tennessee last year. He was sired by Lexington Denmark, he by Cabells Lexington; Dam, the great premium mare of W. W. Merritt. This colt has a great future before him.

James Liberated on Bond

The man James in jail here on a charge of stealing a quilt at the fair ground here last fall, was brought out before Judge Coleman last Tuesday and his bond was reduced to \$250, which he gave by depositing the same with the Sheriff and was liberated. He was represented by T. W. Harper, of the Terre Haute bar. James left at once and he probably will not redeem the bond if indicted by the grand jury.

Money Saved.

Don't set aside your old sewing machine just because it is not working well and buy a new one, but go to Greenville and get Frank Harris to make it as good as new. He is now prepared to repair, rebuild and readjust all kinds of sewing machines. Worn out and broken parts replaced with new ones. All work guaranteed. Charges reasonable.

Court Notes.

The time of the court was taken up Monday on references and a few minor trials. On Tuesday four judgments were given against the railroad for killing stock.

On Saturday the case of the county vs Isaac Groves for destroying timber, came up on an examining trial and was dismissed.

On Friday A. S. Hall plead guilty to a breach of the peace, and was fined \$2.50 and trimmings.

Hiram Lee was tried on Saturday for a breach of the peace and fined one cent and cost.

R. P. Farnsworth has sold his residence on corner of Cherry and Main Cross streets to Fielden Rice for \$1,375.

The Henderson State Line.

The failure of Butler county to vote the tax to the State Line road makes it possible for that road to be added to the list of Muhlenbergs roads. Central City has we understand, made a move in the direction of securing this line. As yet the business men of this place have taken no steps in the matter although the expression is general that if there is a possibility of its coming into the county active steps should be taken towards securing its location by Greenville.

Fire at Princeton.

SPECIAL to the ECHO.
PRINCETON, KY, March 12—At 8 o'clock Saturday evening a fire broke out in a disused hearth under a stove in Noel & Strong's furniture store east of the court house. It was extinguished, but broke out again about 3 o'clock in the morning, destroying that building and two others with a loss of about \$15,000. Insurance \$3,300. The parties burned out were Noel & Slaton, Joe Bowles, Miller & Rice and R. M. Wilson. The loss of the latter was total, amounting to \$2,000, being the outfit of the new Courier office. Mr. Wilso will refit the office at once. The fire was the work of an incendiary.

In the case of the Commonwealth vs. Urey Perkins, charged with the murder of Dempsey Scott, Judge Allen held that Perkins was guilty

of manslaughter, and fixed his bail at \$500, which was given.

The 'blind tigers' have all been closed, thanks to the Law and Order Club.

MEMORIAL SERVICES.

There was a special memorial service held at the Methodist church last Sunday morning to commemorate the memory of Prof. E. W. Hall. The services were largely attended, and were of an impressive nature. Speeches eulogistic of the many virtues and good works of Prof. Hall were made by Judge Thompson, Judge Eaves, Mr. Edmund Reno, Revs. Watson and Shelley. A series of resolutions which were read by Prof. T. E. Peters were adopted.

A number of young ladies have signified their willingness to play tennis, and of course a club will be organized. Our people may prepare themselves to see regulation tennis costumes on several of our boys and girls this summer.

A communication which should have appeared in last issue appears to day under the head-lines of a "New Boom for old Muhlenberg." It is well written and a description of a ceremony more common in the old country than this.

Bremen.

Miss Ella Ambrose, of Central City, is visiting her brother, J. H. Ambrose, this week.

Messrs. J. A. Shaver, Rev. J. B. Perryman and R. L. Hendricks attended the quarterly meeting at Pleasant Hill Tuesday. The people were very sociable and we all had a nice time.

W. A. Wickliffe, our County Superintendent, was in this end of the county Tuesday.

Since the government has changed hands I see quite a move on the part of some of the boys in our midst in

search of a place in the department. Mr. Ben Plaine, a well to do farmer, just across the line of McLean, happened to a serious accident Wednesday. While chopping in his new ground a limb fell and hit him on the side of the head and shoulder, he was unconscious for some time. He is slowly improving.

Mr. J. F. Vickers returned from Hawesville, Tuesday.

Mr. Jos. Martin, of Greenville, was down in this part of the county this week and bought a considerable amount of tobacco for which he paid as high as \$5.50 so we understand. Come again gentlemen we will welcome you any time. The farmers have not all sold their tobacco yet but will sell, they raise it for that purpose.

Married on the 7th inst. Robert France to Miss Mollie Davis. The ceremony was performed by Rev. R. Guinn, at the brides father Capt. M. H. Davis. We wish them both a long and happy life.

UREY Woodson has proclaimed a truce for the next three months with Kentucky editors. It is fitting that the white flag should wave over the "Dark and Bloody Ground" for the next three months and there is no more appropriate mast head for it to fly from than the great Owensboro daisy. Let her wave!

We are in receipt of a copy of the Adairville *Times* a new paper just

started at the terminus of the O. & N. Altho only five weeks old it was boasting of a new head. Its editorial get up indicates that the head was being drawn on extensively but we would have supposed an average head would have stood the racket longer.

EDITOR SNODDY and several other Greenville capitalists have formed a corporation for the purpose of manufacturing and selling a type-setting machine—an invention, presumably, of the Echo editor. May they find millions in it.—*Messenger*.

You bet, she is a daisy, and there is billions in it. We are at work on a pneumatic attachment now that will do the editing as well as the setting, and all we have to do in the future will be to come down to the office in the morning and give the crank a few yanks, and saunter out to the court house and talk politics and whittle soft pine until evening. The pneumatic attachment is a success, and is warranted to boom a town having a thousand inhabitants into a city of ten thousand in less than six months. Want one?

T. T. Sumner, who was brought to this place last week under a charge of illicit whisky traffic, was tried Friday and found guilty in five cases and fined one hundred dollars in each case.

C. C. McDonald & Co., determined to please at any cost, have secur-

ed Mr. C. Macktolf to take charge of their bakery. We have seen some of his work, and pronounce it superior to Mr. Kinney's. 2

Greenville is enjoying a building boom. Mr. I. J. Kahn has let a contract for an elegant brick dwelling, to be erected on his lot above the Presbyterian church. Mr. R. P. Farnsworth is the contractor.

"How to Build Houses," published by National Architect's Union, Philadelphia, at \$1, is a book containing all information needed in the construction of any house. See the advertisement elsewhere, and send for the book.

The street corner may do for the week days but by all means let it be deserted on Sunday. You will not have to work if you stay at home Sunday after-noon and we can't see why the loafers corner shouldn't have a rest on Sunday at any rate.

R. P. Farnsworth purchased of I. J. Kahn his residence on Main-Cross Street Monday. We learn he is to begin the construction of a brick dwelling house for Mr. Kahn immediately on the lot above and adjoining the Presbyterian church. Mr. Farnsworth immediately sold the Kahn property to Judge Coleman, who will soon occupy it.

We intended to get off the annual spring paragraph this week on jowl and greens, but meeting last week one of Greenville's most prominent society ladies who professed utter ignorance in regard to this favorite Kentucky dish, we feel so discouraged that we will leave it to our contemporaries to do justice to the essential of the early spring menu.

Robert Drake Captured.

T. B. Pannell left Thursday for Rockport, Indiana, with a requisition for Robert Drake who it will be remembered shot John Wiggins at South Carrollton about two years ago. He has since been a fugitive.

The officers here got on his track, and bagged him. He was brought here and lodged in jail. On Monday his brothers from McLean county came in and made a bail bond which was accepted and Drake was released.

Attempted Escape.

Denzill Owens and Sam Puckett made an effort to escape from jail here Thursday night last. They have been confined in the lower part of the building. They burned around the nails in a plank in the floor with the intention of scratching out during the night under the walls. Their little scheme was caught on to by Jailer Coombs however and that night he watched them with the result that the two gentlemen now occupy cages on the floor above.

The foul stench that is emitted from several back yards, stables, pig pens and cow stalls right in the center of the town are almost unbearable. The mild winter has left many

Miss Ella Eades I am sorry to say, is quite sick of malarial fever.

Elder R. D. Tuder has leased the J. M. Williams farm and will remove to it this week.

By appointment the Superintendent met the trustees of the school district of this section at Bethel church Tuesday to discuss the propriety of changing some of the boundary lines. Misses Florence and Pearl Fortney, two of Mercer Station's clever little Misses, are attending Miss Ella Eaton's school.

The wants of the middle aged are few in this vicinity. We don't want a reading or literary society, singing class or Sunday school and we don't want our young people to spend their leisure time in frivolous amusements or the boys to spend their summer Sabbaths on creeks. We do want the very highest moral standing for our people provided it costs not the least effort on our part to obtain it, in short, we are moving smoothly but the Lord only knows in what direction we are tending.

N. B. RILEY has been nominated by the Democracy of Todd to succeed himself in the Legislature.

News of improvement and unsurpassed commercial activity comes up from all sections of the State. Nearly every county in the State is booming. What is Muhlenberg doing?

THE State Senatorial race is not creating any interest as yet in this county. We have heard the name of R. P. HACKER, of Ohio county, suggested. We will have better opportunity this time than last and an interesting race may be expected.

GOVERNOR BUCKNER has appointed COL. W. H. YOST, JR., of Greenville, one of the thirteen commissioners to represent Kentucky at the centennial celebration of Washington's first inaugural to be held in New York City on the 30th of April. Physically and mentally Col. Yost represents a type of manhood of which any State might boast, and will do credit to his State in the proposed assemblage of our nation's representative men.—*Banner*.

On the 1st day of March, says the Muhlenberg Echo, the railroad bonded debt of Muhlenberg, amounting to \$650,000, was due. Some day when the citizens of that county effect the settlement, that sooner or later must inevitably be made, there will not be a county in the State that can offer better inducements to the capitalists. It is rich in natural resources, the proper development of which, for years, has been prevented only by the unsettled financial condition of the county.—*Princeton Banner*.

It would be well for citizens of this county in a public discussion of its present and future polity to make, at all times, and under all circumstances, and as emphatic as possible, the supremacy of law and their love for an obedience to the same. The financial trouble the county is now experiencing is calculated without the greatest care on the part of people living here to give ground elsewhere to reputation for a disregard for law and the dignity of its mandates. No such condition exists. The people of Muhlenberg are and will be found as patriotic and law abiding citizens as are to be found in the Union. Let this be borne in mind continuously for the good of the county and the fair reputation of its citizens. The general sentiment rules in this matter. Every community has in it characters, in numbers proportioned to the countenance they receive from the better element, who through ignorance seek to disparage the supremacy of law and the general respect for order. Public speakers should ever bear this in mind. They should not allow themselves to forget in their zeal for the

cause they have espoused or through the excitement of debate the dignity of law, the mandates of the courts and the supremacy of constituted authority. When a question of property is involved it should be distinctly remembered that our ownership and right in and to the same is determined by the law of the land and not by any individual title set up within ourselves. Let these things be held in mind for our reputation abroad and likewise for the education of the younger generation to whom the future well being and order of society must be entrusted.

THE following we take from Monday's *Courier-Journal*, that issue of each week having devoted a large space to a report of improvements throughout the State:

Information from Bevier, Muhlenberg county, is to the effect that John Oman, of Nashville, who recently opened a building-stone quarry at that point, has enlarged it so considerably that he is about to open another at the same point, in order to get further varieties of stone. The stone from that country has been largely used in the erection of costly buildings in Nashville and other cities, and it is said to be obtaining the preference at many points where Lake Superior and other stone has been formerly used. Several new coal mines are being opened along the line of the Owensboro and Nashville railroad, in that country, and a number of new saw mills have been erected.

A New Postmaster.

Mr. E. R. Weir, Sr. has been appointed to succeed Mrs. Hay at this office. While this is not precisely in keeping with the Republican platform it is with the party and Mr. Wanamaker and that combination beats a platform all hollow. Mr. Weir was postmaster here in 1884 and was succeeded by Mrs. Hay. We believe that Republicans should

hold the federal offices during a Republican administration and as long as a postoffice is an appointive office the smaller as well as the large ones should be in the hands of the Republicans. They are now responsible for the conduct of affairs and we will call them to account in '92. In this the postoffice at Greenville does not cut much figure but it is a part of the system and "everything goes." Mrs. Hay has made an excellent postmistress and deserves many encomiums for the manner in which she has served the public. We doubt not that Mr. Weir will make an efficient official and we hope to be able to dispossess him in 1892.

AN UNMITTIGATED SCOUNDREL

Is What Mr. Frank Harris Says of the Rascal who Wrote Him the Letters.

The letters below were received by F. G. Harris Tuesday at the post office here. They were drop letters and evidently written in a disguised hand. The offense is a felony and should the party be discovered he would be made to suffer a sentence in the penitentiary. Mr. Harris on receiving the letters showed them to the officials and efforts will be made to discover the party.

Some of our citizens looked upon the matter as possibly more serious than it appeared on the face and that it was the work of a man who had laid a plan to implicate Mr. Harris by means of the letters while applying the torch of the incendiary themselves.

But the general belief that it was simply directed at Mr. Harris owing to his being a prohibitionist with the hope of injuring him. If this is true the parties do not know the danger they are in.

If the parties are friends of the prisoners at the jail, they are very injudicious for if by chance a fire should occur under suspicious circumstances it would put them in an unenviable position to say the least. Below we give the letters which were undoubtedly written by a pretty fair pensman who failed to entirely conceal the fact.

Mr. D. J. Phillips, of this city, has sold his fine three year old saddle and harness horse, "John Rhea," to T. B. Pannell & Bro, of Greenville, Ky., for \$1,000. "John Rhea" is a splendid young animal and the admiration of all lovers of horse flesh who have seen him. The Messrs. Pannell are to be congratulated upon securing him.—*Park City Times.*

County Court.

The time of the court was taken up Monday in road cases, nearly all the cases being continued. F. P. Stum was appointed administrator of the estate of Ed Sweatt, with C. K. Sweatt surety; J. L. Gish was appointed guardian for Jos. E. Vincent; D. C. Garrettson was appointed deputy county clerk for district No. 5. On Tuesday Mary A. Christian was appointed administratrix of John J. Christian. An order was made permitting the town of Central City to vote on a tax for a graded school at that place to be supported by a 40 cents property tax and \$2 poll tax, the vote to be taken on the 6th of April.

A Fish Story.

BOWLING GREEN, March 25.—It has been arranged by the Government to have fishways put over all the dams on Green and Barren rivers, so that fish can come over in all

stages of the water. The said rivers and tributaries are to be stocked with shad and other food fish. This will be worth thousands of dollars annually to Warren county and all points along the rivers.

Public Meeting.

On last Monday a gathering of citizens took place in the basement of the Baptist church. The meeting was called by announcement on the street and was made up of a goodly number of our best citizens with a sharp quota from swapping alley. C. Y. Morehead addressed the meeting and made a statement that he thought the bonds now due against the county amounting in value to \$655,000 could be compromised at \$131,000, that being 20 per cent. of their value. After laying the matter before the people he sug-

gested that the Matter be discussed. He was followed by Mr. Barkley who wished for a full explanation. Mr. James Craig made a statement in correction of a report that he would collect the debt if he was Sheriff. This was a mistatement which he branded in forcible language. A vote was taken then on the propriety of a compromise on the basis. The vote which was not very clear as no count was made appeared to be a negative one. Nevertheless J. O. DeCoursey made a speech in opposition to it as did also Mr. Gish. Rev. Mr. Campbell was also called for and made some pertinent remarks as to the necessity of action being made without stating his opinions pro or con. Senator Jones followed in a short speech. The meeting was an unexpected one and serves the purpose of bringing before our people the condition of affairs of which they should keep themselves apprised. The proposition is a plain one and if it could be effected would enable the old debt which amounts to \$655,000 to be settled in two years by a levy of 2 1/2 per cent. It will be remembered that the remainder of the debt has been compromised. So that a settlement of this would be a settlement of the whole matter. It remains to be seen what the people will do in the matter.

ANNOUNCEMENTS.

To the Voters of Muhlenberg County:

I am a candidate for the office of County Attorney, to fill the vacancy occasioned by the death of W. B. McCown. Subject to the action of the Democratic party. Election, first Monday in August, 1889.

JOHN ALLISON.

We are authorized to announce JOHN C. THOMPSON as a candidate for the office of County Attorney of Muhlenberg County, to fill out the unexpired term of W. B. McCown, subject to the action of the Democratic party in any manner they may see fit to select candidates.

BROTHER BRADLEY has reconsidered the matter of going to Corea. A smaller office nearer home will suit him better.

THERE are nearly 300 miles of railroad track under construction in Kentucky. The grand old Commonwealth is marching on.

A society styling itself "Sons of the Revolution" was organized at Frankfort Monday, with a membership of thirty. A much larger society of sons of guns could be organized here.

Gov. Leslie, it is said, will make Montana his future home. There is possibility of a United States Senator one day being elected from Montana by the name of Preston H. Leslie. The west is partial to Kentuckians.

MUHLENBERG county, it is stated, can compromise the remainder of her railroad debt at 20 cents on the dollar. This question will have to be settled some time, and a better compromise than this may never be offered them.—H. Herald.

JUDGE JNO. C. THOMPSON is announced in this issue as a candidate for the office of County Attorney. JUDGE THOMPSON has served the county faithfully in the capacity of Judge and is thoroughly well known throughout the county as a faithful and capable official. Should he be the choice of the party he would make an excellent attorney.

The Nashville American, in a recent issue, says, editorially:

"Hon. I. H. Goodnight, of Franklin, Ky.' Congressman-elect from the Third Kentucky district' was in the city yesterday. Mr. Goodnight will be one of the youngest looking men in the Fifty-first congress, though he is not so young as he seems. He is a man of striking appearance, with clear, strong features, and has the honor of having rescued the 'Bloody Third' from the grip of the Republicans under the leadership of Dr. Hunter, the millionaire Kentucky congressman from New Mexico."

The Russelville Canning Company has been organized, and will be ready to can fruits and vegetables this season. We publish in this issue of our paper a notice of the Company, calling upon the farmers to come in and make contracts to raise and furnish vegetables to supply the plant. They will want all the tomatoes that can be raised on one hundred acres of land; all the corn that can be raised on one hundred and twenty-five acres; and all the beans that can be raised on at least sixty acres. We understand that from \$40 to \$100 can be realized from one acre of land;

and that one hand can cultivate from five to eight acres up to gathering time, when the force will have to be increased to about three. As the entire time required to grow and market these crops is only three or four months, no argument is needed to convince the farmer that it is to his interest to raise them.—Herald.

Dr. T. J. Slaton received his bicycle Tuesday. He is now riding it, and is in fair way to become an enthusiastic wheelman. If a few more wheels are purchased a cycling club will be organized, and then would a club house and gymnasium be an impossibility by next fall? Such an institution would be one of the most beneficial things that our young men could invest in.

Lieu. Ed Reynolds took a detachment of the Guards out last

Saturday evening for target practice. The boys were provided with five rounds. The first round or two the boys were a little wild, but before their five rounds were out began to get in some fair shots. The wind was blowing rather too much for long range shooting. By practice some fine shots would be developed in the company.

The Echo office is now at work on the catalogue of the fair Association at this place. The premium list is much better than even that of last year. The catalogues will be distributed early and every citizen will be thus given notice in time of some valuable premium that they can compete for. Every exhibition brings on improved grade of stock and products to the fair. We are making progress and every encouragement should be given it.

To Sunday-School Workers.

The Sunday school visitor employed by the Kentucky Sunday-school Union will visit our county next week, and will address the Sunday-school workers as follows: South Carrollton, Tuesday evening, 16th, at 7 o'clock; Central City at same hour on 17th; Ricedale same hour on 18th; Leigh's schoolhouse same hour on 19th. will entertain all visitors, and all interested in Sunday-schools throughout the county are cordially invited to attend. Judges Eaves, Coleman and Thompson have promised to make short speeches upon interesting subjects. The ministers and Sunday-school workers of all the denominations will help in the work. We confidently hope that every superintendent and teacher in the county will come out and let us consult upon this great interest.

President Fifth District.

The Services at The Baptist Church.

The meeting at the Baptist Church is growing in interest. The attendance is large. About ten have professed conversion and many are expressing an interest. Doctors Barrow and Coleman are both earnest and able workers. The sermons have been earnest and the membership is thoroughly revived.

Our Progressive Spirit.

Besides the many new buildings being put up in town there are a number of important improvements in the way of reconstructing and remodeling residences and other property. The painters and carpenters are kept busy. J. W. Lam has been remodeling and having his store painted. Max Weir & Co. are having the floors lowered to a level of the street in their building and the partitions taken out. This will make this an excellent store room. Joe Coombs has taken the partition out of the Graves building and made a neat and convenient place for his butchering business. Judge Thompson, after having purchased and remodeled the house of Dr. Bohannon, has begun a like work on the property adjoining which he recently purchased. H. N. Martin & Co. have about completed the new and immense tobacco storage building adjoining their factory. A. J. Martin is opening out a tobacco factory in the old tanyard property. Steam fixtures and other necessary machinery have been added to

the C. E. Martin & Co. factory.

In addition to the above, fencing and painting have been going on in every quarter of the town which together with the improvements on the court house and the new buildings recently put up makes Greenville wear a progressive air. We hope the good work may continue. There are a number of fronts that still need the painter's brush. Keep abreast of the times.

Bring your old worn out sewing machines to Greenville to L. W. Irvins', and have them repaired by T. R. Jernigan and made as good as new.

Bremen.

Messrs Dan Bean Whitehouse and Andy Perkins, of Central City, was in town this week.

But still that does not have anything to do with the old gentleman who drove up in his buggy the other day to see a certain widow lady in this community, and she being opposed to his business, turned her back on him and comenced reading the Bible. Mr. R. why didn't you sing "In the sweet by and by?"

Quite a number of our farmers are done planting corn.

Died: on the 4th inst. Peter Wilkins, daughter of W. J. Wilkins. She was sick only three days till she was summoned to that bright world above. We extend our heartfelt sympathy to the parents.

Mrs. N. B. Adkinson is visiting her father, Robert Eades, near Greenville, this week.

Mr. T. J. Eades Sr., of Bethel called on Dr. J. T. Woodburn and friends in town Saturday. It had been eleven years since he had been here before.

The exhibition at this place Friday night was very good. There was a large attendance.

Mr. Bob Gruday Jr. left Sunday for Texas where he will remain through the summer.

Why don't some good man come to the front and declare himself a candidate for the legislatur? It is time. Demoorsts get up and stand for success this time. We can get there Ely if we will try.

Master Beunie Scott is still very low with the fever. He has been sick four weeks.

LONG TOM.

The "pig and pen" can be found at the circuit Clerk's office and any day you have nothing else to do you can drop in and spend an hour or two very profitably trying to get those pigs into the pen.

PERSONAL POINTERS. 5

Col. W. H. Yost went up to Louisville Saturday night.

Mrs. J. P. Howard is up from Paducah on a visit to relatives.

Phil Dahl, the veteran produce man, was in town yesterday.

John Allison, W. R. Eaves and R. Martin, visited Evansville this week.

Mr. W. S. Sterrette, representing the Owensboro *Inquirer*, was in the city yesterday.

Mrs. Mary Yost and Miss Carrie Jones went up to Louisville Friday to hear Emma Abbott.

"Neighbor" Hatcher was in town over Sunday. He is uncertain, he says, as regards the race for the Senate in Hart.

Mr. John Drake and wife, of Rice-dale, and Mrs. Julia Corrington, of Gainesville, Tex., are visiting at Mr. H. H. Howlin's.

Mrs. M. E. Martin will have a stock of gold watches by the last of this week which will be sold on the the installment plan. Call and see her before buying.

Farmers in many localities have taken advantage of the mild winter we have had to clean up and improve their fencing and other out farm fixtures.

M. C. Hay who was in Louisville the latter part of the week reports the gas excitement to have abated to a great extent and the business to have gotten down to a safe basis.

Sheriff Pannel has issued notice that he or one of his deputies will be at different points in the county on special days to receive tax. The

new law makes this plan obligatory and it is an excellent one in many respects as a taxpayer has an opportunity to prepare himself and either see a deputy at one of these places or come to the office at Greenville. Under the old plan the sheriff was liable to call on a man at any time subjecting both the sheriff and the taxpayer to annoyance by the untimeliness of the call. No man need now be subject to annoyance as he knows when and where to pay his tax and can be prepared.

ANNOUNCEMENTS.

To the Voters of Muhlenberg County:

I am a candidate for the office of County Attorney, to fill the vacancy occasioned by the death of W. B. McCown. Subject to the action of the Democratic party. Election, first Monday in August, 1889.

JOHN ALLISON.

We are authorized to announce JOHN C. THOMPSON as a candidate for the office of County Attorney of Muhlenberg County to fill out the unexpired term of W. B. McCown, subject to the action of the Democratic party in any manner they may see fit to select candidates.

WE are in receipt of the *Sentinel*, a new paper published at Providence. It is a newsy little sheet and we hope it success.

A SQUAD of deputy marshals who were sent out to arrest moonshiners and the murderers of Marshal WIERMAN succeeded in capturing five moonshiners, but the main offenders escaped.

Squire Morehead has some suggestions elsewhere in this paper in regard to the bond question. On next Monday he will meet the people publicly and discuss the matter.

If there is any citizen of this place that thinks he cannot conduct his business better this year than last, make it more profitable, use better methods, make it more satisfactory, he had better get out of business and give place to a more progressive man.

Page 2 - Col. 2.

McHENTY RHOADS, of the *Hartford Herald* is suggested as a candidate for the State Senate. He is well and thoroughly known throughout the three counties and should he undertake the race would have no trouble in winning. As yet no names have been suggested in this county.

THE LOUISVILLE TIMES says Woodford county is suffering from a rare complaint. She hasn't a single candidate for the legislature.

What is the matter with Muhlenberg for rarity? But they do say there are plenty of 'em in the woods. If you are going to the legislature this year you had better come out and let the light shine on you a while. Move around some among the boys and get the moss off.

Five suits will be brought against Muhlenberg by bondholders at the approaching term of circuit court. These are suits by citizens of this state, hence are brought in the circuit court here and not in the United States Court, as previous suits have been. The total amount of these five suits reaches about \$100,000. The interest and cost continues to increase these debts as the time between us and a final reckoning diminishes. It is a wise man that seeth the danger afar off and hegeth while it is yet possible to hedge.

It is rumored that W. H. Yost, Jr. of Greenville, will be a candidate for Circuit Judge, to succeed Judge Grace in the Hopkinsville district. It is thought by some that the Princeton Banner was bought by Dr. Yost, his father, for the purpose of booming him for the place. Yost is a strong Prohibitionist and will receive a good deal of strength from that element which will probably be worked for him on the quiet. — *Caseyville Herald*.

THE doctor is a strong prohibi-

tionist but we did not know that he had any interest in the Princeton paper.

Now comes the information that Young E. Allison is to start a republican daily paper in Louisville in the near future. We like the straight article and they say that Young E. keeps only that kind in his shop. The *Courier Journal* has become rich and the *Commercial and Post* have been making money, this ought to be sufficient to induce Mr. Allison to try his luck we suppose. But hitherto similar efforts have not been crowned with that degree of success calculated to create confidence in a new trial. If Allison should start a paper he would score one on "Old Farmer" Johnson. As it is the "old Farmer" has the city chap.

Page 2. Col. 3.

Anderson Presbytery of the Cumberland Presbyterian church met in Central City last Friday and Saturday. The opening sermon was preached by Rev. W. W. Wynns, of Union county. Rev. A. L. Goad, of Madisonville, was elected moderator; seven ministers and sixteen Elders were present. It was a very harmonious meeting. Its fall meeting will be at Shiloh Church in Webster county on the 10th of next Oct. Some of the prominent Boards of the C. P. church were represented there, Rev. F. P. Flaiken, of Nashville, agent for the Board of church extension; Rev. J. H. Miller, of Evansville, corresponding of the the Board of Ministerial Relief; Rev. J. V. Stephens, of St. Louis, Editor of the *Missiary Record* and corresponding Secretary of the Board of Missions; Rev. A. C. Biddle, of Hopkinsville, J. A. McDonald, of Bowlin Green and E. T. Bowers, of Owensboro, the synodical committee on Home Missions.

With new and enlarged windows, new flooring, new painted walls, new doors, new roof, repaired grates and flues, neatly papered walls, new Judge's stand, the court house looks like a new structure. The court room when properly seated will be as comfortable as that of any of our neighbors. A citizen of Muhlenberg can now be as comfortable

when in attendance at court as at his own home.

The attention of the town authorities is called to the uncovered and dangerous ditch in front of the black smith shop on lower Main. Hon. George Wendling lectured at Masonic Temple last Monday evening. The lecture closed his season so the papers state. It was the hope of many of our people to have Wendling here during the lecture season, but every effort has failed. We have al-

lowed the winter to pass without securing any of the many excellent lecturers that have appeared elsewhere.

The report of the Town Board of Trustees appears to-day. It is short, tells how much they received, how much they expended and what they have left, with an intimation to anyone that wants to know more to examine the books. The Echo would have been glad to have published an itemized statement had it been furnished, but as it was not our readers will have to hunt up the books for more information.

THE BONDED DEBT.

Meeting to Be Held at Greenville Monday.

Every taxpayer in Muhlenberg county is requested to come to Greenville on the 22nd day of April 1889 and hear the bond question discussed on the following proposition at the courthouse at 1 o'clock P. M.

The following proposition is now before the people. The old bonds and interest amount to \$655,000. A settlement can be made at twenty cents on the dollar which will amount to \$131,000. This amount can be raised in two payments of \$2.50 on each \$100.00 worth of property for two years will pay off and wipe out the old debt and interest which amounts to \$655,000. Take 131,000 from 655,000 this will be a shave of 524,000. After a full and fair investigation and discussion of the bond question, then if the majority of the taxpayers of Muhlenberg county will have the tax levy of \$2.50 made and collected I will contract and undertake to settle the old bonded debt and interest which amounts now to \$655,000 at twenty cents on the dollar which would amount to \$131,000, free of any charge or cost to the people of Muhlenberg county. Now if the majority prefer any other man to me to settle this debt trot him out and I will give him a clear track and all the assistance I can, free of charge.

I will say to the citizens of Muhlenberg county to consider this important proposition well and give it your prompt attention and influence. If you let this opportunity of settling

this debt pass you may never have another settlement as low.

The following table will show the amount each citizen would have to pay on the compromise, to rid themselves of the debt. The levy being for two years and the rate \$2.50 on the hundred.

Taxpayer worth \$100	will pay	\$2.50.
" "	\$200	" " \$5.00.
" "	\$300	" " \$7.50.
" "	\$500	" " \$12.00.

Statement of Town Finances.

Greenville, Ky., April 16th, 1889.

The present trustees of the town of Greenville beg leave to submit the following statement of the financial condition of said town to the consideration of its citizens.

Have collected from taxes and other sources, cash to the amount of \$507.52. Have paid out for material, tools, labor and on old claims cash to the amount of \$326.71, leaving a balance of cash in the treasurer's hands of \$181.81.

Books are open to the inspection of any citizen of the town during business hours each day at T. H. Morgans.

Yours, Respectfully,

J. V. Ragon, Chairman.

T. M. Morgan, Treasurer.

W. H. Wilkinson, Secretary.

Trustee election 1st Saturday in May.

The W. C. T. U. will meet at the Y. M. C. A. room on Saturday, Apr., 20, at 3 P. M.

Mrs. Joe Yonts who has been seriously ill for some time is improving.

Several society swells recently appeared in knee breeches and silk stockings at a fashionable reception given by Mrs. Vanderbilt, in New York. The spindle-shanked and bow-legged men begin to greatly fear that this character of dress is to be reverted to.

We learn that the Baptist denomination at this place contemplate remodeling and repairing their church here at no distant day.

There are several business associations talked of here, any one or all

of which would be of value. Get yourselves together, business men, in a common cause. Work in double harness awhile, it will do you good and be of value to the community. We like to see double teams, six or eight ten in hand attached to the same load.

Come to town next week, attend court, sit down on a comfortable seat and listen to the proceedings and take a manly pride in being a citizen of Manlesberg, and having a respectable court building in which to transact your court business if you have any, and if you haven't thank God for that.

The effort to organize a Commercial Club at this place should not be allowed to fail. We are informed that parties from a distance have signified their desire to investigate the resources of the county and inquired for the assistance of such an organization.

Al. Martin brought to this office Monday a very large bunch of nice, crisp lettuce which he raised without any artificial means in the open air. It was much larger and nicer than the hot-house lettuce we have seen.

here the first of this week.

Mr. E. H. Bailey, a young lawyer from Dixon, Ky., was over last week looking up some law titles, and was also preparing other cases for the court. He thinks that he will have to call in the assistance of the Marshall to execute his papers.

Col. Yost, Capt. Roark and C. W. Short returned from Louisville Thursday, where they have been attending the meeting of the Grand Lodge of Knights of Honor. The two first mentioned were delegates from this lodge, while Mr. Short was an officer of the Grand Lodge.

See the advertisement on the first page of I. J. Kahn. The advertisement speaks for itself. Kahn has a magnificent drug store and the public will find everything that could be found in a city drug house and in the pharmacy department the most careful pains-taking and skilled of pharmacists.

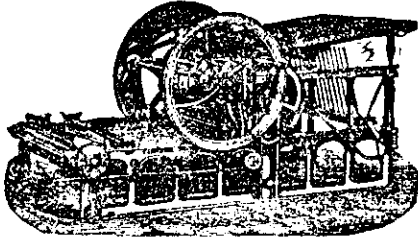

The baptising Sunday, took place out near Mrs. Parks' in Caney creek. The administering was performed by Dr. Coleman in the presence of a goodly number although the weather was inclement.

HON. LEWIS JONES came in town Monday with a rope rein bridle on his horse, this is pretty strong evidence that he will be a candidate for the Senate again.

McHENRY RHOADS, editor of the *Hartford Herald*, is suggested for State Senator in the district composed of Ohio, Muhlenberg and Butler counties. This is complimentary to Mr. Rhoads, but if he will take the *Messenger's* advice he will not run. A young man with as much business on his hands at home as Mr. Rhoads would make a mistake in going to Frankfort to remain four or five months.—*Owens-Messenger*.

SQUIRE J. F. DRISKILL, we learn will be a candidate for the republican nomination for State representative. Mr. DRISKILL is as good a man as the republicans can muster and we have no objection to his being nominated by his party, if we did, it would not do any good, but we warn him before hand that this is the year for the democrats to elect a man and they are going to do it.

An announcement that Greenville has a new court-house would be too startling for a reliable newspaper to print, but the shabby and disgraceful structures that has been so long an eyesore in that town has been remodeled and renovated so completely that it has the appearance of a new structure. It is now a matter of pride with the Greenville-illians to point to their courthouse. The *Messenger* is contemplating the organization of an excursion to go over and see it.—*Owensboro Messenger*.

BOB THOMAS, who is editing the *Caseyville Herald*, is still paying off political scores due to Democrats of Muhlenberg county. He last week gave Col. Yost, who is mentioned as a candidate for circuit judge, a thrust under the fifth rib, saying Col. Yost's father had bought the *Princeton Banner* in order that he might have an organ in that end of the district. This will hardly be credited. So able and popular a gentleman as Col. Yost could get all the newspapers support he would need without going to the expense of buying a newspaper plant. Besides Dr. Yost, the father, and Col. Yost the son, are not built that way.—*Owensboro Messenger*.

GOVERNOR BUCKNER having commenced his career in Muhlenberg county and made such and admirable record as Governor, the *MUHLLENBERG Echo* suggests GEN. D. C. BUELL, another citizen of Muhlenberg, as his successor. GEN. BUELL would not turn over his hand for any office in the land. He is non-partisan, though voting with the Democrats when he votes at all. The mention of his name, therefore, will not arouse much enthusiasm.—*Messenger*.

We do not know whether GEN. BUELL desires to be governor or not, but we do remember that the last two statements in the above were generally made by the press when the name of Gov. BUCKNER was first suggested. Subsequent events have proven their error.

Page 2 - Col. 3.

The taxpayers of Muhlenberg County were expected to meet at Greenville yesterday to consider a proposition to settle the railroad debt of the county at 20 cents on the dollar. Debt and interest now amount to \$655,000 and the bondholders propose to take \$131,000. This would require a tax levy of \$2.50 on the \$100 to pay off the debt, which it is proposed to divide and pay in two years. The county is now in a deplorable condition without magistrates to administer justice, without money, credit or the power to levy a tax for paying county officers. It is not the kind of a county that outsiders would care to settle in and if the people are wise they will embrace this opportunity to compromise their debt and take a fresh start.—*Hopkinsville Kentuckian*.

Not so bad brother MEACHAM, while you were away disporting yourself on the Pacific Slope the County of Muhlenberg arose up and shook herself so to speak. We have magistrates, a well organized county government; with the exception of a sheriff, all the offices being filled, not only levies a tax' but internal improvement is going on in all directions. Come over and see our neat public buildings which are a greater credit to this county than the county buildings of Hopkinsville are to Christian. Make your self better acquainted with your neighbors. We forgive you this time owing to your recent absence, but demand that you notify all emigrants that ours is the best county in the state, the railroad debt to the county notwithstanding.

CIRCUIT COURT.

The Mill of Justice Began to Grind Monday.

THE JURORS.

Circuit Court convened Monday morning, Judge Grace presiding and James B. Garnett representing the Commonwealth. For the first time in many years the court opened in a comfortable room, with ample accommodations for officers and juries. The grand jury was sworn in and charged by the Judge, which charge consisted chiefly in a resume of the statutory duties of the body put in clear, forcible language. The following gentlemen compose the grand jury: G. V. Glenn, Chairman, J. W. Scott, J. R. Clement, T. J. Eades, Sr., F. M. Latham, David Luckett, T. J. Leigh, M. R. Mercer, W. H. Schaeffer, Marion Carver, Rufus Hendricks, A. J. Spurlin, Jacob Johnson, John W. Moore and F. J. Carver. The members of the petit jury are the following gentlemen: E. H. Jenkins, R. S. Hill, F. M. Rice, C. W. Wyatt, E. B. Tate, W. H. Whittaker, Ben Plain, J. R. Wells, Geo. Head, Gus Craig, W. P. Henry, A. D. Luckett, C. Larkins, M. Green, Bradley Pittman, Jos. Elkins, W. P. Newman, Jonathan Whitmer, Andrew Bivins, J. C. Richey, T. R. Cobb, P. C. Petrie, John Kittinger, Sr., John S. Strader.

Milton Groves, for unlawful shooting, confessed to a fine of \$35.

George Fuller, assault and batter \$5.

C. C. & I. Co., charged with violating prohibition, fined \$100.

Bradford Langley, charged with unlawful cutting, fined \$5.

Charlie Langly, breach of peace—dismissed.

Mr. Hiland Adkins made a flying trip to Hopkins Saturday to see his girl.

Miss Sallie Young has returned from a lengthy visit to her sister in Grayson county.

One of our young men goes Fox hunting occasionally, and says he is successful.

The funeral of Mr. Henry Reese was preached last Sunday eve by Rev. Hacker to a large and attentive audience.

Memorial services will be held at Mt. Zion church the fourth Sunday in May. Dinner will be served on the ground, and a large crowd is expected.

The members of the church at this place think it is pleasant enough to have services, and invite Rev. M. B. Porter to preach as heretofore.

Mr. Wm. Young is on the sick list

Mr. T. R. Ferguson has been unwell for some time. Reb Fox.

Bethel.

Our farmers are very nearly done planting corn. The acreage will be unusually large. Wheat is doing well, and oats have suffered little yet from drouth.

In the vicinity of Gish the corn is up and growing and sweet potato

slips ready for transplanting.

Mr. John Danner and wife, of Bremen vicinity, visited their son, Mr. Jacob Danner, Saturday and Sunday.

Our teachers are just now looking up the science of "Civil Government." Why do our legislators nince matters in this style; why not require the languages, physic and all the religions, and also require every teacher to teach his fifty students all the branches in one term!

Some of my friends think I am a little off to favor the proposed compromise. I have, apparently, good reasons therefor; when they are beaten by logical argument I shall surrender gracefully. By all means let that which is for the best interest of the county prevail.

Mrs. E. Eades, of this vicinity, and Mrs. Perry Clemmons, of Mercer, are visiting relatives in Paducah this week.

Mr. J. E. Gill, a former resident, is in the vicinity.

Miss Eva Karnes, of Bremen, is visiting relatives in the vicinity this week.

Master Clarence Fortney, of Mercer, the nine year-old manager of the Gale Harrow, paid us a pleasant visit Sunday.

The meeting at Bethel church Saturday and Sunday will be one of more than ordinary interest.

BERTRAM.

Bremen.

Mr. Gid Maxwell and wife, of Caldwell county, are visiting relatives here.

Mr. Ben Reed, of Arkansas, is visiting Drs. B. W. and J. T. Woodburn, of this place. He left here about sixteen years ago, and this is his first visit. Mr. Reed looks well, and enjoys good health in Arkansas.

Mrs. Mary Mirell, of Grissom's Landing, in Daviess county, is visiting her father, Mr. John H. Vincent, at this place.

Prof. J. P. Black went to Calhoun last week in answer to a letter asking him to take charge of the Calhoun school. He accepted the proposition, and at the close of his school here will take charge of same. We wish him success.

Bremen is on a boom again. She has one new house, occupied by T. W. Washington.

Mrs. E. Rust has opened up a new millinery store.

For God's sake don't let this opportunity pass in regard to our rail road debt. Let us take this proposition made by Mr. Morehead, for that is common sense talk when it comes to 20 cents on the dollar. I believe every man with common sense will accept this offer, so our county can have her name taken off the repudiator's list and be placed on the list of prosperity, and we be a free people.

That delegation of citizens of Owensboro that is coming over to see our new court house, should be given the keys of the city and allowed to find out how really big we are.

Mr. James May, of South Carrollton, was thrown from a horse last Thursday, receiving several severe bruises, but happily receiving no severe hurt. He says he is too old to be pitched off a horse now, and light easy.

Mr. G. C. Kellogg, with his company of salesman, left Saturday for Beaver Dam where they are now making headquarters. They sold

nearly two car loads of celebrated sulky harrows here, which are giving excellent satisfaction. Both Mr. Kellogg and the men in his employ are excellent gentlemen and reliable business men.

The Weir house on the corner of Main and Court Row, which is undergoing improvement, is a striking example of the progress of the last three quarters of a century. It was perhaps the finest house in the county at that time. When it has undergone the improvements now under progress it will have but little resemblance to the old structure in so far as the first floor goes.

The magistrates and county court are to be congratulated on the improvements made in the county buildings. The money has been judiciously expended and the improvements are first class. The work which has been a long time sadly needed has been accomplished in a manner satisfactory to all parties. The additional comfort secured to the court, the juries and the officials will insure a better and more efficient discharge of the business of the county which will prove an ample return for the small outlay in the improvements.

Grand Entertainment.

There will be an entertainment given in College Hall Wednesday night, May 1, 1889, of an interesting and unique character. The young people having the matter in charge have provided, besides music, tableaux and pantimimes, by home talent, a great treat for the public, having succeeded in securing the famous Jarley collection of Wax Works and Statuary, which will be exhibited in connection with the concert. This collection made famous by Dickens' description is not the only feature of the entertain-

142 ment, however. Col. Mapleson's Opera Company, returning from an extended trip in the South, have been induced to stop and sing for the Greenville people, thus affording all lovers of good music a rare opportunity to hear these famous artists. No pains are being spared to make this one of the best concerts ever given in Greenville. Popular prices at the door. Reserved seats at Morgan's after Monday.

Morgan & Green keep a big stock of shoes, buy of them.

A Lecture.

Rev. Dr. Nourse, of Washington City, will deliver his celebrated lecture on John and Jonathon. He is one of the most famous of American lecturers, and will have in store a treat. The opportunity to hear him should not be missed by any one. A lecture by an able man is a source of intellectual enjoyment that no one can afford to let escape.

Page 3 - Col. 4.

The Proposition Withdrawn.

The proposition to compromise the balance of Muhlenberg's debt, which was to be submitted Monday, was withdrawn. The reason assigned was the withdrawal of the support of a number of citizens. Their withdrawal was due we understand to a fear of subjecting themselves to liability to Judge Brown, of Memphis, for his conditional fee of \$25,000.

Gladstone and home-rule are the Irishman's pets. The American calls for Ganter's magic chicken cholera cure. Sold "no cure no pay" by Yonts & Kittinger.

We hav'nt many candidates in the field, but what we have, got in their work Monday pretty lively. Many an honest yeoman that had been trudging along for many months under the supposition that no one took any interest in him was agreeably surprised to find out that a number of our most prominent citizens were solicitous as to their health and absolutely pining to know whether the folks at home were all well.

Candidates for County Attorney Speak.

Candidates John Allison and J. C. Thompson made their formal an-

nouncement for the office of County Attorney Monday. Judge Thompson opened. His speech was short. He referred to his record as an official in the past, and pledged himself to a discharge of duty if elected. He was followed by Mr. Allison, who laid his claims before the people, and made his pledge to serve them, after which he referred to his opponent's record in a humorous manner, eliciting a reply. Both men were listened to by a large crowd in an attentive manner.

ANNOUNCEMENTS.

To the Voters of Muhlenberg County:

I am a candidate for the office of County Attorney, to fill the vacancy occasioned by the death of W. B. McCown. Subject to the action of the Democratic party. Election, first Monday in April, 1907.

JOHN ALLISON.

We are authorized to announce JOHN C. THOMPSON as a candidate for the office of County Attorney of Muhlenberg County to fill out the unexpired term of W. B. McCown, subject to the action of the Democratic party in any manner they may see fit to select candidates.

THOS. G. POORE, of Hickman, candidate for Clerk of the Court of Appeals, was in Greenville last Thursday lecturing for that office. He is one of the present deputies and has been since the election of TOM HENRY.

Mr. E. R. WEIR, son of Col. E. R. WEIR JR. was granted license to practice law last Thursday. The law is a profession in which the greatest power is found at the top, and we hope for Ed a direct route to the top round.

In overruling the challenge by the defense in the Randolph murder trial, of T. B. PANNELL, acting as ellor, Judge GRACE took occasion to pay Mr. PANNELL a well-deserved compliment upon his faithful and impartial discharge of duty during the six years of public service he had known him.

Greenville boasts not of a new court house, but an old one made over, and they do say it is a beauty. If Muhlenberg will only compromise her bonded debt at the low rate that is now offered, she will double her wealth in the process and can then build her a magnificent new court house.—*H. A. B. Herald.*

MUHLENBERG county is to be congratulated on the spirit of enterprise beginning to assert itself among her people. Recently the old building which has been made to answer the purpose of a courthouse for so long was thoroughly remodeled and re-

Page 2 - Col. 2

paired and now that county can boast of a comfortable and handsome little courthouse, something she has needed badly for the last quarter of a century. When ever she concludes to settle her debt, and gets about it, there won't be a county in the State with more flattering promises and brighter prospects for a prosperous future than Muhlenberg.—*Clinton Banker.*

In commenting on the suggestion of Mr. MCHENRY RHOADES as a candidate for the State Senate the Madisonville *Hustler* says: It would be no mistake for the people to send Prof. Rhoads to Frankfort to represent their interests. He is one of the level headed men of the State of Kentucky who honors any position to which he might be called. We mean no flattery when we say that the District has no man more capable of filling the position than MCHENRY RHOADS.

A Slick Shyster's Contract.

The reason assigned for the failure of the people of Muhlenberg county to consider the proposition to compromise their large bonded debt at 20 cents on the dollar, is quite extraordinary. The Echo says

a number of citizens withdrew their support of the proposition through fear of subjecting themselves to personal liability to Judge Brown, of Memphis, for his conditional fee of \$25,000. This is not the first time "Judge" Brown has been the obstacle in the way of a compromise of this debt.

After all legal means had been exhausted in the State courts and the United States courts had been resorted to in vain to establish as a fact that the railroad bonds issued by Muhlenberg county were illegal, and when a compromise favorable to the tax payers was about to be effected, "Judge" Brown came along and succeeded in deluding a large number of the more ignorant people of the county into the belief that their case had been mismanaged in the courts by their attorneys and that he could deliver them from their trouble. About 1,000 of them—among them some men of wealth—entered into an obligation to him to pay him a fee

Page 2 - Col. 3.

of several hundred dollars per year to revive the litigation, this to continue until its final adjudication, and \$25,000 in event he won it for them or the matter should be compromised pending the litigation.

This is a soft snap for this shyster, but he and his \$25,000 contract stand as a constant menace to an honest and fair settlement of the debt, which would be so beneficial to the people. Meanwhile he gets his annual salary, but makes no progress in the litigation.—*Messenger.*

Muhlenberg County's Debt.

If the people of Muhlenberg county having common sense, and common honesty, do not promptly come to the front and take active and vigorous efforts to effect a fair and honorable compromise of the county debt, we can not see anything but irretrievable ruin for that county, notwithstanding its immense resources in minerals, soil and geographical position. As before stated in newspaper columns, the debt has been declared by the highest courts, both State and National, to be a valid and binding obligation on the county, and a valid lien on all the real estate therein, and any further resistance

146 to a fair settlement of the debt is worse than madness, and unbecoming the citizens of any law-abiding community. Many of the present holders of these bonds bought them eighteen or twenty years ago at 75 to 85 cents to the dollar, and would probably now consent to accept 50 cents to the dollar for the principle and interest of the outstanding 7 per cent bonds in a new 6 per cent bond, provided the majority of the voters of the county would sign an obligation binding themselves to see that a sufficient tax was annually levied and collected to pay the interest on the new bonds. This action is necessary because of the discreditable manner the county has acted in reference to its bonded debt. If cranks

Page 2 - Col. 7

are further allowed to lead, then good bye to the further progress and prosperity of the county. Surely there must be enough of the blood of the Rumseys, Weirs, Wings, Branches, Shorts, McLeans' Reno's, Yosts, Rices and other honored names to prevent this disgrace to the county. If the debt could be compromised at 50 cents to the dollar, an annual levy of one or one and a quarter per cent. would pay the interest on the new bonds, and this the county is amply able to pay.—*Louisville Sun day Truth.*

Circuit Court.

Since Thursday the following cases have been tried:
 Commonwealth vs. Columbus Martin charged with carrying Concealed Deadly Weapons Discharged.
 Commonwealth vs. Joe Mitchell same charge. Discharged.
 In the injunction case of Gish vs. Gish, the injunction was dissolved Jacob Gish giving a new bond for \$1,700.

 The Drake shooting case was continued.

of F. M. Jones. Only four men were secured and the elisor was directed to summon one hundred men from which to select the remainder of the jury on Wednesday.

On Tuesday Pryor Tyson was tried for the malicious shooting of Ralph Uzzle.

Bethel.

The continued dry weather seems to favor the bug despoilers. The growing corn is being killed by a black bug—name unknown—and tobacco plants are rapidly disappearing.

The meeting at Bethel was largely attended. On Saturday, Rev. W. H. Woodson was continued in charge by a unanimous vote and three additional deacons were ordained Sunday.

Saturday, May the 11th, was named as the day for clearing the grave-yard at Bethel church of forest trees, by an appropriate committee and all interested parties are invited to assist.

Mrs. G. M. Bibb, of McLean county, is spending the week with relatives here.

Master Charlie Eades was seriously though not fatally hurt by being thrown from a mule Saturday afternoon. Little boys should remember that a mule is an uncertain quantity and give him a wide berth.

Miss Sadie Hendricks, of Hartford, who had been spending a short time with her sister, Mrs. George Henry, returned home Thursday.

Mr. Jacob Gross, of Bremen, visited his niece, Mrs. J. H. Eades Eriday evening for the first time in sixteen years.

Rev. W. P. Bennett, of South Carrollton, spent Saturday and Sunday in the vicinity he compliments the vicinity very highly, saying that twenty years shows the greatest improvement of any section of his acquaintance.

An alarm of fire last Thursday afternoon brought a goodly number of our citizens on the street. The alarm came from Sam Eades', but by the time the crowd got well under way the alarm was discovered to be false. It originated in an effort to smoke the mites out of a hen house, we learn. It raised a mighty smoke and created a mighty scare, but whether it killed the mites we are not apprised.

Before you buy your spring hat go to Mrs. M. E. Martin's.

In this issue will be found the first half of the Legend of Sleepy Hollow' by Washington Irving. While a large unnumber of our readers have read and re-read this story, we published for the benefit of that class that haven't. It is the finest piece of prose literature produced by an American. In diction, fine humor, beautiful description and magnificent word painting we doubt if it is excelled in any language in the same class of literature. - This story will be followed with the three other famous productions of Irving.

The Randolph Murder Case.

At Twelve o'clock yesterday the jury in the Randolph case had been made up. The case will take up the time of the court for the week as there are nearly a hundred witnesses to be examined. Messrs. James F. Tate Dead.

Mr. James F. Tate, born April 25, 1845, died at his home a few miles from town on last Saturday morning. He was a man possessing the virtues that make a true husband, father, neighbor and citizen, and the community in which he lived unites with the widow and children in the lament at his loss. He was a consistent Christian, and just before he died said to his wife: "Mary, take good care of the children, and don't grieve after me; I suffer to-day, but will rest to-morrow."

Three Years.

Pryor Tyson, charged with the malicious shooting of Ralph Uzzle, was given three years in the penitentiary. The limit is five. The shooting was unprovoked, and evidently to seek vengeance on the account of a supposed indictment of his brother by Mr. Uzzle. The indictment was not procured by Mr. Uzzle, but if it had it would only have made the case worse against the young man. It was a crime against the very fountain of justice, and the penalty fixed by the jury was as lenient as possible.

The Cincinnati *Enquirer* says in reference to Dr. Robert Nourse, who is to lecture at the Presbyterian church Tuesday night, that of the

six leading American lecturers that visited that city last winter, Dr. Nourse was the grandest, and had the most perfect control of his audience. Our citizens should not fail to hear him.

New Uniforms.

Members of the Greenville Rifles are ordered to be present at the armory Saturday evening at 2 o'clock, to have their measures taken for new uniforms.

The fly has been destroying tobacco plants to an unprecedented extent in this county.

A Taxpayer on the Debt Question.

The following letter which was received by a gentleman here, is self-explanatory. As the meeting before which he desired it read did not take place we give it space in this issue as indicative of the trend of opinion at the present:

OWENSBORO, Ky., April 18, '89.

DEAR SIR:—I see from a letter of Mr. Morehead in THE ECHO that he proposes to settle the indebtedness of Muhlenberg county, or the remaining bonds now amounting to \$655,000 for \$131,000. Now, I am not a citizen of your county, but I am one of the largest, if not the largest taxpayer in the county, and I am surprised that this proposition is not accepted at once, and without a moment's hesitation. Your citizens have litigated on the bonds until litigation is a folly, and this debt will have to be paid sooner or later, and in the meantime your county has lost more in the valuation of property than the entire original debt, and if settlement is longer delayed the county will become hopelessly insolvent, and every property holder a bankrupt. There is no reason in hopelessly kicking against the pricks, or crying over spilled milk, and paying lawyers who can do nothing towards freeing the taxpayers from this debt, and the only thing now to do is to make the best settlement in our power, and the offer made by Mr. Morehead is the best that we could in reason expect. Do nothing but curse and blame others, and your old county will be ruined; but put your shoulder to the wheel and all give a push, and we will be out

of this rut, and old Muhlenberg with her coal, and iron, and wood, will soon become one of the best counties in the State, and your taxpayers will not feel the tax levied to carry out this or some other compromise. I would come over to the proposed meeting, but have been quite unwell, in fact scarcely able to do so, but I write this letter to you that you may read it before the meeting, and it will explain that I am in favor of the proposed settlement, and urge your citizens, and especially your business men to be up and doing, and not longer delay. If nothing is done, and if at once active effort is not used to settle this debt, then we can only expect financial ruin. I am in favor of any compromise that can be made, and am willing to bear my share of the burden, although I did nothing towards placing it on the county. I am in no way interested except wishing the county to be released from this debt, and taking the place it ought to occupy. I hold no bonds, and have no other interest than a taxpayer and well-wisher of my birthplace.

Yours,
JAS. WEIR.

Come to the lecture.

21 Years in the Penitentiary.

The trial of George Johnson, the negro who killed Jake Myers last year, was entered into last Friday, and resulted in the return of a verdict by twelve o'clock the next day of 21 years in the penitentiary. The circumstances of the killing were given in THE ECHO at the time, and the evidence introduced was substantially what was then published. The verdict was a just one, though perhaps a little more lenient than those who heard the evidence expected. The good work should go on.

Sale of Property for Taxes.

I will, on Monday, the 27th day of May, 1889, at the court house door, in Greenville, Ky., expose to public sale to the highest bidder for cash in hand one house and lot in Greenville, Ky., to satisfy the taxes of Mrs. Eliza Metzker for the year 1888 levied by the trustees of common school district No. 14 of Muhlenberg county, Ky. This, April 27th, 1889.

Death of Mrs. Jno. Poag.

Mrs. Lizzie Poag, wife of John F. Poag, of this place, died at her home here last Thursday morning after a long and painful illness from pulmonary disease. She was in the 32nd year of her age and leaves a husband and five children to mourn their loss. Mrs. Poag was a member of the Cumberland Presbyterian church and died in full consolation of the christian religion. The funeral sermon was preached at the residence of Mr. Poag, by Rev. S. G. Shelly, of the Methodist church, afterwards the body was interred at the town cemetery.

Page 3-Col. 7.

Mr. Ben Rice, Henry Myers and Mr. Ross, of the Gail Harrow Co. planned a nice drive out to Jernigans' Chapel last Sunday evening with their girls. But they reckoned without their horses. The last mentioned took a hand enroute. Mr. Rices' horse so disabled his buggy that it was condemned as unsea-worthy and returned to the stable. The horse driven by Mr. Ross succeeded in derauling his buggy, but by building a fire they were enabled to repair the damage sufficient to finish the trip. The horse driven by Mr. Myers succeeded in doing nothing worse than giving his driver a kick which happily did no harm. The young gentlemen will walk next time if agreeable with the young ladies.

The lecture of Dr. Nourse is said to be the finest before the American people in point of humor.

Dr Bohannon paid a flying trip to his old home near Georgetown last week, and there purchased a unumber one Count Wilkes horse which will arrive next week.

ANNOUNCEMENTS.

To the Voters of Muhlenberg County:

I am a candidate for the office of County Attorney, to fill the vacancy occasioned by the death of W. B. McCown. Subject to the action of the Democratic party. Election, first Monday in August, 1892.

JOHN ALLISON.

We are authorized to announce JOHN C. THOMPSON as a candidate for the office of County Attorney of Muhlenberg County to fill out the unexpired term of W. B. McCown, subject to the action of the Democratic party in any manner they may see fit to select candidates.

We give an editorial entire of HENRY WATTERSON on the position of Modern Agriculture in the United States in this issue. Let every farmer read it. WATTERSON is the greatest of living American Journalists.

The Woman's Journal of the issue of April 27th was a Kentucky issue. It had articles by Dr. J. B. COTTRELL, of Franklin, Rev. V. O. GEE, of Bowling Green, and Mrs. Mary C. Roark, of Glasgow. All these people are well known here. The journal is published at Boston, and is pretty full of good matter.

Governor Buckner is honored wherever he goes and the State may well feel proud of him. He was a conspicuous figure in the New York celebration this week. The Governor, by the way, has accepted an invitation, for himself and Mrs. Buckner, to visit Owensboro during the meeting of the press Association next month. The Governor will respond at the banquet to the toast, "The Old Commonwealth."—*Messenger*.

ONE of our exchanges having failed to receive a copy of the Echo, takes that fact as evidence that we published in that issue something that we did not believe true. The mission of the Echo is to disseminate truth and eradicate error, so we send by register a copy of the Echo of the date indicated, in order that there may not be one of the many thousands who weekly peruse its pages that shall, by a failure in the mail service, have his faith shaken. Having done this we feel now that the Echo is not discredited by eyes so much as one of its host of readers; clippings from other papers not being vouched for.

Excellent Advice to Muhlenberg.

Mr. James Weir, of this city, who owns a farm of one thousand acres in Muhlenberg and is probably the largest tax-payer of that county, in a letter to a gentleman in Greenville, which is published in the Echo, urges the citizens to accept the compromise of the remaining bonds amounting to \$655,000 at \$131,000, which is now offered. In the course of his letter Mr. Weir says:

Your citizens have litigated on the bonds until litigation is a folly, and this debt will have to be paid sooner or later, and in the meantime your county has lost more in the valuation of property than the entire original debt, and if settlement is longer delayed the county will become hopelessly insolvent and every property-holder a bankrupt. There is no reason in hopelessly kicking against the pricks, or crying over spilt milk, and paying lawyers who can do nothing towards freeing the tax-payers from this debt, and the only thing now to do is to make the best settlement in our power, and the offer made by Mr. Morehead is the best that we could in reason expect.

do nothing but curse and blame farmers, and your old county will be ruined; but put your shoulders to the wheel and all give a push; and we will be out of this rut, and old Muhlenberg with her coal, and iron, and wood, will soon become one of the best counties in the State, and your taxpayers will not feel the tax levied to carry out this or some other compromise.

This excellent advice, and coming from one so largely interested, it is entitled to consideration. Almost without exception, the larger property-holders of Muhlenberg county have for years coincided with Mr. Weir, but a compromise of the debt has been repeatedly thwarted by a howling set of fellows with little or no property led by such demagogues as Lewis Jones.

To now rid themselves of a debt of \$655,000 for \$131,000 is a proposition the people of Muhlenberg should jump at, and they would jump at it but for Shyster Brown and his \$25,000 fee that stands as a menace to at least one thousand of them. Shyster Brown and his contract are a creation of the same demagogues who have misled the people these many years.—*Owensboro Messenger*.

Page 2 - Col. 3

Dishonored by the Tariff.

(Henry Watterson.)

A brave, intelligent and hardy yeomanry is the life of a people. It supports the political system. All other parts of the nation are dependent upon it for strength and vitality. When it falls into decay the whole is threatened. No country has ever risen to eminence unless upon the support given by the tillers of the soil. In times of danger the country looks first to them. The most of those who die at the front in battle have swung the hoe and followed the plow. When the farmer loses his rights it is time for statesmen to look to their country. When he is free and happy under just laws the prosperity of all is assured. Every great nation which has fallen can date its destruction from the oppression of the agricultural classes. When the motive for endeavor was taken away from those who drew their sustenance from the soil general ruin followed. History does not show an exception.

This is the first of all agricultural

152 nations. Soil, climate and extent of territory combine to render it such. Our country was made by the farmers. Their axes and rifles opened it from the Atlantic to the Pacific. Whatever credit we are entitled to as a people is due to the strong son of the soil.

There are two thousand million acres of land in the United States, an abundance for everybody, and with such ample opportunities it seems that the pursuit of farming should stand first in the public estimation. But since the tariff has made it unprofitable it has likewise become unfashionable. With the loss of wealth, power and influence are slipping from the hands of the farmer. Men naturally choose vocations in which they think they will be respected and honored. The farmer's son sees that the cultivation of the soil in the United States is oppressed, and he abandons his father's vocation.

Nowhere can the loss of influence by the farmer be more easily traced than in legislation. Nearly all our millionaires in the Senate were not only made by the tariff, but placed there by the tariff. A half century ago the farmers controlled the Government. They sent to Washington to make their laws such men as Clay, Webster and Calhoun, who made government a study, and devoted their lives to the advancement of the theories which they thought correct. These frequently make mistakes, but they are the only men fit to be at the head of a nation's affairs, for Government is an art and science, a combination of theory and practice, and to be learned only by diligent study and close observation.

A man, unless he be an exceptional mortal, can not spend all his life until middle age is reached or passed in commercial pursuits, then abandon the latter and become a wise and good law-maker. He may wish to do the right thing, but it is too late for him to learn a new trade, and he can only blindly obey his leader. The farmer has always had a great respect for those whom he places over him, and throughout our history our ablest members in Congress have come from the rural district. There to become a Congressman is still considered an honor, and the man who aspires to such a posi-

tion must have a clean record and be thought worthy of the place.

Thus in our early days and until the civil war the farmers chose our legislators and shaped our legislation and both were respected at home and abroad. But after the war, when the occupation of farming was ruined by the tariff the people began to flock to the cities, for in the last twenty years the population of the latter has grown far out of proportion to that of the whole country, and the rural influence over the government began to decay. With the increase of city members the tone of the Senate and lower house has unquestionably been lowered. No one can deny it. Professor Bryce, the eminent Scotch man, whose book upon the United States has caused so much comment, quickly observed it. It will not take him or any other long to learn why it is so. The city voter is notoriously more corrupt than his country brother. He seldom concerns himself about the man who makes his laws unless he has some job to put in his hands for successful promotion. For that purpose a fool or a scoundrel better suits him than an able and upright man.

By a corruption of legislation the millionaires get into the Senate. Without the influence and power of the city and town members they would be barred, and only from those States where the population is largely urban do they succeed in entering the most dignified body in the Union. The lower house is beginning to suffer from the same evil. In it the ablest and most honorable members are from the country or small towns the most ignorant and most corrupt come from the great cities. The same conditions prevail in the States Legislatures.

The tariff is directly responsible for these evils. Entrance by corruption into the chief legislative bodies is one of the most serious dangers to a country. A revision of the tariff, placing all industries on something like an equal footing, will remove this threat from us. It will make farming again both profitable and

Page 2 - Col. 4

honorable, and will give the farmer his old controlling influence over legislation. He will then cast out

the millionaire who depends on his money-bag alone, and put in his place the tried and trained law-maker. The city will grow at the expense of the country, and agriculture, now dishonored by tariff, will be once again considered a pursuit worthy of any man.

CIRCUIT COURT.

The Randolph Case Drags it slow Length along.

The Case Given to the Jury.

The entire time of the court has been taken up this week with the Randolph trial. The examination of witnesses lasted from Wednesday until Monday, when the arguments of counsel began. Col E. D. Walker opened for the prosecution and spoke about three hours he was followed by John Allison for the prosecution, and was in turn followed by W. A. Wickliffe, Judge Thompson, C. J. Pratt, Col. Yost, Judge Love and Commonwealth's Attorney Garnett. These speeches were some of them long, and all together took the time of the court until yesterday evening up to the time of going to press, when it was given to the jury. We make no effort to report the evidence, which was voluminous in the particular of corroboration. Forty-five witnesses were examined for the defense, and a dozen or more for the prosecution. The speeches, many of them have been very excellent, and the court room has been crowded every day since the trial began.

The continual dry weather is creating distress in many quarters. A general rain over the Ohio Valley is needed.

We neglected to note in last issue a very pleasant May day past for the little folks of Mrs. David Rhodes' Sunday School Class.

A child of Mr. John Dwyer, living some four miles in the country, was burned dangerously though not fatally one day last week. We did not learn the particulars.

The Juvenile Missionary Society of the Methodist church, with a few invited friends, spent Saturday in the woods, and had quite an enjoyable time. Miss Florence Rice was re-elected President of the Society.

The ladies will remember that Mrs. Lam and Mrs. Bennett have a stock entirely new at their millinery store which is receiving attractive additions each week.

An effort is being made to organize a lawn tennis club at Central City, and will doubtless prove successful. This fascinating game is obtaining a lively foothold among the outdoor sports in the South, and is likely to become as popular this season as it is in the North. If the club is organized we will publish the names of members in next issue.

Delegates and others attending the Annual Southern Baptist Convention to be held at Memphis Tenn., May 10th to 17th will be interested to know that round trip tickets to Memphis at the low rate of one fare will be sold from all ticket stations of the Newport News & Mississippi Valley Co., Western Division, (formerly C. The Tennessee Buggy Co., Nashville, have an attractive advertisement of their buggies and carts in this issue. They are large manufacturers selling direct to the consumer, and prices are bottom. Mention The Echo in correspondence, and

you will receive fair treatment.

The wife of Dr. W. A. Mann, leader of the Pythian Band, of Rockport, Ind., committed suicide last Sunday by hanging herself. Insanity was attributed as the cause, as she had at one time been insane. Dr. Mann was here with the band last fall, and will be remembered by many of our people whose acquaintance he made during the very pleasant stay of the band here.

Trustee Election.

The election for town Trustees Saturday resulted in the re-election of the old board without any special opposition. The vote stands as follows and as will be seen was light but few persons taking the pains to vote.

Hon. Lewis Jones, of Penrod, who represented the Muhlenberg district in the State Senate, started to Washington this morning. A gentleman who claims inside information says that the Honorable Jones has gone to the capital in the hope that he may be able to snatch the collectorship bone while the others are quarrelling over it.—*Inquirer*.

Dr. Nourse's Lecture.

Dr. Robert Nourse, of Washington City, delivered his "John and Jonathan" lecture at the Presbyterian church Tuesday evening to a good house. The lecture illustrates many traits of both English and American character that the partisans of these two nationalities too frequently refuse to see. The Doctor has a fine undercurrent of humor that plays through his lecture that is highly enjoyable. His anecdotes while not new were told in a pleasing manner. The Doctor, although an Englishman, and his lecture, while calculated to make us feel more kindly towards our former enemies, is strongly American.

Infantleide.

A young woman Miss Creasy Gregory a daughter of Wm. Gregory, of Bevier, gave birth to a child last Sunday which it is claimed she murdered. The child was buried by neighbors but afterwards was exhumed on an inquest held by Squire Wickliffe which developed the fact that the child had been born alive and afterwards killed. The child was illegitimate and the evidence adduced of a very revolting nature. The woman is in a critical condition but under the surveillance of an officer.

A small stock of groceries, will also rent the house in which I am now doing business. J. C. Chatham.

The Concert.

The Concert Tuesday evening at College Hall proved a highly enjoyable entertainment, and was also very successful financially. Mrs. Mary Yost and Miss Carrie Jones are receiving much compliment, the entertainment having been under their management. They desire to return their thanks for the assistance they received from the members of other churches, as well as those of the Methodist church, for whose benefit it was gotten up. The opening piece, a quartett, "Moonlight on the Lake," was excellently received. It was rendered by Mrs. Ollie Eaves, Miss Jones, Mr. E. Martin and Geo. Eaves. This was followed by a very pretty tableaux of little folks in a characteristic scene. Miss Willie Morgan sang excellently "Slightly on the Mash," a humorous selection. Miss Lucy Reno followed in a piano solo which was excellently executed. A comic song, "Reuben and Rachel," by Miss Anna Hancock and Mr. Jno. Barkley. This piece was rendered in costume, and brought down the house. Both rendered their parts effectively. Miss Hancock has a pure, sweet voice which was encored. An oratorical contest, a pantomime and a quartett were well given. Mrs. Yost sang a solo that was highly applauded. Mr. J. L. Nagle played a violin solo, "Elks' Reception Overture," with true touch and pleasing effect. A vocal duet, "Trust Her

"ot," by Mrs. Yost and Miss Jones as well received, and in response to an encore they sang "O, Wouldst thou Were in the Cold Blast." Several other pieces were given in good style. The exercises ended with Madam Jarley's Wax-works. Mrs. Georgia Hay had charge of the celebrated aggregation of wonders in wax, and expatiated on them to the audience in a style that might have made the veritable Mrs. Jarley herself envy her. She was assisted by Mr. W. B. Harbin and James Barkley. Mr. Harbin was chief manipulator of the winding gear, and Mr. Barkley handy at handling the figures. The evening's exercises were pleasing and instructive, and were thoroughly enjoyed.

THE JURY'S VERDICT.

John R. Randolph Given Three Years in the Penitentiary.

Removed to Madisonville Pending on Appeal.

The jury in the Randolph case returned a verdict of manslaughter and fixed the punishment at three years in the penitentiary. A motion for a new trial was made Friday morning and a number of witnesses examined to show that certain members of the jury were pre-judged and others to show that they had been subject to improper influence. After a careful hearing of these witnesses and the argument of Council Judge Grace overruled the motion.

An appeal was then prayed for and granted and a motion made suspending the execution for sixty days to admit of the filing of a transcript of the record in the case in the Court of Appeals. In the mean while the following order was made for the

immediate disposal of the prisoner:

MUHLENBERG CIRCUIT COURT.
 Comth. of Kentucky, On Indictment
 Against
 John R. Randolph, for Murder.

Whereas, it appearing to the court of record that John R. Randolph has, at the present term of court, been convicted of voluntary manslaughter in the killing of F. M. Jones, and having been in pursuance of the verdict of the jury in said cause sentenced to confinement in the State penitentiary for a period of three years, and on his motion an appeal having been prayed and granted, and time having been given for filing a transcript of the record in the Clerk's Office of the Court of Appeals, and the execution of said sentence having been suspended by an order of this court for that purpose, and whereas, it now being made to appear to this court that the jail of this county (Muhlenberg) is insecure for the safe detention of said prisoner, it is now therefore ordered by this court that said John R. Randolph be transferred by the jailer of this county (there being no sheriff or coroner in office) to the jail of Hopkins county, same being an adjoining county to this and having a good and secure jail. That said prisoner be delivered by the jailer of this county to the jailer of Hopkins county, and that said prisoner be detained and safely kept by the said jailer of Hopkins county until legally discharged by due process of law. A copy of this order will be furnished said jailer of Hopkins on the delivery of said prisoner to him.

George W. Morgan and Ed Roark were deputized to convey the prisoner to Madisonville which they did Monday.

The prisoner's family visited him Thursday. We learn that both the family and friends of the prisoner opposed his taking an appeal.

copies of the report of the meeting.
The report has much valuable infor-

The music school, which is being
taught by Miss Minnie Eaves, of
Greenville, is progressing finely.
Miss Minnie is a good teacher, is
well liked by her pupils and is a
reigning belle in society. We imag-
ine a great many of the boys will
sing rather doleful music when the

term is out and the fair teacher returns home. Especially will be the case with our friend R. M.—White's Mill Correspondent to Elizabethtown News.

New Time Schedule.

A new time card went into effect on the N. N. & M. V. road Sunday. The east bound passenger train, formerly getting here at 11.37, now arrives at 5.55 in the evening. The west bound gets here at 1.11 in the afternoon. The local freight, west bound, gets here at 7.03 in the morning, and the east bound at 6.09 in the evening. This is convenient to parties going to Louisville, and if the west bound night train, which passes here at 1.10 in the morning should stop for passengers to get off, it would still further convenience our people.

IN MEMORIAM.

PROF. E. W. HALL.

Not for the praise of men,
Not for the gain of gold,
Not for the love of fame
Dared he to be bold.

Not what the world might say,
Not where the world might tread
Chose he the way, but ever
The way where conscience led.

Not for himself alone,
Not for an easy life
Spent he his manhood's strength,
Labored he in the strife.

Rather to bless mankind,
To guide the tender foot,
To help the erring ones return,
To weep with those who weep.

To teach, to love, to serve,
The Master's praise will be
"Inasmuch as ye did it unto them,
Ye did it unto me."

Church Improvement.

The subscription for the improvement of the Baptist church has been about made, we understand. A thorough remodeling is contemplated. In fact the alteration will be so radical as to almost make a new church out and out. It is the aim to reseat it with opera chairs, and to construct a baptismal font and add many other like improvements. The estimated cost for the remodeling amounts to \$3,000. The list was started handsomely by Mr. E. Rice with a subscription equal to one half the amount. Under the direction of Dr. Coleman the church has been materially strengthened in numbers and aroused in interest.

Judge Long Dead.

Judge Americus V. Long, one of the oldest and most prominent citizens of this city, died at his home on Main street, last night, aged 75 years. He was a native of this place, and was born May 8th, 1814, just 75 years ago. He has been an invalid for several years, confined to his room. He leaves a large relationship. His funeral will take place at half past 4 o'clock this afternoon from the Universalist church. Burial in the city cemetery.—*New Era.*

Marysville, Ky. May 6, 89.

Mrs. Mary E. Ebb.

Inclosed please find one dollar for which please send me your paper for one year.

And while I am writing I want to say to the people of Muhlenberg, in behalf of Mr. J. F. Hardman and myself, who own property in that county, that we think it is the best thing, by far, that could be done to compromise that Railroad debt at the offer made recently.

We would willingly pay \$2.50 per year on the hundred dollars for two years and get rid of the tax. Yes,

pay twice or three times that amount and have the trouble settled.

Democratic Committee Meeting.

The members of the county Democratic Committee are called to meet in Greenville next Monday May 20th, to determine what method shall be adopted in regard to the race for county Attorney and other matters of importance.

W. T. STILES,
Chairman County Committee.

Mrs. T. J. Jones undersells as usual everybody in hats.

Circuit Court.

Circuit Court closed on Saturday morning. The civil docket was pretty well crowded out by the Randolph trial so that but little was accomplished. For the first time in many years the business of the court was accomplished with comfortable surroundings. The grand jury returned 72 indictments for the following crimes and misdemeanors: 1 malicious shooting; 12 carrying concealed deadly weapons; 19 for gaming; 2 for running horse on public highway; 1 public nuisance; 1 bigamy; 5 grand larceny; 11 violating prohibition; 1 trespass; 1 violating sabbath; 1 for malicious striking; 1 petty larceny; 1 malfeasance in office; 1 for suffering gaming; 2 for false-swearing; 2 house breaking; 3 for selling liquor to minor; 3 Breach of the peace; 1 selling pistol without license.

A GOVERNMENT surveying party has taken the level of Green river between Spottsville and Brown's Lock, a distance by river of 175 miles. The fall is 79 feet.

CAPT. ED PORTER THOMPSON is announced as a candidate for State Librarian. He was appointed by Gov. BUCKNER after the death of Mrs. HANSON, and will, we presume, receive an almost unanimous endorsement when the election comes up next winter. He is one of Kentucky's best specimens of the true gentleman, and his election will please everybody.

Gov. Buckner, in talk this morning with a number of gentlemen, stated that the speech of ex-Gov. Knott at Munfordsville on the Saturday preceeding the election was the ablest political oration to which he ever listened. "There may have been better ones," he observed, "but I never heard them. His speech

made such a powerful impression upon me that I could not help being gloomy for three or four days afterward. He drew such a dark picture of the evils to which we are hastening under this Administration, realizing it so clearly as he did, that it affected every one of his hearers. I regard Mr. Knott as one of the ablest men in our nation, and I much regret that that speech was not published. I know it helped matters in my county, and I wish the whole State could have had the advantage of it.

The Glasgow Times is referred to the above as another instance of the whereabouts of PROCTOR KNOTT before the election.

Resolutions of Respect.

Whereas, It has pleased the Grand Master of the Universe to remove from our midst our worthy and esteemed brother, William Peavler, who died at his home Aug. 12th, 1889, after an illness of two weeks. The intimate relations long held by the deceased with the Masonic fraternity render it proper that we should place before the public our appreciation of his services and merits as a Mason. Therefore be it

Resolved, That we deplore the loss of our brother with deep feelings of regret, softened only by the confident hope that his spirit is with those who, having fought the good fight here, are enjoying perfect peace in brighter realms.

Resolved, That we tender to his afflicted relatives our sincere condolence and earnest sympathy in their affliction at the loss of one who was a kind husband, loving father, good citizen, devoted Christian and a true man. His remains were interred at Bethel church, attended by a large concourse of Masonic and other friends.

Resolved, That the forgoing resolutions be published by the Central City Republican and the Muhlenberg Echo, and a copy be sent to the family of deceased.

Wrongly Recorded.
BEVER, Ky., Aug. 19, '89.

Editor Echo:

I received a letter from a friend in Greenville, one day last week, that Mr. T. C. Dupont, while acting as special clerk for Mr. Paxton, the regular clerk of the late election at Central City has recorded my vote for the Republican ticket. I have this to say, I am a simon pure Democrat, and have never scratched my ticket wilfully, and at the recent election I handed the Sheriff a Democratic ticket, which was given to me by Moses R. Glenn, and he will testify, and told the sheriff I wanted to vote the straight ticket, which I handed him; and wanting to be set right before the public, and most especially the Democratic party, I take this method of asking Mr. Dupont to please explain why matters are thus.

Respectfully,
JOSEPH H. SHERWELL,
Pres. Dem. Club of Bevier, Ky.

Things are not altogether lovely over the disposition of the gauger-ships by Collector Feland. There are several gentlemen in this city who worked and suffered early and late for the success of the grand old party during the last campaign, and for this sweating and toiling and this burning of the midnight oil, they had a reasonable hope that when the pie was opened, there might be at least a small cut for them. But this it seems was not to be. Henry Nunn, the only McCracken county man to secure a bite, is a clever young gentleman who has heretofore tasted of the official flesh pots in the same or a similar position, but he has never been particularly active in party work. Moreover he is a brother-in-law of Capt. Farley, who was an applicant for the same place Mr. Feland secured. This is why it is deemed inexplicable, and this is why several Paducahans are uttering curses, not loud but deep.—Paducah Standard.

Bethel

Contrary to the cherished hopes of his many friends, Mr. W. R. Pevlor's disease assumed a fatal tendency on Tuesday night and on Thursday he passed away. Mr. Pevlor was one of our very best citizens. He was buried on Friday at Bethel church with Masonic honors.

The paint brush has been busy in Greenville during the summer, and as a result the town looks like a new place. It isn't time to stop, however, and there are still many houses that should receive the attention of the painter.

Dr. Gill preached to a large audience at the C. P. Church Sunday. The theme of his discourse was by request, "If a man die, shall he live again?" The sermon was a deeply interesting one. Dr. Gill is a learned man who invariably says the thing best calculated to reach the heart of his hearers.

Prof. R. N. Roark has been elected to an important position in the Normal department of the State College, at Lexington. Prof. Roark is at the front in the educational rank, and this position is an opportunity to use his powers of good, and he will be felt in the betterment of the young men and women placed under his charge.

Rev. R. Y. Thomas, of Caseyville, was in town yesterday. From him we learn that the condition of his son R. Y. Thomas Jr. is but little improved. The broken bone had to be rebroken about a month ago, since which time the reknitting process not set up again. The prospects are now that an additional surgical operation will have to be undergone if the limb ever becomes useful again.

No woman need suffer from the diseases peculiar to her sex. Dr. Richmond's "Victoria" is a positive and guaranteed cure for all forms of Female Weakness, and has cured hundreds of cases in Kentucky. Price, \$1 per box of one month's treatment. Call or send to J. D. Yonts, Greenville, Mrs. W. T. Lam, agent, Central City, or Mrs. Jennie B. Oates, general agent, Depoy, Ky. All orders promptly filled. 30-46

The entire community will be glad to know that the Rev. M. B. Porter,

who has so successfully filled the stand at the Presbyterian church for the last two years, will return after his collegiate course has been finished. He has made friends every where. The churches at this place, Central City and McHenry have been wonderfully built up and strengthened under his pastoral care. He is a hard worker and time will make him one of the ablest ministers of his church.

Mr. E. A. Coppage has sold the Greenville Hotel property here to Mr. David Rhodes, the terms of transfer being Mr. Rhodes' house and lot near the public school building, and a farm of 150 acres near Nelson creek station. Mr. Coppage is one of the best hotel men in the country, and his retirement from the business will prove a source of regret to the traveling public. Mr. Rhodes intends to fully sustain the reputation of the hotel, we learn, and the public will continue to find this hotel as in the past an excellent stopping place.

Mr. J. E. Stone, of Rochester, spent several days in town last week. We understand that Mr. Stone is employed to teach school in Muhlenberg county. The people of the district may congratulate themselves on having secured the services of a young gentleman eminently qualified to discharge the onerous labors of the school room. Mr. Stone is in love with his profession, and conscientious in the discharge of every trust imposed upon him, his school, will be successful, if hard work is an element of success.—Butler News.

W. L. Peveler Dead.

W. L. Peveler died last Thursday at his home about 8 miles north of town. He leaves a family consisting of his wife and seven children. He was a strict member of the Baptist church and a Mason. He was buried with Masonic honors at Bethel church on Friday.

Presbyterian Services.

The congregation of the Presbyterian church has made the following arrangement for filling the stand during the absence of Rev. Mr. Porter at Hampden Sidney College: Dr. W. L. Nourse, of Hopkinsville, will preach next Sunday; after that Dr. L. O. Spencer will preach regu-

larly each third Sunday until May. Every one who knows Dr. Spencer will be rejoiced to know that he will be with the church during the absence of Mr. Porter.

The Lecture of Dr. Gill.

Dr. Gill delivered two interesting lectures at the Cumberland Presbyterian church on Thursday and Friday nights of last week. The subject, "Travels and Observations in Europe, and European Cities," is one very difficult to lecture upon, owing to the vast amount that has been read and said upon it and kindred themes, but Dr. Gill's lecture was very entertaining. He had observed closely, and of the many things to be seen abroad he had gleaned a vast amount of information of the most interesting character that seems to have escaped the majority of travellers. He does not claim to be a lecturer in the true sense of the term, but only a "teller of tales." For ourselves we wish there were more "tellers of tales" and fewer lecturers if they were such entertaining talkers as Dr. Gill.

County Teacher's Association.

The Muhlenberg County Teacher's Association met August 12, and organized by electing T. C. Sumner President, Miss Blanche Covington Vice-President and Miss Sally Barkley Secretary. A committee of three were appointed, consisting of Miss Lilly D. Martin, Mrs. Maggie Simmons and Mr. W. W. Lewis, to organize the magisterial districts of the county into sub-associations. The following teachers were appointed chairmen of the said districts: Mr. W. W. Lewis, Summers, to meet first Saturday in September; W. H. Hoskinson, Myers, same date; F. A. Wootton, Paradise, and R. L. Eades, Boggess, second Saturday in September; C. F. Hayes, Central City, third Saturday in September; Henry Casebier, Court House, same date; B. C. Withers, South Carrolton, fourth Saturday in September. The next meeting of the County Association will be held at Greenville Court House first Saturday in October at 10 a. m. with the following program: Paper—Beneficial Result of the Crusade Judge Charles Eaves. How far should the Teacher be Influenced by Public Opinion? Miss Ruth Plain. Teacher's Reading..... W. W. Lewis.

Teacher's Duty. T. O. Summers How to obtain suitable library and necessary apparatus for every common school room. Miss Sally Barkley.

The Association enrolled forty-two members.

F. M. Rice Dead.

F. M. Rice died on Tuesday evening at two o'clock from fever at his home at Ricedale. He was buried yesterday evening near that place by the Masons. He leaves a wife and two children who have the sympathy of all in their great bereavement. Mr. Rice was one of Muhlenberg's most worthy citizens. He was a christian of unspotted character and a faithful member of the Cumberland church. May his character and christian example find many emulators.

The Institute.

The Institute closed its work Friday afternoon after a most successful week. Seventy-two teachers were in attendance, and the entire work laid out by the State board was gone over in a very effective manner. The proceedings will be published in full in pamphlet form. J. W. Marshall, of Earles, was appointed secretary and served most efficiently in that laborious post. The regular work was enlivened at different times by essays and papers on literary subjects. On Wednesday evening the people of the town assembled at the Presbyterian church the congregational appointment for that evening having been withdrawn for their accommodation, and listened to three excellent papers, one by Judge Thompson, one by Prop. Sampson, of Shelbyville and one by Prof. Peterman. These papers were all good and elicited much applause. On Friday morning Col. Yost read, by request, an excellent paper.

Every school in the county will be benefitted by the work of this institute. Local teachers associations were formed for the different portions of the county and a vast deal of life was infused into the public school system of the county. Prof Peterman made an excellent impression while here and numerous friends will wish him an early return.

Bi-Centennial.

The Daviess County Baptist Association, of which the church at this place is a member, and which was in session last week, adjourned without selecting a place for its next meeting. As its next meeting is the bi-centennial of the Association, it is expected to prove more than usually interesting. A special program will be prepared, and the exercises will celebrate the event in appropriate style. A committee has been appointed to select the place for the next meeting. We learn that of the three places having the preference this place stands second, and a pull by this place would get it probably. By all means this should be done. The town can well care for the Association, and afford it every facility for the meeting.

COUNTY.

To the Democratic voters of Muhlenberg county: I am a candidate for the office of Assessor—subject to the action of the Democratic party. **MOSES R. GLENN.**

We publish to day the announcement of **MOSES R. GLENN**, of Bevier, as a candidate for the office of county assessor. Mr. GLENN is one of the young Democracy, and thoroughly worthy of the office to which he aspires. He will add strength to the party if the nomination should fall to him.

The Louisville Commercial wants Gov. BUCKNER to beware of campaign prophecies. The advice to our Governor, though probably unnecessary, has one recommendation, and that is that it comes from an organ that has had a sad experience of this kind. For years the Commercial has been wont to scab the political horizon before each important contest and make predictions that were as regularly reversed by resulting events as the predictions were made. As a political prophet your Louisville Commercial is classed with the four hundred that prophesied before Ahab and Jehonadab.

Mr. Jacob Danner made a business trip to Ramsey last week.

Mr. J. S. Eades arrived Saturday from the Lone Star State, and will spend a short time with friends here.

Our people are moving with a will and we can safely say in advance that the Association will be well entertained.

Dr. R. B. Morehead and lady and Miss Thomas, of Morgantown, were the guests of Mrs. Emma Morehead for a short time last week.

Mr. D. J. Gish is in Oweusboro receiving treatment for his eyes, which his many friends hope will prove highly beneficial.

Miss Eula Lam, of your place, who spent a few days last week with relatives near Bremen and at this point, returned home Monday.

Mr. J. G. Isbell, who has been spending several weeks with his

Drakesboro.

Drakesboro, Aug. 26, 1890.

As it has been some time since I saw anything of this place or neighborhood, I concluded to send you a few items.

Our district school began this morning, conducted by Prof. James Leigh.

Bro. Crow preached his last sermon here last night, and Bro. Reid's last appointment is the second Sunday in September, when conference convenes.

The name of the post-office at this place has been changed from Beccadale to that of the incorporation. The new name is to be used the first of August.

On last Thursday at 2 o'clock p. m. Mr. F. M. [Name] departed this life. The funeral services were conducted by Rev. [Name] Thomas the day following, and when the burial took place at the Drake burying ground, which sad rite was performed by the Masonic fraternity. His family have the sympathy of many friends in their bereavement.

The business of our place compares very well with that of other places of equal size. The mills owned by the O. B. More Lumber Co. have probably the largest capacity in the county. They are running nearly full time, and do an immense business. Morton Bros., who began the mill business here a year and a half ago, have succeeded well. They will move their mill in a short time to a fine body of timber recently purchased by them near Beiton. Many who contemplate building here can ill afford to give them up. They do a large local business. Grable Bros. are in the mill business, and from the

Bill Short is putting up a larger fish house in the place of the former one next to the livery stable.

Call and see my 33 watches. They are on the market for the money.

J. W. Lam has removed the felt roof from his building on Main Cross street and replaced the same with tin.

There was an ice cream supper at Barkley's school house near town last Saturday night. We learn they had a pleasant evening.

The delegates to the Sunday School Convention, at Paducah, are enthusiastic in regard to their reception and stay in the metropolis of the Purchase.

Mr. E. A. Coppage removed from the hotel yesterday to his recently purchased property near the public school building, Mr. David Rhodes taking possession of the hotel.

There will be given next Saturday at Mt. Pisgah an ice cream supper. Proceeds to go to the repairs of church. Everybody is invited and a pleasant evening promised.

School opens next Tuesday at the College. The prospects, we learn, are good for the fall term. Every thing is in readiness and the facilities are unsurpassed for a successful school year.

Mrs. E. R. Heck died last Friday at her home near Mercer Station. She was the mother of Mrs. David Rhoades, of this place, and besides her leaves a number of other children and a husband to mourn their loss. She was buried Saturday at Nelson Creek church.

The college will open for registration of students Tuesday, Sept. 3. It is desirable that all should be present that day if possible, as prompt registration greatly facilitates the organization of classes.

The Glasgow Normal School will give fifty free scholarships this year. One of which will be received from this county. To any one desiring to take advantage of this excellent offer it is necessary that they should at once apply to the county Superintendent here.

J. W. Sullivan, of South-Carrollton, leaves next week for Washington and Lee University at Lexington, Va. Mr. Sullivan will add still more we believe to the honor Kentucky students have made in the schools of the Old Dominion. He has both application and ability.

The colored Methodist Conference meets here Sept. 4th. We do not know the territory over which the conference extends but judge it will bring a large number of preachers here. The colored people of the town will see that they are well entertained and cared for during their stay.

IMMENSE CROWDS.

"Last Days of Pompeii," and the Big Attraction it is Proving.

The grandest spectacle of modern times is the gorgeous spectacle, "The Last Days of Pompeii," that is being produced every Thursday and Saturday evenings in Louisville. Thousands attend every performance. An exchange has the following to say of the big enterprise:

"That the public was eager from long abstinence for first-class outdoor amusement was shown last week by the immense crowds which patronized Daniel Quilp's fireworks, "The Last Days of Pompeii." The number that witnessed the initial performance on Thursday night and the, if anything larger throng that saw it last evening was proof that this greatest of pyrotechnic spectacles has lost none of its popularity from repetition. By repetition is not meant the identical performance of 1886, for it is more complete and elaborate in every respect than when first seen in Louisville. The athletic games are more exciting and numerous, while the dances are more lively and varied. As to the fireworks proper, it is the same gorgeous blaze of colors and designs. The grounds have been so much improved that the place will hardly be recognized, displaying such enterprise as to make the beholder feel as if he were in cities more renowned for such entertainments. The first week of "Pompeii" promises well for its popularity during its season of

two performances per week, Thursday and Saturday evenings.

Rev. Geo. O. Barnes.

Mr. Barnes delivered his lecture on the "Lost Tribes" to a large audience at the Cumberland church Tuesday evening. It proved highly interesting. The theory advanced was new to nearly every one present, and the earnest style of the speaker riveted attention closely to the end. Besides the historical information and philosophical deduction, the lecture was in many other respects an educator and disseminator of good. He should have large houses everywhere. Mr. Barnes' ministerial work in Kentucky has been of great benefit and every community in which he has labored has derived lasting benefits.

In our report of the institute work last week we failed to note a very valuable paper which was read by Judge Eaves on Friday. The paper related directly to many of the most interesting questions now effecting the work of public education and was highly appreciated by all who heard it.

The notice in last week's Echo brought plenty of rules to this place Monday. Hardly a man came to town that was not loading a "kicker." Either the buyers were offering too little or the sellers were holding at too high figures, one or the other as but few sales were made. Tanner bought four and Smith about three.

We are glad to learn that the outlook for Greenville College the coming school year is so favorable. The college is an institution which Greenville is justly proud of, and it is to be hoped our citizens will show their appreciation of it by a generous patronage. That we have one of the best schools in the State in our own town is an item of too great interest to us all to be overlooked.

Dr. Nourse, of Hopkinsville, delivered two able sermons at the Presbyterian church Sunday. In the evening the discourse was an exposition of the Presbyterian belief on the doctrine of election. The doctor is a clear and logical speaker and presented the views of his church in such a philosophical manner that

the attention of his hearers was closely fixed on questions that have been rendered devoid of novelty long since by their oft discussion, though they have lost nothing of their vital influence over mankind. The audience was large both morning and evening.

J. W. Marshall, of Earles, was arrested here Monday on two charges. One was for carrying concealed deadly weapons and the other for aiding in the escape of a prisoner. On the first charge he plead guilty and was fined \$25 and cost, a trial of the second was postponed until Saturday, Sept. 7th. Both offences were committed Monday. Marshall is a teacher at Earles and has a good school there. He has hitherto borne a fair reputation and why he should have gotten entangled as he did Monday is unexplainable. Both of these offences are grave and such that a teacher in our public schools can in no wise afford to be guilty of.

One day last week West Langley had the misfortune to have a valuable mule killed. His son was driving a mule team making a circuit collecting wheat tolls for threshing recently done. He took a shot gun with him, thinking to kill some game along the road, and was accompanied by two other young men. While en route it became necessary for two of the boys to get out and walk up a hill to lessen the draft. One of them requested the gun be handed to him so he could skirt through the woods and hunt. In handing the gun out of the wagon it was discharged killing one of the mules.

Holmes—Allison.

At half past three o'clock Monday afternoon, at the residence of Mr. A. M. Terry, Mr. William H. Holmes, of La Grange, Ind., was married to Miss Annie Allison, of this place, Dr. W. L. Nourse, of Hopkinsville, performing the nuptial ceremony. The marriage was a quiet one, only a few of the immediate friends of the parties being present. Mr. Holmes and his bride left on the evening train for La Grange, where they will reside in the future, he being president of the graded schools of that place. Miss

Allison and her husband first met at the university at Bloomington, Indiana, of which school Mr. Holmes is a graduate. Greenville will regret to lose Miss Allison from its society, but we are assured she has won a most estimable gentleman for a husband, and the best wishes of her many friends go with her for a long and happy future.

The State Sunday School Union.

The annual meeting of the State Sunday School Union, which convened at Paducah last Tuesday, was one of the best and most interesting associations ever held in the State. A special train was run from Mt. Sterling and carried about 300 delegates, principally from Louisville and Eastern and Central Kentucky.

The convention was called to order at the Presbyterian church at 8 p. m., when more than 400 delegates from all parts of the State were found to be present. The address of welcome was made by J. G. Miller, of Paducah, and the response by Rev. Geo. Ames, Vice President, after which the various committees were appointed, and the convention proceeded to work.

Morning, afternoon and evening sessions were held until Thursday night, when an adjournment was had, all present pronouncing it the most pleasant and profitable convention ever held in the State.

The Sunday schools in Greenville were represented as follows: Presbyterian—J. G. Barkley, Mrs. Lewis Reno, Misses Annie Hay, Lucy Reno and Madie Barkley; Cumberland Presbyterian—Henry Myers and Miss Louise Weir; Methodist—Rev. W. W. Carhart, C. W. Short, Mrs. J. R. Martin, Misses Lizzie and Annie Short and Master Clarence Martin.

Worthy of special mention as earnest and enthusiastic workers in the convention must be named the newly elected President, Howard W. Hunter, and Messrs. Geo. E. Foskett and Thos. D. Osborne of the Executive Committee. Mr. Wm. Goddard, of Paducah, (known to many of the readers of the Echo,) conducted the song service in a very creditable manner.

The address of Rev. Isaac Crook, D. D., of Louisville, on the "Sunday School Idea" was one of the most

interesting talks made. He closed with a description of a telegraph operator's Sunday school, which opens every Sunday morning at 7 a. m., at a time when there is no other business passing over the wires.

The speech of Dr. Gilbert, of the Indianapolis Normal Sunday School Institute, on the Sunday school as a factor for bringing all Protestant denominations together, was attentively listened to and favorably commented on.

The train bearing the delegates to their homes left at 7:30 Friday morning, and all returned home enthusiastic in the Sunday school cause and loud in their praise of the city of Paducah and the warm hospitality of her citizens.

The sum of \$2,580 was pledged in support of the cause for the ensuing year. THE DELEGATES.

In Memorium.

RIDEDALE, Aug. 25, 1889.

Died—at his home, in Ricedale, August 20th, Mr. F. M. Rice.

After a painful illness of four weeks, with perfect trust and composure, he leaned his wearied head upon the Savior's breast and breathed his life out sweetly there. He was 45 years of age, and had been a member of the Cumberland Presbyterian church for many years. He will be sadly missed, not only in the home circle, but also in society, in the church and Sunday school, of which he was a zealous worker. He was charitable and courteous toward christians of all denominations; every enterprise for good found in him a willing and cheerful helper. He was a kind husband and loving father. He bore his suffering with great patience, saying "It was all right. He was buried with Masonic honors. The bereaved family have our sympathy.

He has gone to that dreamless shore,
Where his pure soul is ever at rest;
He has gone to die with a band
In that bright land where saints are blest.

A FRIEND.

An unusually degraded looking tramp took in the town Monday. In his pererrations he stopped at P. L. Townes' and called for a cup of warm coffee. Mrs. Townes was alone and told him she didn't have any coffee; he became angry at this and cursed and said he intended to have a cup of coffee. The tramp had made a mistake, Mrs. Townes is larger in courage than in person and stepping back in the room re-appeared and presented a pistol in the face of the tramp who in his fright ran against the yard gate, knocking it off the hinges and not stopping until he had gotten out of sight of the five chambered persuader and the resolute woman behind it. There would be fewer tramps if there were more ladies with the pluck of Mrs. P. L. Townes.

ANNOUNCEMENTS.

STATE.

GEORGE H. MADDEN

is a candidate for Clerk of the Court of Appeals—subject to the action of the Democratic State Convention.

COUNTY.

To the Democratic voters of Muhlenberg county: I am a candidate for the office of Assessor—subject to the action of the Democratic party. **MOSES R. GLENN.**

INFORMATION from Washington is to the effect that Gen. BUEL will be called on to resign to make place for a man who, though he may not be a veteran, will be a Republican. TANNER is a lover of the old soldier, i. e., if the old soldier is a lover of TANNER's methods.

Mr. UREY WOODSON, vice-president of the K. P. A., and editor of the Owensboro Messenger was commingling with old friends in this place several days last week. Mr. Woodson was once editor of THE ECHO, and we suppose it was the experience gained in pleasing a Muhlenberg

patronage (noted as "kickers") that has rendered subsequent success easy and made the Messenger one of the best papers in the State.

THE *Inquirer* says that about \$1,000 per month is sent away from that place to the Louisiana State Lottery. About a year ago \$1200 was drawn by a ticket holder there. The balance of trade is with the lottery company there as elsewhere, yet it continues to catch the boys. Considerable more money is sent away from Greenville than the uninitiated would surmise. No money of any moment has ever been drawn by parties here. About \$25,000 per annum of this gigantic swindle goes into the pockets of ex-Lieutenant-Governor PINCHBACK.

Waiting for the Drum Tap.

(Owensboro Messenger.)

In spite of her financial distress Muhlenberg county for the past five years has shown an appreciable gain in population and wealth. There are now about five hundred more names on the assessors books than there were five years ago and the property valuation has increased at least half a million. In mineral wealth Muhlenberg is exceeded by no county in the State, and with that debt settled there would be such an influx of people and capital as has never been known by any Kentucky county. In addition to the attractions of nature for capitalists, Muhlenberg has a most orderly population, which is in happy contrast to the condition of society in the Eastern Kentucky counties that are making such efforts to attract foreign investors.

A Tribute of Respect.

At the meeting of the Rockport Baptist Sunday school on Sunday, August 25, 1889, on motion of J. D. Maddox, and seconded by Dan. F. Gibbs, a committee was appointed to draft suitable resolutions on the death of our former superintendent, Sister ELIZA HECK, who departed this life August 23d, 1889, and the following was presented by said committee and adopted by a rising vote

of the Sunday school:

Dear Superintendent, Teachers and School:—It becomes our painful duty to record the death of our dear sister and former superintendent, ELIZA HECK. In the death of our beloved sister we have lost a devoted Sunday school worker, and the church has lost a consecrated Christian and a devoted lover of Christ and His bleeding cause.

To day we feel sad that she who was so useful and so faithful should be taken from our midst by the merciless hand of the fell destroyer. And we feel that her place in the house of God can not be filled unless her mantle of devotion and goodness should be directed to the shoulders of another by the love and grace of our God. Therefore, be it

Resolved, That although we sorrow, yet we bow to the will of Him who doeth all things well.

2. That we realize that our loss is her eternal gain.

3. That we will be more diligent in the Master's work than ever before.

4. That we offer our heart felt sympathy and condolence to the bereaved husband and disconsolate children of our dear, departed sister.

5. That a copy of the resolutions be presented to the bereaved family and a copy spread upon the minutes of our Sunday school.

Eugene Miller has been employed in the store of C. E. Eades & Co. He has gone in to learn the business from the ground up, and if he sticks to the task success is sure to come.

Rev. B. E. Watson will deliver a short talk on his European trip at the C. P. church Friday evening. A cordial invitation is given everybody to attend. This talk will be free, no collections.

To those who attended the lecture of Geo. O. Barnes here it will be of interest to know that his lecture created great interest among thinkers in Louisville. He delivered two lectures there the last part of the week.

W. A. Wicklife made his settlement with the County court Monday. The report showed that \$12250 had been received, all of which had been expended except \$100 H. Every school in the county was taught except one.

A telegram was received here Tuesday by Mr. Joe Martin from Springfield, Tenn., announcing the serious illness of Mr. Jake Anthony his brother-in-law. He and Mrs. Bettie Eaves left on the two o'clock train for that place.

Owing to the heavy rain last Saturday night, the ice cream supper at Mt. Pisrah, which was appointed

The Kentucky Conference of the A. M. E. Church is now in session here and about sixty preachers have already arrived. The conference extends over a large territory and is one of the most important religious councils of the colored Conference. Bishop Lomax who is to conduct the conference has arrived.

Mrs. Mary I. Yost, of Greenville, leaves next week for Staunton, Va. to take a position as teacher of vocational culture in one of the leading seminaries of that city. Mrs. Yost has herself a very rare voice and recently returned from New York, where she has been under the instruction of the celebrated teacher who introduced Emma Jacob to fame. Mrs. Yost's friends are very proud of her accomplishment.—*Owensboro Messenger.*

The Galt House, which up to two years ago annually lost money, has since that time been very prosperous, a fact due to the present management and its business policy. While still maintaining its great reputation for the best table in the South, it is at the same time gathering a large patronage from all portions of the State by liberally advertising its lower rate rooms. When the public is generally impressed with the fact that all the advantages of this magnificent five dollar-a-day hotel can be obtained at two fifty its patronage and prosperity will be still further increased.

We publish elsewhere an item from the *Owensboro Messenger*, in which the statement is made that, in the last five years the number of tax payers has increased 500. We are informed that the increase is greatly in excess of that number; the vote of the county has increased 1,000. The increase in population is noticeable all over the county. New settlers are to be found on every hand. Muhlenberg has a wonderful future before her, once could her financial affairs be straightened out. Aside from her mineral resources, she has excellent farming lands able to produce sufficient for many times her present population in every agricultural and horticultural product

except, perhaps, wheat. It needs but a unity of effort on the part of the people for the county to prosper as no county in Southern Kentucky has ever done.

The Fair.

The time is approaching for the fourth annual exhibition of the Muhlenberg County Fair Association and the managers are getting things in readiness for a splendid exhibition of the products of this county and neighboring counties. The fair is proving of much benefit to the farming interest of the county and its benefits will increase in a manifold ratio in the future. Every citizen in the county should not only attend the fair but strive to have, if possible, some exhibit to increase the interest of the display if not to carry off a premium.

Where county fairs are encouraged the greatest development in the agricultural products of the county is found. Stock is improved, their value enhanced and a general effort at progress engendered that serves more than anything else in increasing the prosperity of a people.

Of late years the county fairs have been making commendable efforts at improving the display of grains, fruits and vegetables. Such annual displays have a wonderfully invigorating effect on the production of a country. To make such displays the people must themselves take an interest. The present display is sufficient to induce many men to make an exhibit, but this should not cause them to fail. The benefit and advantage derived by others should induce them where it is possible to add to the general exhibit. Aside from these features fairs afford excellent opportunities to extend and increase social intercourse and acquaintance among the people. Society is essential to the happiness of men and the opportunity for its enjoyment should not be neglected. The isolated position of many an agriculturist makes social intercourse difficult a great part of each year and the opportunity to meet friends and acquaintances on common ground during several days of leisure as afforded by a fair can be neglected only under necessity by those who would reap the true benefit of life.

Put a blue pencil mark through Sept. 16, 17, 18, 19 on your calendar and set it aside as a time you will meet your friends at the County fair and spend whole days in witnessing the program of exhibits and the companionship of friends.

Pa Takes Proper Precautions.

Ten minutes after this beautiful tableau was interrupted by the old gentleman, George said to Clara:

It was very thoughtless in your father to intrude so abruptly.

Clara—He is not thoughtless at all, George. You see my eldest sister lost her breach of promise suit by not having an eye witness, and poor pa had to pay the costs and lawyer's fees himself.—*Texas Sillies.*
