NUMBER 43

ITS ENDOWMENT

Increased by \$200,000 at Baptist Convention.

With the return of Dr. E. Y. Mullins, president of the Southern Baptist Theological Seminary, to Louisville from the Southern Baptist Convention at Hot Springs, it was learned that the endowment fund of the seminary had been increased from \$600,000 to \$1,200,000. The endowment fund was made \$600,000 several years ago, and last year it was increased to \$1,000,000, an increase of \$400,000. It was the belief of the board of trustees of the institution that this amount should be increased another \$200,000 in order to carry on the work of the seminary, which will include the enlargement of the school, the adding of other departments, the securing of several thousand more books for the library and the building of a chapel to be used on special occasions when meetings of Baptists of the South are held in Louisville. The proposed chapel will be erected at Fifth street and and Broadway, on the site adjoining Norton Hall, and which was purchased by the board of trustees of the seminary several years ago.

CONVENTION VOTES UNANIMOUSLY.

The decision to ask for the additional endowment of \$200,000 to bring the amount to be raised by the Southern Baptist Association up to \$600,000 was reached at a meeting of the board of trustees of the institution held Thursday morning at Hot Springs, just before the first session of the convention. When the matter was placed before the convention as a whole it carried by practically a unanimous vote. It was decided that Kentucky should raise \$75,000 of the amount and Georgia a like sum, and the remainder was divided between thirteen other States which are members of the association.

When the matter was brought before the convention as a whole just before the final adjournment speeches in favor of the extra endowment were made by Dr. Mullins and six others, all of whom are residents of the South and who are anxious to see the seminary made the greatest institution of its kind in the world in fact as well as in name. While it is not the purpose of Dr. Mullins to raise the entire amount by May, 1909, when the next annual Southern Baptist Convention will be held in Louisville, it is his belief that a large portion of the additional endowment will have been raised by that time, and that a favorable report can be made by the board of trustees to the convention.

During the convention in Louisville next year the seminary will celebrate its fiftieth anniversary and golden jubilee, and already plans have been started by Dr. Mullins and other members of the faculty to have a gathering of the alumni. A banquet will be given to the graduates of the seminary, numbering between 2,000 and 3,000, or to as many of them as can arrange to be present at that time.

Bonfort's quotes its California staff correspondent: "Trade is not what it should be at this time of the year. The prohibition craze has undoubtedly been felt by California wine merchants."

WHISKY RULINGS

Made Known Officially to Louisville Dealers.

All the wholesale liquor dealers and distillers in Louisville have received notice from Collector Craft of the recent ruling of the Commissioner as to the marking of distilled spirits. The rulings are those which appeared in a special telegram to the Courier-Journal from Washington a week or more ago. These rulings become effective on July 1 and are under the pure food law. They require packages containing liquors to be marked whisky, blend, compound or imitation, according to whether the package contained what is recognized as whisky, a blend of two or more whiskeys, a compound containing a larger amount of whisky than neutral spirits or neutral spirits treated to imitate whisky under the ruling of the department.

According to those interested the trade looks for quite a sharp advance in the price of straight whiskeys following an increased demand which is expected to follow the rulings. It is confidently believed by the distillers that straight whiskeys will largely take the place of spirits hereafter in many of the brands into which spirits have heretofore entered.

DOWNWARD COURSE

Fast Being Realized by Mt. Sterling People.

A little backache at first. Daily increasing till the back is lame and weak.

Urinary disorders quickly follow; Diabetes and finally Bright's disease. This is the downward course of kidney ills.

Don't take this course. Follow the advice of a Mt. Sterling citizen.

Robt. Sheridan, living on South Queen St., Mt. Sterling, Ky., says: "I have used Doan's Kidney Pills off and on for two years and have found them to be a remedy that acts up to representations. I suffered greatly from lumbago which came on in attacks, some of which were so severe that I could scarcely straighten. I had severe pains through my back and kidneys which at times extended into my shoulder blades. I was also annoyed by an irregular action of the kidneys, and think that the hard work on the railroad was responsible for all my suffering. I was unable to find relief until I procured Doan's Kidney Pills at F. C. Duerson's drug store and I continued taking them until at present I am almost entirely cured."

Ollie James Jubilant.

Representative Ollie James, of Kentucky, one of the principal Democratic leaders of the Bryan men in Congress, is jubilant over the result in Alabama.

"The Alabama delegates were instructed," said Mr. James, "by direct vote of the people and this is the most important part of it. Whenever the people themselves can pass upon the case, Mr. Bryan will win every time."

CARNEGIE GOLD.

Boy Who Saved Little Ones Gets Silver Medal and \$2,000.

At Pittsburg, May 20, the Carnegie Hero Fund Commission announced thirty more awards, money and medals, for bravery in different parts of the United States. Kentucky was shown not to be behind in the matter of real heroes. One of the most prominent cases handled is that of Paul Childers, a schoolboy, of 1631 Irvine street, Louisville, who is given a silver medal and \$2,000 with which to complete his education.

The Childers lad is reported by the hero commission to have shown great heroism on October 30, 1906, in saving the lives of Arthur S. and Caroline Childers, aged 1 and 3 years, from death by burning at their home. The younger child was secured in a baby's chair, with the other shut in the kitchen by the mother, who had gone to market. The house caught fire and Paul, 15 years of age, broke into the kitchen and carried out the two children, badly burned. He suffered some burns himself. The hero commission reports that Paul is anxious to take a course in business school and that he shall have \$2,000 with which to do this because of his bravery in life saving.

BRONZE MEDAL FOR BRAKEMAN.

Marion Clevenger, a brakeman, of Leon, Ky., is given a bronze medal in saving the life of George R. Clemons, a tot of 2 years, at Perry Station, Carter county, Ky., September 30, 1906. Clevenger was riding on the pilot of the locomotive ahead of a heavy freight, which was running down the child playing on the tracks. He grasped the child and pulled him upon the pilot to safety.

SAVED MAN FROM BULL.

Clifford V. Graves, of Versailles, Ky., has been awarded a bronze medal and \$700. On March 7, 1907, Graves, who is a farmer, saw a 3-year-old Jersey bull knock down and trample Merritt L. Brown, a colored man, and with no weapon save a pocketknife with a four-inch blade he attacked the bull, which also knocked him down and would have killed him with Brown but for the arrival of Graves' dog, which attacked the bull so viciously that the animal turned his attention to the dog, allowing both Brown and Graves to escape.

End to Johnson Boom.

W. J. Bryan's clean sweep in the Alabama primaries is thought by politicians to mean the collapse of the Johnson presidential boom. For over a month those who have been opposed to the renomination of Mr. Bryan have been centering their strength to make the first fight of importance in the State which alphabetically votes first at the Denver convention. Having signally failed to make a respectable showing in Alabama, it is taken for granted that the Johnson movement will be practically abandoned in the South.

Representatives Clayton and Helfin, of Alabama, who have been elected two of the four delegates-at-large from the State, received telegrams telling of the result. They go to Denver instructed for Bryan, and predict his nomination and election.

After Others Fail.

D. C. Scott, Avon, Ky., says: "I used Bourbon Hog Cholera Remedy after other remedies had failed and it speedily effected a cure. It has cured several herds in my neighborhood without the loss of a single hog." Sold by W. S. Lloyd.

Gov. Willson and Prison Commissioners Decide That More Room is Needed at Reform School.

The Board of Prison Commissioners called upon and explained to Gov. Willson the necessity of the immediate erection of a new dormitory and other improvements at the House of Reform at Lexington. There was nearly \$110,000 appropriated at the last session of the General Assembly for improvements at the Reform School, but Gov. Willson signed the bill carrying the appropriation on the understanding with the Commission that this money would not be used unless it was absolutely necessary, owing to the low state of funds in the State Treasury. For more than a year two grown boys, some of them practically men, have been forced to sleep together on a cot eighteen inches in width at the Reform School because of the lack of room. When this condition was explained to Gov. Willson he urged the commissioners to hasten in building the dormitory and assured them that it would be all right to go ahead and use as much of the appropriation as was necessary.

For some time the number of boys and girls at the Reform School has been so large that there has not been half enough room to accommodate them. It is a fact that now just twice as much room is needed at this place as there is.

Unusual Offer.

"It isn't often that I have faith enough in the medicine put up by other people to be willing to offer to refund the money if it does not cure," said W. S. Lloyd to an Advocate man who dropped into his store, "but I am glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that basis.

"The Dr. Howard Company, in order to get a quick introductory sale, authorizes me to sell their regular 50 cent bottles at half-price, 25 cents, and although I have sold a lot of it, and have guaranteed every package, not one has been brought back as unsatisfactory.

I am still selling the specific at half-price, although I cannot tell how long I shall be able to do so, and anyone who is subject to constipation, sick headache, dizziness, liver trouble, indigestion or a general played-out condition, ought to take advantage of this chance. You can tell your readers that if they are not satisfied with the specific they can come right back to my store and I will refund their money." 43-4t

Prohibition is a Success.

That prohibition is a success, is proven by the single fact that the liquor men are all opposed to it. If, as some men ignorantly assert, there is more liquor sold in prohibition territory than under license the saloon keepers, distillers and brewers would all be prohibitionists. A blind man can readily see that. The fact that they peddle lies and spend money, organize their forces and bend their energies to defeat prohibition, is proof positive that they know it reduces the sale of liquor and breaks the power of the accursed traffic.—L. L. Pickett.

With hogs close to six dollars a hundred; cattle, better than six; corn, four dollars a barrel and talk of mule colts at a hundred dollars a head indicates that the farmers are doing tolerably well.

On the 18th license was issued to Herbert Karrick, of Mt. Sterling, to marry Margaret Ellen Baber, of this county, marriage to take place on the 20th.

H. T. Strother, agent, sold the old Stubblefield property on Main street, 58 feet, to Vic Bloomfield at \$140 per front foot.

The Mt. Sterling Gazette, in an article on the election of R. H. Winn to the Republican State Chairmanship assumed that there is a split in the party. Where is the split? Who is it that is going to bolt? We know of none. Republican papers should be careful not to furnish ammunition to the enemy.

The Mt. Sterling Gazette, a Republican paper, concluded that because Senator-elect Bradley was not sent as a delegate to the National Convention that the party

has committed "political suicide." It is absurd to say it was an act of "political suicide." We have the highest regard for Mr. Bradley, but if it be true that the life of the Republican party depends upon one man, the sooner we know it the better. He might die, or something happen to him. We hope that the editor of the Gazette and the Senator-elect will continue to be a distinguished part of our robust vitality.

Burley Prospects Bright.

As Clarence Lebus, president of the Burley Tobacco Society, passed through Lexington on Wednesday to Winchester to attend a meeting of the executive board, he stated that one of the most important matters for the society at present was to have the tobacco which has been sold delivered as rapidly as possible so the growers could get the money. He said he was pleased with the success of the Equity movement and remarked: "If the success of the Equity Society continues we will not only be able to purchase the trust's plant in Lexington, but buy out the entire American Tobacco Company." Secretary Clark, of the Fayette County Society of Equity, was then about 250 hogsheads behind his orders, but hopes to see it all shipped within ten days. The largest consignment in the lot is 137 hogsheads sold to a Louisville brokerage firm. More than half of the Fayette county crop of 1906 has been sold and delivered.

Indiana Prohibitionists.

The Prohibitionists of Indiana nominated a full State ticket with the exception of Judges of the higher court and adopted a platform. Six of the twenty paragraphs are devoted to the liquor traffic.
