ATTENTION: Well, it's last-

minute Christmas shopping time and we've found something for that special person (or buy for yourself). These came from an old shoe factory that's been out of business for years. All are children's sizes. Little wooden shoes. Shaped like a child's shoe. A neat thing about these are they have a hole on top of the heel where you can put a candle and use as a candleholder. Some creative people paint on these or use your imagination. They're as found. Wood is in great shape. Some may have tac holes, paint, or glue on them. We've seen these in antique shops for \$16 each. But, you'll buy them for half price from us. Only \$8 each, plus shipping. Remember to dig out those old lamps and let us restore them. Contact: Ruth Osborne, P. O. Box 204, Higginsport, OH 45131; 937/375-6605. Always leave a message, if no answer, and we'll return your call.
